### 2.3 Former Public Servant

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPSs, bidders must provide the information required below before contract award. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of bids is completed, Canada will inform the Bidder of a time frame within which to provide the information. Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the bid non-responsive.

#### Definitions

For the purposes of this clause, "former public servant" is any former member of a department as defined in the Financial Administration Act, R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- a. an individual;
- b. an individual who has incorporated;
- c. a partnership made of former public servants; or
- d. a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the Public Service Superannuation Act (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the Supplementary Retirement Benefits Act, R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the Canadian Forces Superannuation Act, R.S., 1985, c. C-17, the Defence Services Pension Continuation Act, 1970, c. D-3, the Royal Canadian Mounted Police Pension Continuation Act, 1970, c. R-10, and the Royal Canadian Mounted Police Superannuation Act, R.S., 1985, c. R-11, the Members of Parliament Retiring Allowances Act, R.S. 1985, c. M-5, and that portion of pension payable to the Canada Pension Plan Act, R.S., 1985, c. C-8.

If so, the Bidder must provide the following information, for all FPSs in receipt of a pension, as applicable:

- a. name of former public servant;

By providing this information, Bidders agree that the successful Bidder's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with Contracting Policy Notice: 2012-2 and the Guidelines on the Proactive Disclosure of Contracts.

### **Work Force Adjustment Directive**

Is the Bidder a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive? **Yes ( ) No ( )**

If so, the Bidder must provide the following information:

- a. name of former public servant;
- b. conditions of the lump sum payment incentive;
- c. date of termination of employment;
- d. amount of lump sum payment;
- e. rate of pay on which lump sum payment is based;
- f. period of lump sum payment including start date, end date and number of weeks;
- g. number and amount (professional fees) of other contracts subject to the restrictions of a work force adjustment program.

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including Applicable Taxes.

## **2.4 Enquiries - Bid Solicitation**

All enquiries must be submitted in writing to the Contracting Authority no later than 7 calendar days before the bid closing date. Enquiries received after that time may not be answered.

Bidders should reference as accurately as possible the numbered item of the bid solicitation to which the enquiry relates. Care should be taken by bidders to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that the Bidder do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all bidders. Enquiries not submitted in a form that can be distributed to all bidders may not be answered by Canada.

## **2.5 Applicable Laws**

Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force **in the province or territory where the goods and/or services are to be rendered.**

Bidders may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their bid, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. CCG is contracting out for the provision of placing, lifting/removal; maintaining and servicing of the following buoys/beacons as per the attached documents.

#### General Description of the Work:

- a. Place buoys on position in accordance with the navigational season
- b. Lanterns to be placed on appropriate buoys
- c. Maintain position and operation of both buoys and lanterns
- d. Repair, reposition and replace buoys as required
- e. Perform maintenance for fixed aids including servicing lanterns and brushing
- f. Submit Buoy/Beacon Service Reports through an aids to navigation database, SIPA mobile

### Tasks, Activities, Deliverables and Milestones

At the beginning of each navigation season or as directed by the Supervisor AtoN, the Contractor must place the seasonal buoys on their advertised position and ensure that the characteristics displayed agree with those described in the "Technical data and Schedule of Rates for Buoys". The Contractor must ensure the work is complete prior to the commencement of the navigation season for the local area and that the buoys remain in service until the end of the navigation season.

The Contractor must inspect each of the fixed aids covered by the contract monthly or more often as required to determine that it is functioning properly and that the characteristics displayed agree with those described in the "Technical Data and Schedule of Rates for Beacons".

### Work Specifications for Buoys

A "maintained buoy" is a buoy for which the Contractor:

- a. Checks the position and operation
- b. Services the light

- c. Places on station, repositions as required, removes at end of navigational season
- d. Carries out maintenance

The Contractor must ensure all buoys, moorings and lanterns are in proper working order before placing them in position at the beginning of the navigation season and report any discrepancies/defects to the Supervisor Aids to Navigation (AtoN).

