SOLICITATION AMENDMENT # 002

This solicitation amendment is raised to:

1. Address the following questions submitted during the solicitation period as per RFP.
-

1. QUESTIONS AND ANSWERS

Q1. Regarding Appendix 1A-Mandatory Performance Specifications item 5.2.7 “Bearings must be completely sealed and shielded with a weight load capacity of 2,200 lbs per bearing.”

I believe this should read 2,200 lbs per wheel. Each wheel has 2 bearings and together the weight load of the wheel should be 2,200 lbs.

A1. CRA will not be amending item 5.2.7; therefore, item 5.2.7 will remain as is
“Bearings must be completely sealed and shielded with a weight load capacity of 2,200 lbs per bearing.”

Q2.

- What is the distance between the two systems?
- Please confirm that all of the static shelving shown in Bond Room 333 is in fact existing shelving installed by the successful bidder.
- Is Static Shelving installed on an outside wall shown behind the mobile in Bond Room 333?
- Would photos of the existing space be available?

A2. The dimensions of Bond Room 333 are 11.9m (39' ½”) by 13.2m (43' 4”), with a usable height of 90”; a floor plan of the new Bond Room 333 is in a separate document.

The Contractor must determine a layout for this room that will maximize shelving space, with a minimum storing capacity of 2,400 boxes that each have the dimensions of 16”D x 12”W x 11”H.

Unfortunately, photos of the existing space are not available.

ALL OTHER TERMS AND CONDITIONS REMAIN UNCHANGED
