Q1: In the hourly rates we are required to put in the Pricing Schedule, where do we include the cost of the pickup truck, tool. Example: We have a carpenter who lives in Bathurst and we have to go to Miscou. How do you manage these expenses?

A1: Regular pickup truck or car to transport labour (general labour, electrician, carpenter, plumber, painter, mechanical) will be paid under section Mobilization and Demobilization. A breakdown is required for each call-up. PSPC's project manager can negotiate the cost breakdown on each call-up.

Heavy equipment such as excavator, loader, roller, etc, used for the construction under each call-up, will be paid under Mobilization and Demobilization. A breakdown is required for each call-up. PSPC's project manager can negotiate the cost breakdown on each call-up.

Any truck, used for commercial delivery or in-house delivery of construction materials for each call-up, will be paid under item "Supply and Deliver of Materials". A breakdown or invoice is required for each call-up. No extra cost can be included if materials are being transported with a regular pick-up used to transport the labour (s).
