(iv) Profit

- Provision for Multi-year Contract***
- 10.6 The Fees must be expressed as fixed annual Fees by year (i.e. Year 1, Year 2, Year 3, etc).
- 10.7 The total cost of the individual Personnel is calculated by multiplying the average Fees for the proposed individual and the level of effort expressed in person-days for the position occupied by such individual.
- Currency***
- 10.8 Bidders must provide the price of the Services in Canadian dollars (CAD).
- Taxes***
- 10.9 Bidders are requested to exclude all Applicable Taxes from the price. Bidders, however, are requested to show the total estimated amount of Applicable Taxes in the financial proposal separately.
- 10.10 For the purpose of Proposal evaluation, all taxes are excluded.
- 10.11 Local taxes (including but not limited to value added or sales tax, social charges or income taxes on non-resident Personnel, duties, fees, levies) may be applicable on amounts payable to DFATD under the Contract. Bidders are requested to exclude all local taxes from their price, DFATD may reimburse the Consultant for any such taxes or pay such taxes on behalf of the Consultant. Reimbursement mechanism of applicable local taxes in the Recipient Country will be determined during contract negotiations.
- Costing Principles***
- 10.12 Cost of the Contract is comprised of the total Fees and Reimbursable Expenses, paid by DFATD for the provision of Services.
- 11. Proposal Evaluation**
- 11.1 Except when responding to requests to provide additional information as specified in paragraphs 9.1, 9.2, 9.4, 11.12, 11.20, 12 and 13 from the time the Proposals are submitted to the time the Contract is awarded, the Bidders must not contact DFATD, except the Point of Contact specified in the Data Sheet, on any matter related to their technical and/ or financial proposal. In addition, any effort by Bidders to influence DFATD in the examination, evaluation, ranking of Proposals, and recommendation for award of a Contract will result in rejection of the Bidders' Proposal.
- 11.2 Except as otherwise specified in this RFP, DFATD will evaluate Proposals solely based on the documentation provided as part of the Proposals. DFATD will not take into consideration any references in a Proposal to additional information not submitted with the Proposal.
- 11.3 DFATD's Proposal selection method is described in the Data Sheet.

- 11.4 Bidders are advised that proposals received as a result of this RFP will be evaluated by an evaluation team composed of representatives of Canada and may also include representatives of the Recipient Country and other external experts such as consultants. All proposals will be treated as confidential, in accordance with paragraph 19, Confidentiality.
- 11.5 The Evaluation Team will assess Proposals in accordance with the entire requirement of the RFP, including the technical and financial evaluation criteria as specified in Section 5, Evaluation Criteria. There are several steps in the evaluation process, which are described below. Even though the evaluation and selection will be conducted in steps, the fact that DFATD has proceeded to a later step does not mean that DFATD has conclusively determined that the Bidder has successfully passed all the previous steps. DFATD may conduct steps of the evaluation in parallel.
- Mandatory Procedural Requirements**
- 11.6 Any Proposal that fails to meet any of the mandatory procedural requirements will be considered non-compliant and will be rejected.
- 11.7 Proposals that comply with all of the mandatory procedural requirements will be evaluated based on the evaluation criteria as specified in Section 5, Evaluation Criteria. Any Proposals not meeting the mandatory evaluation criteria will be rejected.
- Evaluation of Technical Proposals**
- 11.8 Proposals that comply with the mandatory evaluation criteria will be evaluated based on the rated criteria.
- 11.9 In their technical proposals, Bidders are requested to address clearly and in sufficient depth the rated criteria specified in Section 5, Evaluation Criteria, against which the Proposal will be evaluated. Simply repeating the statement contained in the RFP is not sufficient. Bidders are requested to provide supporting data (for example, description of past experience, degrees, description of the Bidder's facilities, when applicable), to demonstrate their capability. Not completely addressing a rated criterion may result in a score of zero for that rated criterion.
- 11.10 The Proposals that fail to achieve the minimum technical score for the rated criteria indicated in the Data Sheet will be rejected and the financial proposal will remain unopened.
- 11.11 Only work experience of the Bidder will be assessed. In case of a consortium or joint venture, unless otherwise specified in Section 5, Evaluation Criteria, the experience of any Member could be included in a Proposal as work experience of the Bidder. Nevertheless, when the evaluation requirement is demonstrated through number of years/months of experience, the cumulative experience of the Members cannot be used. For example, if the RFP requires five (5) years of experience in education, and both Members independently have three (3) years each, the experience requirement will not be met. For the purposes of evaluation, listing experience with no substantiation to describe where and how such experience was obtained may result in a score of zero.
- 11.12 Where Form TECH-6A, where applicable, is not provided with the Proposal, DFATD will, in its evaluation, treat the Proposal as though there was no one identified to carry out that specific element of the project. Where Form TECH-6B, where applicable, is not provided with the Proposal or is improperly completed, DFATD will request corrections and/or completion from the Bidder. Bidders must submit the completed TECH-6B within the timeframe specified in the notification. If the completed TECH-6B is not

submitted within the specified timeframe, DFATD will treat the Proposal as though there was no one identified to carry out that specific element of the project. In this paragraph, “improperly completed” means:

- (a) There are one or more fields that are not completed; or
- (b) TECH-6B is not signed by the individual.

***Evaluation of
Financial
Proposals***

- 11.13 Financial proposal will only be opened and evaluated if the technical proposal achieves a score equal to or in excess of the minimum technical score indicated in the Data Sheet.
- 11.14 Fees and Reimbursable Expenses will be considered in the financial evaluation.
- 11.15 The evaluation of financial proposals will be carried out in accordance with the Data Sheet.
- 11.16 Unless otherwise specified in the Data Sheet, Bidders are requested to include and price in their financial proposal (FIN-1) all Personnel identified in any manner by the Bidder in the technical proposal and not specifically mentioned to be part of the overhead. Failure to do so will result in the financial proposal being scored zero.
- 11.17 Where the maximum funding is specified in the Data Sheet, the Bidder’s financial proposal must not exceed the maximum funding. If the Bidder’s Proposal exceeds the maximum funding, the Bidder’s Proposal will be rejected.
- 11.18 Where the minimum level of effort is specified in the Data Sheet and the level of effort proposed by the Bidder is below the specified minimum, DFATD will evaluate the Bidder’s financial proposal based on DFATD’s specified minimum level of effort.
- 11.19 Where the fixed level of effort is specified in the Data Sheet and the Bidder proposes a different level of effort, DFATD will evaluate the Bidder’s financial proposal based on DFATD’s fixed level of effort.

***Price
Justification -
Fees***

- 11.20 Bidders must provide price justification, on DFATD’s request, and within the specified timeframe. Such price justification may include one or more of the following:
 - (a) A copy of paid invoices or list of contracts for similar work, under similar conditions, provided to DFATD or other customers, including but not limited to fee history of assignments that covers at least one hundred (100) person-days billed in twelve (12) consecutive months over the last two years;
 - (b) A price breakdown showing the cost of direct labour/salary, fringe benefits, overhead/ indirect costs, profit and all other cost included in the proposed Fees; or
 - (c) Any other supporting documentation as requested by DFATD.

**12. Clarifications
of Proposals**

- 12.1 In conducting the evaluation, DFATD may, but has no obligation, to do the following:
 - (a) seek clarification or verification from Bidders regarding any or all information provided by them with respect to the RFP;

- (b) contact any or all references supplied by Bidders to verify and validate information submitted as fact;
- (c) request, before award of any Contract, specific information with respect to Bidders' legal status;
- (d) conduct a survey of Bidders' facilities, and/ or examine their technical, managerial, security and financial capabilities, to determine if they are adequate to meet the requirements of the RFP; and
- (e) verify any information provided by Bidders through independent research, use of any government resources or by contacting third parties, including any proposed resources.

