2. **Publish Canada's responses to Industry questions received during the question period.**

Question	Answer
1- The new GCKey contract will not be awarded until 2019, is it possible to request a 2 week extension to the closing date of January 31, 2017 ITQ to ensure we provide all of the necessary references etc.	We have no issues with extending the ITQ closing date by 9 days.
2- Clarify what if meant by "capable of" in Mandatory Requirement #4; The Respondent must have provided a service desk and be capable of providing a bilingual service desk for a period of at least 24 continuous months in the last 5 years where the service desk met or exceeded all of the following:	As a requirement of the resulting contract, which will be awarded at the end of this collaborative procurement process, the winning Bidder's service desk must provide service in both of Canada's official languages (English and French). However, at the Invitation to Qualify (ITQ) stage, of the procurement, the term 'capable of' is defined as; "having attributes required for performance or accomplishment." Therefore, providing a service desk in only

	English would be acceptable, provided that the Respondent also demonstrates to Canada in their response that their proposed Cyber Authentication service is also capable of providing French service desk services under the resulting contract.
3- For reference requirements B.1, B.3 and B.4 that must have been performed for a period of 24 continuous months within the last 5 years, please confirm that the continuous service dates must fall between January 31, 2012 and January 31, 2017 inclusive. Also, please confirm that this time period will not be altered if the ITQ close date should be extended beyond January 31, 2017.	The continuous service dates must fall between January 31, 2012 and the ITQ closing date.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED.