The Contractor must immediately notify the Supervisor AtoN when the buoys are in position for the season. At the end of the navigation season or as directed by the Supervisor AtoN the Contractor must lift the buoys complete with their moorings and deliver them to a suitable storage area.

The Contractor must inspect all buoys monthly or more often (especially following periods of bad weather, ice conditions etc.) as required to determine that they are in their correct positions and that the lights, reflective tape and numbers are functioning properly.

The Contractor must change self-contained lantern units for which he/she has spares as necessary to maintain the lights as fully operational.

The Contractor must, as part of this contract, lift, tow and replace in proper positions such buoys that require repairs, renewal, or repositioning, during the navigation season as often as is necessary. If any buoy or its mooring is lost and not recoverable through no fault of the Contractor, he/she must immediately notify the Supervisor AtoN by e-mail or telephone.

If a buoy is out-of-position and cannot be repositioned within 24 hours due to sea or weather conditions, the Contractor must immediately notify the Supervisor AtoN by e-mail or telephone of the approximate position of the buoy. He/she must again notify the Supervisor AtoN when he/she has repositioned the buoy.

The following types of work are fair and reasonable indications of the maintenance and repairs which are to be carried out by the Contractor.

- a. Repair of worn or broken moorings
- b. Retightening or replacement of loose or missing fasteners
- c. Replacement of worn or torn reflective tape, letters and numbers
- d. Verify buoy colour is not obscured by dirt, debris or guano and clean buoy as required

This is not intended as a complete list of the Contractor's duties but is intended merely to illustrate the types of repair and maintenance which the Contractor is expected to perform.

### ***Buoy Positioning Method***

The contractor must use Global Positional System (GPS) set to either NAD 83 or WGS 84. Placement of the buoy may be by means of "sighting" the obstruction to be marked either visually or by sounding with echo sounder or hand lead in meters.

### ***Work Specifications for Fixed Aids***

- a. Replacement of loose boards
- b. Re-driving of loose nails and screws
- c. Re-tightening or replacement of loose fasteners
- d. Replacement of daymarks when faded, damaged or worn

Upon the commissioning of the buoys at the beginning of the navigational season, the Contractor must inspect each of the fixed aids (beacons) covered by this contract. If any lights are found to be not functioning or structures in need of repairs, this must be reported immediately, by e-mail or telephone to the Superintendent.

In the event of a fixed aid outage, the Contractor must immediately restore it to operation. If the Contractor is unable to restore the aid to operation with the tools and spares on hand, he/she must immediately notify the Supervisor AtoN by e-mail or telephone, of the outage and of the cause of the outage, if it is known.

The Contractor must change self-contained lantern units for which he/she has spares as necessary to maintain the lights as fully operational.

In the event of an outage which is temporarily inaccessible, due to sea or weather conditions, the Contractor must immediately notify the Supervisor AtoN by e-mail or telephone of the outage. He/she must again notify the Supervisor AtoN when he/she has repaired the fixed aid.

The Contractor must keep the aid site in a clean and orderly condition and must, under the direction of the Superintendent, remove brush and other vegetation as required to ensure that the aid is not obscured from marine approaches. The Contractor must ensure that such brushing out is done on property owned or leased by Her Majesty for the operation of the Aid to Navigation.

The Contractor must report to the Supervisor AtoN any repair work which he/she considers to be outside of this contract so the Supervisor AtoN can address.

This is not intended as a complete list of the Contractor's duties but is intended merely to illustrate the types of repair and maintenance which the Contractor is expected to perform.

19. Contractors should have local knowledge of the area, have experience with marine operations, and know the state of water levels, water depth, and strength of current in the area.

These recommendations are not intended as a complete list but as an illustration of the type of precautions that should be taken for the safe deployment of buoys. It is the responsibility of the contractor to identify all potential hazards associated with the deployment of navigational buoys and to ensure strict compliance with all relevant Federal and/or Provincial OH&S legislative requirements.