12.2 Bidders will have the number of Days specified in the request by the Point of Contact to comply with paragraph 12.1. Failure to comply with the request will result in the Proposal being rejected.

12.3 Any clarifications submitted by a Bidder that are not in response to a request by DFATD will not be considered. No change in the financial proposal or substance of the technical proposal by the Bidder as a result of clarifications will be sought, offered, or permitted, except to confirm the correction of arithmetic errors discovered by DFATD in the evaluation of Proposals.

12.4 In conducting the evaluation, DFATD may, but has no obligation, to do the following:

- (a) correct any computational errors in the extended pricing of Proposals by using unit pricing;
- (b) if there is an error corresponding to the addition or subtraction of subtotals in a total, the total will prevail;
- (c) in case of discrepancy between word and figures, the former will prevail;
- (d) evaluate the financial proposal to reflect the minimum or fixed level of effort specified in the Data Sheet, if applicable;
- (e) in case of discrepancy between the level of effort in the technical and financial proposal, the financial proposal will be adjusted using the level of effort specified in the technical proposal; and
- (f) in case the financial proposal does not reflect the technical proposal, the financial proposal may be given a score of zero.

12.5 At the end of the evaluation process, the Point of Contact will advise the Bidder of the actions, if any, taken pursuant to the paragraph 12.4. A Bidder that disagrees may withdraw its Proposal.

13. Conditions of Contract Award

13.1 Before award of a Contract, a Bidder must meet the conditions listed below. Upon request by DFATD, a Bidder must provide, within the timeframe stated by DFATD, documentation to support compliance. Failure to comply with DFATD's request and meet the requirement within that timeframe will not delay the award of the Contract and may result in the Proposal being rejected.

(a) Financial Capability

In order to determine the Bidder's financial capability to meet the project requirements, DFATD may require to have access to the Bidder's financial information. If the Bidder is a consortium or joint venture, DFATD may

request financial information from each Member. Such financial information may include, but may not be limited to, the following:

- (i) audited financial statements, if available, or the unaudited financial statements for the Bidder's last three (3) fiscal years, or for the years that the Bidder has been in business if it is less than three (3) years (including, as a minimum, the balance sheet, the statement of retained earnings, the income statement and any notes to the statements);
- (ii) if the date of the above-noted financial statements is more than three (3) months before the date on which DFATD requests this information, the Bidder may be required to provide interim financial statements (consisting of a balance sheet and a year-to-date income statement), as of two (2) months prior to the date on which DFATD requests this information;
- (iii) if the Bidder has not been in business for at least one (1) full fiscal year, the following may be required:
 - opening balance sheet on commencement of business; and
 - interim financial statements (consisting of a balance sheet and a year-to-date income statement) as of two months prior to the date on which DFATD requests this information.
- (iv) a certification from the Chief Financial Officer or an authorized signing officer of the Bidder that the financial information provided is complete and accurate.

In the event that DFATD considers that the Bidder is not financially capable of performing the RFP requirement, DFATD may require that the Bidder, at the Bidder's sole expense, provide some form of guarantee, for example, a financial guarantee from the Bidder's parent company, an irrevocable standby letter of credit, drawn in favour of DFATD, issued by an Approved Financial Institution or in the case of non-Canadian bidder, confirmed by an Approved Financial Institution, a performance guarantee from a Third Party or some other form of security, as determined by DFATD. If a parent company or a Third Party guarantee is considered appropriate by DFATD for the Bidder to be financially capable, DFATD may require the parent company or Third Party financial information.

When the information requested above is provided to DFATD and marked confidential, DFATD will treat the information in a manner consistent with the Canadian *Access to Information Act*.

(b) Procurement Business Number

Bidders must have a Procurement Business Number. Bidders must register for a Procurement Business Number in the Supplier Registration Information service online at the following Website:

<https://srisupplier.contractscanada.gc.ca/>. In the case of a consortium or joint venture, the consortium or joint venture as a whole does not require a Procurement Business Number, but each Member must have a Procurement Business Number.

(c) **Security requirements associated with this RFP and the resultant Contract are specified in the Data Sheet.**

If required in the Data Sheet, the Bidder must meet the security requirements specified in the Data sheet. In the case of a consortium or joint venture, each Member must meet the security requirements.

(d) **Proof of Insurance**

Upon request by the Point of Contact, the Bidder must provide a letter from an insurance broker or an insurance company rated as A++ to B++ by A.M. Best stating that the Bidder, if awarded a Contract as a result of the RFP, can be insured in accordance with the insurance requirements specified in the Data Sheet. In the case of a consortium or joint venture, at least one Member must meet the insurance requirements.

(e) **M-30 Compliance with the Act Respecting the Conseil Exécutif du Québec (L.R.Q., chapter M-30)**

Bidders in Québec whose operations are partially or fully funded by the province of Québec may be subject to the Government of Québec *Act Respecting the Conseil exécutif* (L.R.Q., chapter M-30). Under sections 3.11 and 3.12 of this Act certain entities, as defined in the meaning of the Act, including but not limited to municipal bodies, school bodies or public agencies, must obtain an authorization, indicated by the Act, before signing any agreement with DFATD. Consequently, any entity that is subject to the Act is responsible for obtaining such authorization. In the case of a consortium or joint venture, each Member must comply with the requirement stated in this paragraph.

(f) **Integrity Provisions**

The Bidder must:

- i. As required under the Policy, incorporated by reference through paragraph 1.5.1 of this RFP, verify the status of all proposed first tier sub-consultants and contractors before entering into a direct contractual relationship in accordance with the Policy section 16 by either making an enquiry of the Registrar of Ineligibility and Suspension in the case of individuals, or in the case of sub-consultants and contractors that are not individuals, consult the public Ineligibility and Suspension List found on the [Integrity Regime](#) website.
- ii. Using item 2 of form TECH-3: Bidder's Organization, submit to DFATD a list of names as required by, and in accordance with sections 17 a. and b. of the *Ineligibility and Suspension Policy* (the List), Bidders may submit the List with their Proposal. In the event that the List is not submitted with the Proposal, DFATD will inform the Bidder of a time within which to submit the List. Failure to submit the List within the time specified will render the Bidder's Proposal non-responsive and the Bidder's Proposal will be rejected.

14. Negotiations

- 14.1 A time limit may be imposed by DFATD to ensure that negotiations are concluded effectively and in a timely manner. In instances where negotiations cannot be satisfactorily concluded between the selected Bidder and DFATD, the Bidder's Proposal will be given no further consideration. DFATD may initiate negotiations with the next highest-ranking Bidder.

