AMENDMENT 002

This amendment is being raised to respond to a question submitted in response to solicitation 5P420-16-5334/A:

A. QUESTIONS AND ANSWERS

Q1. We usually bid on jobs on a per meter cost. For this bid it looks like you would like a cost for the project on a per km price and a per liter price. Is this correct?

A1. Yes

Q2. For Item one in Annex B it requests a price of 36340L for yellow paint. If we were to use the requested number of 37.5L/km (pg 9 of SOW) that would give us around 970 km of painted yellow lines yet in the Line item 4 we have 1298 km of painted yellow lines.

A2. The bid evaluation will be based on the estimated quantities and unit price identified under Annex "B". Refer to Part 4, article 4.1.1. for further details on the financial evaluation process. The estimated quantities listed in Annex "B" are for evaluation purposes only and will not form part of any resulting contract.

Q3. For the gore painting am I to include the paint in the unit price or is that also included in the supply of White paint bid item?

A3. The unit price for the supply of paint is only required in Line item 1 and 2.

Q4. Are there any thermoplastic required anywhere, ie.. intersections?

A4. No.

Q5. Is there a list of intersections?

A5. No.

Q6. While reviewing Annex B it seems like the entire scope hatching total (3000sq meters) is pretty small. Do we include any hatching in the pricing for interchanges or is the hatching completely independent?

A6. Independent

All other terms and conditions remain the same.
