For the Minister - Pour le Ministre		

This amendment 015 is raised to answer questions from the industry.

Q1: With respect to the Project Managers working on the project, is an ACS (attestation of collegial studies) supported by over 15 to 30 years of relevant work experience in the field of project management related to building automated controls acceptable? Reference 4.3.1.3.1 Project Manager.

R1: Yes, an ACS supported by the number of years of relevant work experience in the field of project management related to building automated controls is acceptable.

Q2: With respect to the Subject Matter Expert SME working on the project, is a Bachelor's degree in automated manufacturing engineering acceptable? You specify an Engineering degree/diploma related to the field of building automation systems. We don't know that this specific degree is offered in Québec. Reference 4.3.1.3.2 Subject Matter Expert

R2: Yes, a Bachelor's degree in automated manufacturing engineering is acceptable. However, the SME must also satisfy the number of years of relevant experience. Relevant experience would be in the domain of heating, ventilation and air-conditioning systems, building automation control system support and building controls design.

No other changes apply.