- 15. Personnel Replacement prior to Contract Award**
- 15.1 If specific individuals are identified in the Bidder's Proposal, the Bidder must ensure that each of those individuals is available to commence performance of the Services as requested by DFATD and at the time specified in this RFP or agree to with DFATD unless the Bidder is unable to do so for reasons beyond its control. For the purposes of this paragraph, only the following reasons will be considered as beyond the control of the Bidder: long-term/ permanent illness, death, retirement, resignation, maternity and parental leave, dismissal for cause or termination of an agreement for default and extension of Proposal validity requested by DFATD. If, for reasons beyond its control, the Bidder is unable to provide the services of an individual named in its bid, the Bidder must provide a replacement with equivalent or greater qualifications and experience. The replacement will be evaluated against the original evaluation criteria specified in Section 5. For the purposes of evaluation, only the score of the individual named in the Proposal who is being replaced will be taken into account. Acceptance of the proposed replacement is not automatic and will be considered at the sole discretion of DFATD. If the proposed replacement does not, at a minimum, achieve the score of the individual named in the Proposal or is not acceptable to DFATD, DFATD may reject the Proposal and enter into negotiation with the next highest-ranking Bidder.
- 16. Performance Security**
- 16.1 To guarantee the Consultant's performance, ten (10) percent of the total Fees will be subject to a holdback. The application of the holdback is non-negotiable.
- 17. Notification/ Debriefing of unsuccessful Bidders**
- 17.1 After completing negotiations and awarding the Contract to the successful Bidder, DFATD will publish the award of the Contract on OECD/DAC website, GETS, DFATD website and whenever possible, official gazette of the Recipient country.
- 17.2 Bidders may make a written request to DFATD to receive an oral or written debriefing on the strengths and weaknesses of the Bidder's own Proposal and to receive the marks obtained by the Bidder for each requirement of the technical component published in the evaluation grid and the marks obtained for the financial component. All costs related to oral debriefings, including but not limited to communication and/or transportation costs, are the responsibility of the Bidder.
- 17.3 Bidders may also request the name of the successful Bidder, the total marks obtained by the successful Bidder in each of the categories of the technical component listed in Section 5, Evaluation Criteria, and the marks obtained by the successful Bidder for the financial component. Where the request involves a Bidder who is an individual, some information may qualify for protection under the *Privacy Act*.
- 18. Commencement of Services**
- 18.1 The Consultant is expected to commence provision of Services within the delay specified in the Data Sheet.
- 18.2 The Bidder is not to start work or render the Services prior to signature or the effective date of the Contract. Costs incurred by the Bidder prior to the effective date of the Contract will not be reimbursed by DFATD.

1. Rationale, Purpose and Specific Objectives of the Evaluation

1.1. Rationale of the Evaluation

Five projects comprise Pillar I and Pillar II of the Government of Canada – Canadian Red Cross Society Strategic Partnership to Enhance Humanitarian Assistance.

Pillar 1: Enhancing emergency response

Project 1: **Enhanced Emergency Disaster Assistance Fund**

Project 2: **Health in Emergencies**

Project 3: **Strengthening Global Emergency Response**

Pillar 2: Building strong national societies

Project 4: **Capacity Building for Emergency Response in the Americas**

Project 5: **Capacity Strengthening for Emergency Response in Africa**

Initiated almost at the same time, these projects are all close to the mid-point of their planned life cycle. It is therefore an appropriate point in time to take stock of the results achieved and consider measures to strengthen project implementation. The Department of Foreign Affairs, Trade and Development (DFATD) and the Canadian Red Cross Society (CRCS) will therefore use this evaluation to better understand what is working and what needs improvement, and guide the future implementation of each of the five projects.

1.2. Purpose of the Evaluation

The purpose of the evaluation is to:

- Support learning based on current performance and inform decision-making; and
- Account for development results to stakeholders.

The evaluation will comprise individual evaluations of each project, and an assessment of the contributions of each project to Pillar objectives.

1.3. Specific Objectives of the Evaluation

The specific objectives of the evaluation are the following:

- Assess the effectiveness, efficiency, relevance and sustainability of each project;
- Assess the complementarity of the projects within each pillar;
- Provide findings, conclusions, recommendations and lessons learned to inform the ongoing implementation of each of the projects.

2. Background Information

2.1. Evaluation Object

The following sub-sections briefly describe the context of the humanitarian projects being evaluated, the logic model and stakeholders of the projects.

2.1.1. Humanitarian Context

Canada, through its International Humanitarian Assistance Program, aims to save lives, alleviate suffering, and maintain the dignity of those affected by conflicts and natural disasters by providing appropriate, timely, and effective responses.

More than 90 percent of those affected by natural disasters (earthquakes, floods, hurricanes, landslides, and volcanoes) live in developing countries. The poverty, high-density populations, and environmental degradation affecting most of the people in these countries make them the most vulnerable to disaster and least able to help themselves when it happens.

The complex humanitarian situations that arise from civil war and conflict, most often characterized by widespread violence, a breakdown of law and authority, and massive population movements, also affect the world's poorest countries disproportionately.

The primary responsibility for responding to disasters lies with the government of the affected country. Usually, the affected communities themselves and their governments provide a significant first response to emergencies.

When the needs of the affected communities exceed the capacity of their government to respond, Canada and governments around the world provide assistance through an established international humanitarian response system. Canada's primary response to crises is financial support to organizations that make up the international humanitarian system, including the United Nations, the international Red Cross and Red Crescent Movement (RCM), and Canadian and international nongovernmental organisations.

2.1.2. Description of the Humanitarian Projects

A. The International Red Cross and Red Crescent Movement

The International Red Cross and Red Crescent Movement (RCM) is the largest humanitarian network in the world. It is present in nearly every country and supported by millions of volunteers around the globe. The RCM works to alleviate human suffering, protect life and health, and uphold human dignity, especially during armed conflicts and other crises.

The Red Cross and Red Crescent Movement is made up of three distinct bodies. Together they work to prepare for, respond to, and recover from humanitarian crises:

- 1. The International Committee of the Red Cross (ICRC)** – directs and coordinates the movement's response to armed conflicts and other situations of violence and, in close cooperation with national societies, provides humanitarian assistance. It advances humanitarian policy, particularly related to international humanitarian law, and acts as the guardian of the Geneva Conventions. The ICRC's mission is to protect the lives and dignity of victims of armed conflict and other situations of violence, and to provide them with assistance.
- 2. The International Federation of the Red Cross and Red Crescent Societies (IFRC)** – represents the Red Cross and Red Crescent national societies from nearly every country. The IFRC directs and coordinates the movement's response to natural disasters, and it works with national societies to support their domestic disaster relief and recovery efforts. The IFRC's mission is to improve the lives of vulnerable people by acting to prevent and alleviate human suffering.
- 3. Individual national societies** – currently numbering 190, national societies exist in nearly every country in the world. These societies are members of the IFRC and support ICRC emergency operations. In addition to contributing to Red Cross Movement international humanitarian efforts, they respond to domestic emergencies in their respective countries in coordination with public authorities. Their local knowledge, expertise, and on-the-ground presence enable national societies to often be the first to respond to a humanitarian situation.

B. The Canadian Red Cross Society

The Canadian Red Cross Society's mission is to improve the lives of vulnerable people by mobilizing the power of humanity in Canada and around the world. The CRCS is a member of the broader International Red Cross and Red Crescent Movement.

C. Strategic Partnership between the GoC and CRCS

On 23 June 2012, the Government of Canada and the Canadian Red Cross Society signed a Memorandum of Understanding outlining the broad parameters of a Strategic Partnership to increase cooperation to enhance Canada's humanitarian assistance. Under the Partnership, DFATD is supporting six projects implemented by the CRCS, each of which falls under one of three distinct but complementary areas of work, or "Pillars":

Pillar I Enhancing Emergency Response works to support and strengthen the International Red Cross and Red Crescent Movement's (RCM) regional and global humanitarian response systems, which are called upon to accompany and reinforce response efforts of individual National Societies when a humanitarian crisis overwhelms local capacities. Three projects fall under Pillar I:

1. The **Enhanced Emergency Disaster Assistance Fund (EDAF) SP1 (\$10.8M Sept 2014 – March 2018)** is a draw-down fund project that allows for immediate Canadian support to International Federation of Red Cross and Red Crescent Societies (IFRC) emergency operations in response to small- and medium-scale humanitarian situations, including natural disasters, non-recurrent health epidemics, and conflicts. The project also finances the management of humanitarian relief supplies on behalf of DFATD.
2. The **Health in Emergencies SP2 (\$16.7M Sept 2013 – June 2018)** project enables the deployment of emergency health response units (field clinics or hospitals) and medical teams to support International Red Cross and Red Crescent Movement emergency operations. The project also aims to strengthen the regional health response capacity of the RCM, with a particular focus on the Americas region.
3. The **Strengthening Global Emergency Response SP3 (\$18.3M Oct 2013 – July 2018)** project supports the CRCS and the broader International Red Cross and Red Crescent Movement to ensure that qualified humanitarian experts can be quickly deployed to support RCM emergency operations around the world. The project also provides targeted technical and financial support to improve the ability of the RCM to respond to emergency situations in key areas, including: international disaster law, logistics, information management, and emergency shelter.

Pillar II Building Strong National Societies focuses on strengthening the capacity of select national Red Cross societies in the Americas and Africa to respond to local emergencies. During humanitarian crises, local and national authorities and responders have the jurisdiction, responsibility, and critical on-the-ground presence to provide and lead the response to affected populations. Two projects fall under this Pillar:

1. The **Capacity Building for Emergency Response in the Americas SP4 (\$9.9M Feb/March 2014 – March 2019)** project focuses on strengthening the institutional capacity of National Societies in Nicaragua, Honduras, Haiti, Dominican Republic and Jamaica based on their identified needs in three areas: (1) improving emergency preparedness and response practices and support systems; (2) improving leadership in emergency response; and (3) improving resource mobilization for emergency response. The project also aims to provide training and technical assistance to the staff and volunteers of the National Societies.
2. The **Capacity Strengthening for Emergency Response in Africa SP5 (\$9.9M Feb/March 2014 – March 2019)** project focuses on strengthening the institutional capacity of National Societies in Mali,

South Sudan, Ethiopia and the Democratic Republic of Congo based on their identified needs in three areas: (1) improving emergency preparedness and response practices and support systems; (2) improving leadership in emergency response; and (3) improving resource mobilization for emergency response. The project also aims to provide training and technical assistance to the staff and volunteers of the National Societies.

Lastly, the **Pillar III Engaging Canadians** (\$5M July 2014 – Sept 2019) project aims to promote awareness, knowledge, and participation of Canadians on humanitarian issues, while raising the visibility among Canadians of Canada's important role and commitment to international humanitarian assistance. A separate formative evaluation will be conducted for Pillar III.

D. Operational structure

Within DFATD, the International Humanitarian Assistance Bureau within Global Initiatives and Development Branch funds and holds ultimate responsibility for projects falling under Pillars I and II.

The Engaging Canadians Bureau within Partnerships for Development Branch funds and holds ultimate responsibility for the Pillar III project.

The CRCS is responsible for the implementation of all projects

For Pillar I project implementation:

- The CRCS is the managing and coordinating body for the implementation of all project activities, including directing support to RCM partners IFRC, ICRC, and National Societies to strengthen RCM preparedness and timely response to emergencies.

For Pillar II project implementation:

- The CRCS is the managing and coordinating body which provides technical assistance to and builds the capacity of National Red Cross societies operating in targeted countries.
- Under the direction of the CRCS, the IFRC provides specialised technical assistance support to National Societies.
- National Societies work in coordination with the CRCS to fulfill the project objectives, and are responsible for leading project implementation in their respective countries. National Societies are also responsible for delivering assistance to the men, women, girls and boys affected by humanitarian crises.

At CRCS headquarters, at the operational level, the Director of the Emergencies and Recovery Unit holds responsibility for Pillar I projects. The Director of Development Programs holds responsibility for Pillar II projects. For both Pillars, project managers report to these roles.

2.1.3. Logic Model

The **ultimate outcome** for all projects under the Strategic Partnership is: lives saved, suffering alleviated and human dignity maintained in countries experiencing humanitarian crises or that are food insecure.

For **Pillar I Enhancing Emergency Response** projects, intermediate and immediate outcomes are:

1. Enhanced Emergency Disaster Assistance Fund (EDAF) SP1

The **intermediate outcome** is: strengthened life-saving global and regional emergency response capacity of the Canadian Red Cross, and in support of the international Red Cross and Red Crescent Movement.

The **immediate outcomes** are:

- (i) efficient contributions of emergency funds and relief supplies to emergency response operations; and
- (ii) effective contributions of emergency funds and relief supplies to emergency response operations.

2. Health in Emergencies SP2

The **intermediate outcomes** are:

- (i) enhanced Canadian Red Cross Society emergency health support to RCM emergency operations; and
- (ii) strengthened RCM (timely, effective, and relevant) response to health needs in emergencies.

The **immediate outcomes** are:

- (i) improved CRCS ability to deliver essential health services in emergencies;
- (ii) increased flexibility of CRCS health modules for quality delivery of essential health services in a variety of emergency settings;
- (iii) strengthened knowledge management to support continuous improvement of essential health services delivered in emergencies;
- (iv) Improved access to technical resources within IFRC Americas Zone for responding to priority health needs in emergencies; and
- (v) Strengthened ability of IFRC and ICRC to respond and lead in health in emergencies globally.

3. Strengthening Global Emergency Response (SGER) SP3

The **intermediate outcomes** are:

- (i) strengthened Canadian Red Cross surge support to International Red Cross and Red Crescent Movement emergency response operations; and
- (ii) strengthened RCM preparedness and timely response to emergencies of all magnitudes.

The **immediate outcomes** are:

- (i) improved availability and readiness of qualified delegates to fill relevant roles in emergency response;
- (ii) improved CRCS processes for emergency response;
- (iii) enhanced RCM emergency management and coordination systems;
- (iv) enhanced RCM enablers of emergency response; and
- (v) enhanced RCM emergency response surge capacity.

For **Pillar II Building Strong National Societies**:

The **intermediate outcome** is: strengthened response to emergencies by selected Red Cross National Societies in their respective countries.

The **immediate outcomes** are:

- (i) improved ability of select Red Cross National Societies to develop and maintain an emergency preparedness and response mechanism, and support systems;
- (ii) improved ability of select Red Cross National Societies to lead emergency response; and
- (iii) improved ability of select Red Cross National Societies to mobilize resources for emergency response.

2.1.4. Stakeholders

Stakeholder consultation is fundamental to DFATD evaluations of development interventions, thus the Consultant must ensure that stakeholders are consulted throughout the evaluation process.

Note: the Consultant will not share draft deliverables with stakeholders without DFATD approval. This requirement is made to ensure robust quality assurance throughout the evaluation process.

Co-operation partners (executing agencies or implementing organizations)

The CRCS is the executing agency responsible for the planning, implementation and reporting of the projects. At the local field level, the following national Red Cross societies are directly involved in project implementation of Pillar II projects:

- Haiti
- Honduras
- Nicaragua
- Dominican Republic
- Jamaica
- Democratic Republic of Congo
- Ethiopia
- Mali
- South Sudan

Primary stakeholders (direct beneficiaries)

- National Red Cross and Red Crescent societies operating in humanitarian crisis contexts
- IFRC and the ICRC responding to crises worldwide
- People affected by humanitarian crises, such as natural disasters, conflict situations and health epidemics

2.2. Evaluation Scope

The scope of the evaluation covers all projects under **Pillar I *Enhancing Emergency Response*** and **Pillar II *Building Strong National Societies*** of the Strategic Partnership, described in section 2.1.

3. Evaluation Criteria

The evaluation will apply the criteria below to assess:

3.1. OECD/DAC

1. Effectiveness
2. Efficiency
3. Relevance
4. Sustainability
5. Coordination

3.2. Cross-cutting Themes

6. Gender Equality
7. Environmental sustainability

3.3. Additional Issues

8. Risk Management

In addition to being guided by the aforementioned criteria, the Consultant will provide conclusions, recommendations and lessons for the future implementation of the projects.

4. Evaluation Questions

The Consultant will address the following questions:

4.1. OECD/DAC

4.1.1. Effectiveness

- a) Are projects contributing to Pillar objectives?
- b) Are projects complementary within each Pillar?

4.1.2. Efficiency

DFATD does not consider descriptive methods such as “expert judgement” as sufficient to measure efficiency. The analytical method must be capable of identifying potential improvements in efficiency within the aid intervention.¹

- a) How economically are resources/inputs (funds, expertise, time, etc.) being converted to outputs?
- b) Are the projects being implemented in the most efficient way compared to alternatives?

4.1.3. Relevance

- a) To what extent do Pillar II projects support National Society Development Plans?
- b) In humanitarian crisis situations, are Pillar I projects reaching people most affected by crises, and most vulnerable groups within affected populations?

4.1.4. Sustainability

- a) What factors present the greatest risks to sustainability of projects results, and what can be done to minimize these risks?

4.1.5. Coordination

- a) Is there sufficient coordination with other humanitarian actors such as United Nations agencies, non-governmental organizations, and broader RCM components, including other “Partner” National Societies, to avoid duplication and redundancy?

4.2. Cross-cutting Themes

4.2.1. Gender Equality

As per the Canadian International Development Agency’s (2010) *Gender Equality Policy and Gender Equality Action Plan*, gender equality is a cross-cutting theme that must be considered an integral part of all evaluations. Whether gender equality results are identified in the Logic Model or not, the integration or non-integration of gender equality as a cross-cutting theme in the intervention has to be assessed.

- a) Are Pillar II projects contributing to strengthened capacity to support gender equality within targeted national societies?
- b) Are efforts being made to ensure equal representation by men and women at all levels of project implementation?

¹ See: Palenberg, M. (2011) "Tools and Methods for Evaluating the Efficiency of Development Interventions". *Evaluation Working Papers*. Bonn: BMZ. Federal Ministry for Economic Cooperation and Development. 117p. Of particular interest, see the analytical method: *Comparative rating (by stakeholders) of efficiency*.

4.2.2. Environmental Sustainability

- a) Are environmental sustainability best practices implemented in each Pillar?

4.2.3. Violence Prevention

Pillar II projects have integrated Violence Prevention within targeted national societies as an additional cross-cutting theme.

- a) Are Pillar II projects contributing to strengthened capacity to support violence prevention?

4.2.4. Additional Issues

- a) Are the systems put in place by CRCS to monitor, report, manage and respond to development and operational risks realistic and appropriate?

5. Roles and Responsibilities

5.1. Consultant

The Consultant must carry out the evaluation in conformity with the “*OECD/DAC (2010) Quality Standards for Development Evaluation*” and best practices in evaluation.

The Consultant will have the overall responsibility for:

- Ensuring that all products adhere to the *OECD/DAC (2010) Quality Standards for Development Evaluation*;
- Design of the evaluation, including the methodology, budget and level of effort;
- Ensuring that the evaluation team possesses a mix of evaluative skills and thematic knowledge. In particular, ensure that the team has the capacity to ensure that gender equality is taken into account in all aspects of the evaluation and provide expertise in organizational capacity development;
- Conducting the evaluation in accordance with the approved work plan;
- Daily management of the evaluation process;
- Overseeing the work of the team members;
- Ensuring the quality assurance of all deliverables;
- Preparing and submitting all deliverables to the Project Technical Authority (PTA), for review and approval;
- Reporting regularly on progress to DFATD.

Note: The Consultant is fully responsible to manage all aspects of all evaluation team members.

5.2. DFATD

The DFATD PTA will be responsible for the following:

- Managing the Consultant’s contract;
- Acting as the main contact person for the Consultant;
- Providing guidance to the Consultant throughout the phases of execution and facilitating access to documentation and people deemed of importance to the evaluation process;
- Reviewing and approving all deliverables;
- Ensuring the quality control of all deliverables in collaboration with DFATD’s Development Evaluation Division and, as required, with sector and thematic specialists;
- Sharing approved deliverables with key stakeholders and those who may benefit from the evaluation;
- Collecting stakeholders’ comments on the two draft Evaluation Reports;

- Including the management response in each final Evaluation Reports;
- Including verbatim stakeholders' comments (if applicable); and
- Assessing the overall performance of the Consultant under the contract.

6. Evaluation Process

6.1. Start-up Meeting

The Consultant must attend (in person or via a tele or video conference) a start-up meeting with 1) DFATD PTA, 2) a member of the Evaluation Services Unit of the Development Evaluation Division. The purpose of this meeting is to ensure that:

- The participants understand DFATD expectations with regards to the quality of Evaluation deliverables;
- The participants understand DFATD's quality assessment process (Quality Assurance Grids) and timelines (time required to review and comment on deliverables); and
- The Consultant has the opportunity to discuss any issues regarding the mandate.

6.2. Work Plan

The Consultant must prepare a work plan that will operationalize and direct the evaluation. The work plan must follow the outline provided in Annex 1.2. Once approved by DFATD, the work plan will serve as the implementing tool to carry out the evaluation.

Note: Based on the work plan, DFATD may decide to terminate the present mandate at the end of the work plan phase.

The work plan will be elaborated based on the information presented in these ToR to bring greater precision to the planning and design of the evaluation. It will be based on a preliminary review of the documentation, discussions with key stakeholders, literature review, etc.

The following paragraphs provide guidance on how to address some sections of the work plan. However, all sections and annexes indicated in the outline of the work plan provided in Annexe 1.2 must be completed.

The work plan must include an evaluability assessment that will guide the evaluation design. The Consultant must:

1. review previous related evaluations (if applicable) to inform the evaluation design. The purpose of reviewing previous evaluation(s) as part of an evaluability assessment is NOT to update or follow-up on previous recommendations. The review is done to inform the current evaluation design and/or to mitigate constraints and limitations faced while previously evaluating the same object.
2. review the coherence and logic of the intervention and the Performance Measurement Framework (PMF) of the development intervention to:
 - assess the immediate, intermediate and ultimate outcome statements in terms of:
 - is each outcome clearly and unambiguously worded, containing only one idea?
 - can each outcome be measured?
 - is each outcome realistic and achievable?
 - is each outcome located at the proper outcome level?
 - are the causal relationships between outcome levels logical?
 - confirm a shared interpretation among key stakeholders of the development intervention's expected immediate and intermediate outcomes;

- validate indicators and targets to assess each outcome (NOT output) according to DFATD's RBM guide²; and
 - propose measures to address flaws in the above listed elements for purposes of conducting the evaluation.
3. review the evaluation questions. Evaluation questions can be withdrawn if they are impossible to answer, overly difficult or if there is a need to reduce the focus of the evaluation. Questions may be further elaborated, modified or added. All changes, additions or deletions of questions will be accompanied by a supporting argument/rationale.
 4. examine the following key factors:
 - existence and quality of data (specifically including sex-disaggregated data);
 - availability of key informants, and the timing of the evaluation; and
 - identification of whether key stakeholders want/resist having their development intervention evaluated (e.g., the level of resistance to the evaluation and its reasons).
 5. explain and note any factors that compromise the independence of the evaluation and address possible conflicts of interest openly and honestly.

The purpose, scope and evaluation questions will be used by the Consultant to determine the most appropriate approach for the present evaluation. The methodology will be developed in line with the evaluation approach chosen and support the answering of evaluation questions using credible evidence.

The methodology section is the most important section of the work plan. This importance will be reflected in its size relative to the entire document. In that section, the Consultant will explain and justify the selection of the proposed evaluation approach and will also specify and justify the overall evaluation design. Thus, to describe and explain the evaluation methodology and its application the Consultant will detail the proposed techniques for both data collection and data analysis (note: specific details on techniques for gender-sensitive data must be provided). The rationale for choosing those techniques will be provided and potential limitations and shortcomings will be explained.

Given that data will be collected from various samples (people, locations, etc.), it is important that these samples be representative of the population. Thus, in the methodology section of the work plan, the Consultant will detail the characteristics of each sample: how it is selected, the rationale for the selection, and the limitations of the sample for interpreting evaluation results. If a sample is not used, the rationale for not sampling and the implications for the evaluation must be provided.

The Consultant will explain how the data analysis information collected will be organized, classified, tabulated, inter-related, compared and displayed relative to the evaluation questions, including what will be done to integrate multiple sources.

All the detailed methodological elements stated above will assist the reader in understanding the logic of the Evaluation Matrix.

The Consultant will include in the Annexes to the work plan:

- Evaluation Matrix that must follow the template provided in Annex 1.3.

²http://www.international.gc.ca/development-developpement/partners-partenaires/bt-oa/rbm_guides-gar_guides.aspx?lang=eng

- Sampling: for each sample the following must be defined and explained in detail: the purpose, objectives, universe/population, sampling criteria, sample design, sampling frame, sampling unit, sample size, sampling method(s), proposed sample and limitations.
- Proposed draft data collection tools (interviews, focus groups or other participatory methods, protocols, tabulations, etc.).

6.3. Data Collection and Validation

The Consultant must undertake the data collection in accordance with the DFATD approved work plan.

The data collection must take no longer than 50 days. The Consultant will conduct two debrief/validation sessions with DFATD and CRCS.

Note: The validation during data collection process is not an approval exercise. It is meant to add validity and ensure that the Consultant's preliminary data (not yet findings) are reliable and relevant and, that important data have not been omitted or misinterpreted.

6.4. Evaluation Report

The Consultant must prepare an evaluation report for each Pillar describing the evaluation and putting forward findings³, conclusions, recommendations and lessons. The executive summary will follow the outline provided in Annex 1.4. The executive summary will be made publicly available on DFATD's web site. The Consultant is entirely responsible for the quality of the final reports and will follow *OECD/DAC (2010) Quality Standards for Development Evaluation*. The Consultant will not submit the draft evaluation reports to stakeholders without DFATD's approval (DFATD is responsible to collect CRCS comments). The Consultant is responsible for accurately representing and consolidating the input of the team members, stakeholders (including DFATD) in the final reports.

As per the OECD/DAC Standards, "Relevant stakeholders are given the opportunity to comment on the draft report. The final evaluation report reflects these comments and acknowledges any substantive disagreements. In disputes about facts that can be verified, the evaluators investigate and change the draft where necessary. In the case of opinion or interpretation, stakeholders' comments are reproduced verbatim, in an annex or footnote, to the extent that this does not conflict with the rights and welfare of participants."

6.5. Management Response

Both DFATD and CRCS will prepare management responses to the evaluation reports documenting their response to the recommendations and establishing how each organization will (or will not) follow-up on the recommendations. *Note: the Consultant is not responsible for this part of the process.*

6.6. Consultant Performance Appraisal

DFATD will assess the overall performance of the Consultant for the current mandate.

6.7. Dissemination

The DFATD Branch responsible for the current evaluation has the responsibility for dissemination and of ensuring that the executive summary is made public as per Canada's commitment to the International Aid Transparency Initiative.

CRCS will determine whether to publish the executive summary on its website.

³ The report will present the findings disaggregated by sex whenever possible, and appropriate.

7. Team Description

The Consultant will provide at least one (1) qualified individual for each of the following positions:

- Team Leader;
- Specialist in organizational capacity development.

7.1. Additional Evaluation Team Members

The Consultant may propose additional team members in its methodology. The members of the evaluation team should possess a mix of evaluative skills and thematic knowledge. In particular, the team should have the capacity to ensure that gender equality is taken into account in all aspects of the evaluation (i.e. design, data collection, analysis and reporting).

8. Language Requirements

The Team Leader and the Specialist in organizational capacity development must possess the following levels of proficiency in English:

- Oral proficiency = 4+ Advanced Professional Proficiency
- Written comprehension = 4+ Advanced Professional Proficiency
- Written expression = 4+ Advanced Professional Proficiency

A description of these language requirements can be consulted at the following website:

http://www.international.gc.ca/ifait-iaeci/test_levels-niveaux.aspx?lang=eng&view=d

9. Deliverables, Milestones, and Schedule

9.1. Deliverables and Milestones

All deliverables must be prepared in English and submitted to the PTA. Only the executive summary of the final evaluation report will be written in both official languages.

Both the draft and final work plan, and the draft and final evaluation reports will be submitted in MS Word or in compatible software. PDF files are not acceptable. If need be, the PTA will convert files into PDF format. Only the final evaluation report will be submitted in hard copy format. Presentations to be delivered will be submitted in electronic format to the PTA prior to delivery.

Upon the PTA's request, the Consultant will submit to the PTA, documents used/created under the Contract (e.g., questionnaires, focus groups protocols, interview notes, raw data, survey data, database(s), etc.).

9.1.1. Draft Work Plan

The Consultant must submit a draft work plan to the PTA within three weeks of signing the contract. The PTA in charge of the evaluation will share that work plan with CRC, as necessary. The Consultant must follow the outline in Annex 1.2.

9.1.2. Final Work Plan

Within one week of receiving the PTA's comments, the Consultant must submit a final work plan to be approved by the PTA.

9.1.3. Debrief/Validation Sessions

The Consultant must conduct an initial post-data collection debrief/validation session with DFATD and CRCS stakeholders by videoconferencing, to validate preliminary data. Within one week following the session, the Consultant must submit the minutes and any material provided to the PTA.

The Consultant must conduct a second follow-up debrief/validation session in Ottawa two weeks after completing the initial session. Presentation material will be submitted to the PTA at least three days prior to the session. Minutes and any supplementary material provided during the session are to be submitted one week following the session.

9.1.4. Draft Evaluation Reports

The Consultant must submit two draft evaluation reports - one for each Pillar (which must conform to the *OECD/DAC (2010) Quality Standards for Development Evaluation*) to the PTA for review within a maximum of four weeks after the second validation session with DFATD. The draft evaluation reports must include an Executive Summary (following the outline provided in Annex 1.4) and all the relevant annexes.

DFATD is responsible for sharing the draft reports with stakeholders and for collecting their comments.

The Consultant must not submit the draft evaluation reports to stakeholders without the PTA's approval.

9.1.5. Final Evaluation Reports

Within two weeks of receiving comments from the PTA, the Consultant must submit two final evaluation reports to DFATD. Note: before publication, DFATD will add the Management Response and Stakeholders' comments (if applicable) to the reports.

9.1.6. Presentation of the Final Reports

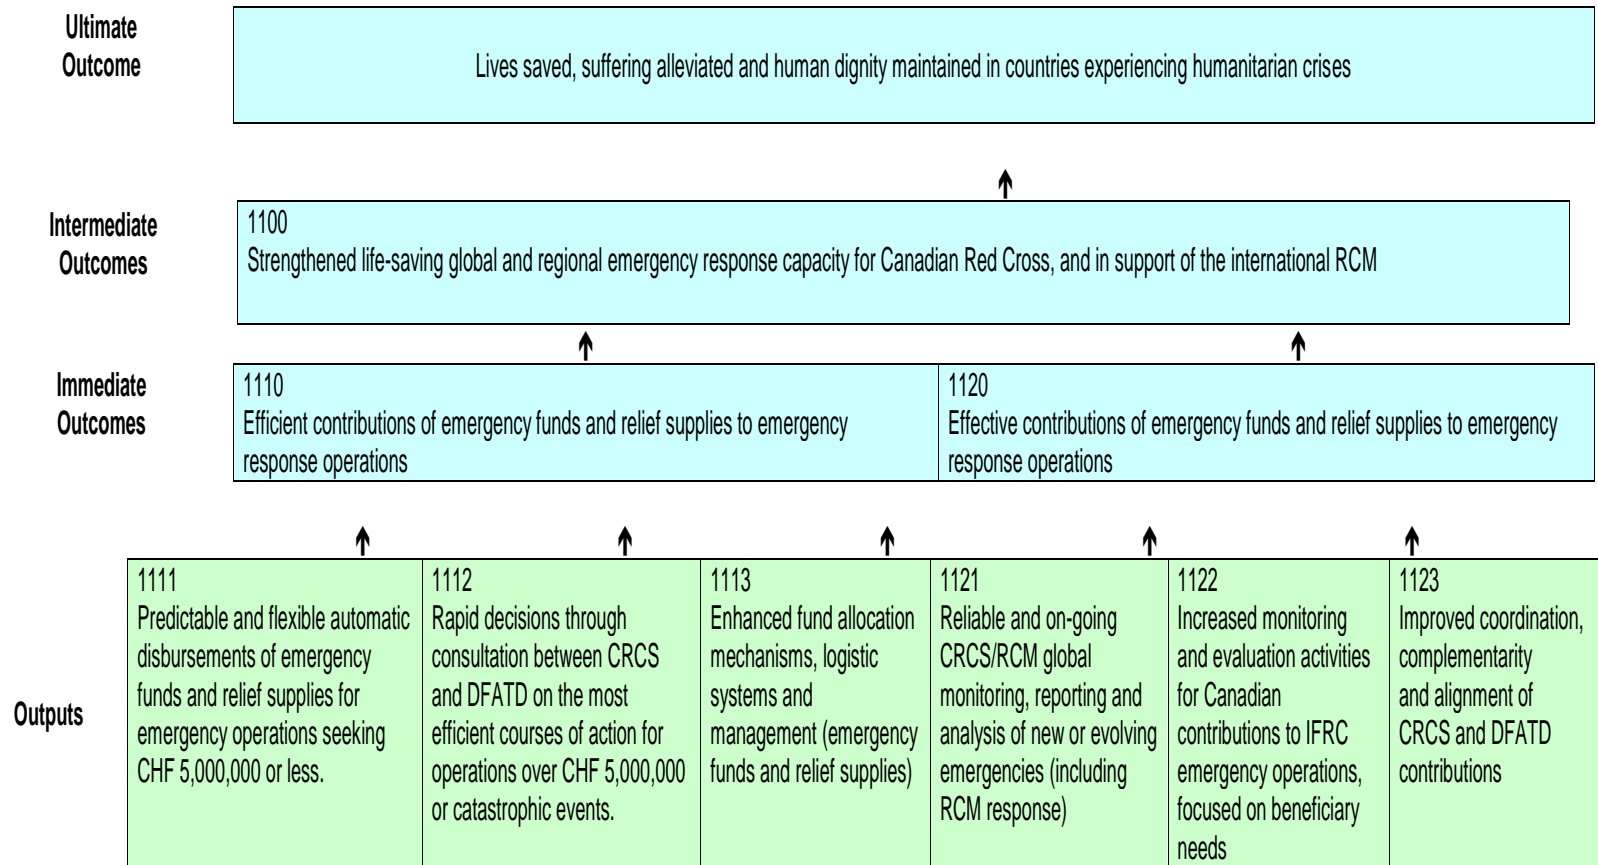

The Consultant must prepare and conduct a workshop, in Ottawa, to present the findings, conclusions, recommendations and lessons of the evaluation at a time and location to be decided by DFATD.

9.2. Missions

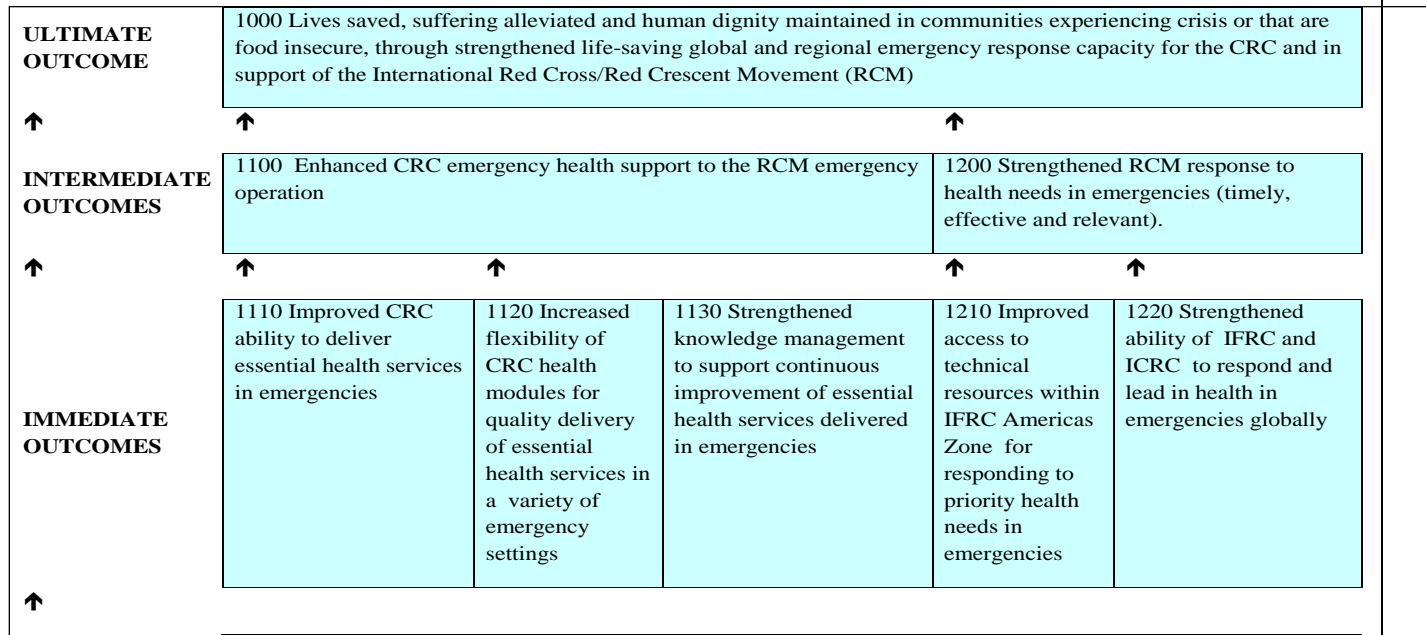

The data collection is expected to be no longer than 50 days in duration. DFATD estimates that two multi-country missions (4-5 countries/mission) will be needed to complete the mandate. One mission will take place in the Americas continent, and the second one in the Africa continent with a stop in Geneva.

Section 5. Evaluation Criteria

Guidance to Bidders

Mandatory Technical Criteria

The proposal must meet the mandatory technical criteria specified below.

Proposals which fail to meet the mandatory technical criteria will be declared non-responsive. Each mandatory technical criterion will be addressed separately. Proposals that meet all of the mandatory technical criteria will be evaluated and rated as indicated in the Rated Technical Criteria.

Rated Technical Criteria

Proposals will be evaluated and scored as specified in the table below. Proposals which fail to obtain the required passing mark will be rejected and declared non-responsive. Each rated technical criterion should be addressed separately.

If more projects/mandates are included in the Proposal than the number stipulated in the criteria, DFATD will only consider the specified number in order of presentation.

5.1. Definitions

For the purpose of this Bid Solicitation, the following definitions apply to the requirements:

The term “**at least**” reflects the minimum expectation for a requirement. No points will be awarded if the minimum requirement is not demonstrated.

The term “**a year of experience**” is defined as a minimum of 100 working days of work experience within a period of twelve (12) consecutive months.

An “**Evaluation Mandate**” means a specific "project" focusing on specific evaluation duties and tasks leading to evaluation deliverables such as an evaluation report.

“**Developing Countries**” are countries listed under DAC list of Aid Recipients

<http://www.oecd.org/dac/stats/documentupload/1809192.htm>

“**Fragile and Conflict-Affected State**”: A state can be regarded as fragile and conflict-affected when its government does not demonstrate the will and/or the capacity to deliver core state functions. These include legitimate security and authority, protecting and promoting human rights and gender equality, maintaining the rule of law, and providing basic services (e.g., health, education, environmental protection, and enabling private sector development).

“**International Humanitarian Assistance Projects**” means projects that aim to save lives, alleviate suffering, or maintain the dignity of those affected by conflicts and natural disasters by providing appropriate, timely, and effective responses. International humanitarian assistance projects focus on short-term interventions, and do not aim to address the root causes of poverty or conflict, nor substitute for long-term development efforts.

“**International Development**” means the objective of promoting sustainable development in developing countries in order to reduce poverty and contribute to a more secure, equitable and prosperous world. The list of official development assistance (ODA) is available at the following website:

<http://www.oecd.org/dac/stats/daclist.htm>.

“**Organizational Capacity Development (OCD)**” means the process through which individuals, organizations and societies obtain, strengthen and maintain the capabilities to set and achieve their own development objectives over time.

“**Recognized Education Institution**” is defined as a public, non-governmental or private entity that has been

given full or limited authority to grant degrees by an act of the relevant legislature.

“Results-based Management (RBM)” is a life-cycle approach to management that integrates strategy, people, resources, processes, and measurements to improve decision making, transparency, and accountability. The approach focuses on achieving outcomes, implementing performance measurement, learning, and adapting, as well as reporting performance.

5.2. Mandatory Technical Criteria

	MANDATORY TECHNICAL CRITERIA	Met / Not-met
M1	Using TECH-5 - <i>Curriculum Vitae for Proposed Personnel</i> , the Bidder must demonstrate that the proposed Evaluation Team Leader has at least 8 years of experience as an evaluator of international humanitarian assistance or international development projects.

2.7.2 When an order is made under the GC 2.7.1, unless the Contracting Authority terminates the Contract by reason of default by the Consultant or the Consultant abandons the Contract, the Consultant will be entitled to be paid its additional costs incurred, as DFATD considers reasonable as a result of the suspension order.

2.7.3 When an order made under the GC 2.7.1 is cancelled, the Consultant must resume the Services in accordance with the Contract as soon as practicable. If the suspension has affected the Consultant's ability to meet any delivery date under the Contract, the date for performing the part of the Services affected by the suspension will be extended for a period equal to the period of suspension plus a period, if any, that in the opinion of the Contracting Authority, following consultation with the Consultant, is necessary for the Consultant to resume the Services.

**2.8
Termination
due to default
of Consultant**

2.8.1 Except in situations identified in the GC 2.6.1, if the Consultant is in default of carrying out any of its obligations under the Contract, the Contracting Authority may, by giving written notice to the Consultant, terminate for default the Contract or part of the Contract. The termination will take effect immediately or at the expiration of a cure period specified in the notice, if the Consultant has not cured the default to the satisfaction of the Contracting Authority within that cure period. If the Contract is terminated in part only, the Consultant must proceed to complete any part of the Contract that is not affected by the termination notice.

2.8.2 If the Consultant becomes bankrupt or insolvent, makes an assignment for the benefit of creditors, or takes the benefit of any statute relating to bankrupt or insolvent debtors, or if a receiver is appointed under a debt instrument or a receiving order is made against the Consultant, or an order is made or a resolution passed for the winding down of the Consultant, the Contracting Authority may, to the extent permitted by the laws of Canada, by giving written notice to the Consultant, immediately terminate for default the Contract or part of the Contract.

2.8.3 If DFATD gives notice under the GC 2.8.1 or 2.8.2, the Consultant will have no claim for further payment except as provided under GC 2.8. The Consultant will be liable to DFATD for all losses and damages suffered by DFATD because of the default or occurrence upon which the notice was based, including any increase in the cost incurred by DFATD in procuring the Services from another source.

2.8.4 Upon termination of the Contract under this GC 2.8, the Contracting Authority may require the Consultant to deliver to DFATD or the Recipient Country, in the manner and to the extent directed by the Contracting Authority, any completed parts of the Services not delivered and accepted before the termination and anything the Consultant has acquired or produced specifically to perform the Contract. In such case, subject to the deduction of any claim that DFATD may have against the Consultant arising under the Contract or out of the termination, DFATD will pay or credit to the Consultant:

- (a) the value of the Fees for all completed parts of the Services performed and accepted by DFATD in accordance with the Contract;
- (b) the value of the incurred allowable Reimbursable Expenses as it relates to the Services performed and accepted by DFATD prior to the date of the termination notice; and
- (c) any other allowable Reimbursable Expenses that DFATD considers reasonable in respect to anything else delivered to and accepted by DFATD.

The total amount paid by DFATD under the Contract to the date of the termination and

any amount payable under this GC 2.8.4 must not exceed the Contract price.

2.8.5 If the Contract is terminated for default under the GC 2.8.1, but it is later determined that grounds did not exist for a termination for default, the notice will be considered a notice of termination for convenience issued under the GC 2.9

**2.9
Termination
for
Convenience**

2.9.1 At any time before the end of the Contract, the Contracting Authority may, by giving notice in writing to the Consultant, terminate for convenience the Contract or part of the Contract. Once such notice of termination for convenience is given, the Consultant must comply with the requirements of the termination notice. If the Contract is terminated in part only, the Consultant must proceed to complete any part of the Contract that is not affected by the termination notice. The termination will take effect immediately or, as the case may be, at the time specified in the termination notice.

2.9.2 If a termination notice is given pursuant to the GC 2.9.1, the Consultant will be entitled to be paid for costs that have been reasonably and properly incurred to perform the Contract to the extent that the Consultant has not already been paid or reimbursed by DFATD. The Consultant will be paid:

- (a) Fees for all Services performed and accepted before or after the termination notice in accordance with the provisions of the Contract and with the instructions contained in the termination notice;
- (b) the value of the incurred allowable Reimbursable Expenses as it relates to the Services performed and accepted prior to the date of the termination notice; and
- (c) all costs DFATD considers reasonable incidental to the termination of the Services incurred by the Consultant excluding the cost of severance payments or damages to employees whose services are no longer required, except wages that the Consultant is obligated by statute to pay.

2.9.3 DFATD may reduce the payment in respect of any part of the Services, if upon verification it does not meet the requirements of the Contract.

2.9.4 Upon termination of the Contract under this GC 2.9, the Contracting Authority may require the Consultant to deliver to DFATD or the Recipient Country, in the manner and to the extent directed by the Contracting Authority, any completed parts of the Services not delivered and accepted before the termination and anything the Consultant has acquired or produced specifically to perform the Contract. The total of the amounts, to which the Consultant is entitled to be paid under this GC 2.9, together with any amounts paid, due or becoming due to the Consultant must not exceed the Contract price. The Consultant will have no claim for damages, compensation, loss of profit, allowance arising out of any termination notice given by DFATD under this GC 2.9 except to the extent that this GC 2.9 expressly provides.

**2.10 Cessation

Obligations**

2.10.1 Upon termination of this Contract pursuant to the GC 2.7, 2.8, or 2.9, or upon expiration of this Contract pursuant to the GC 2.2, all rights and obligations of the Parties will cease, except:

An assignment agreement signed by the Consultant and the assignee must be provided to DFATD before such consent for assignment is given. Any assignment made without that consent is void and will have no effect.

Obtaining this protection from the supplier is the Consultant's responsibility and, if the Consultant does not do so, it will be responsible to DFATD for the claim.
