**Questions from Potential Bidders and Answers from Canada**

**Q19.** Will DND participate in the test solutions design review?

**A19.** Article 1.c of Part 4 of the RFP states that, “An evaluation team composed of representatives of Canada will evaluate the bids”. Technical bids will be evaluated by representatives from the Directorate of Land Command Support Systems (DLSCPSM) of the Department of National Defence (DND), except the Environmental Health and Safety portion, which will be evaluated by representatives from the Directorate of Land Equipment Program Staff (DLEPS) of the DND.

**Q20.** Will DND require formal review of all design documents (electrical schematics, mechanical, bill of material, acceptance test procedure, ...) of the test solution to be developed by the contractor?

**A20.** As required by Paragraph 5.1.1 of Annex A (Goods), Bidders must submit a Test Plan in accordance with Data Item Description (DID) ID No. SE-002, which specifies the required content of the Test Plan, and can be found in Appendix A2 of Annex A (Goods). Paragraph 10.2.2 of DID SE-002 requires Bidders to define the Performance Requirements, Equipment, Process, Data and Commissioning for each of the test sub-plans. Bidder Test Plans will be evaluated as described in Articles 3 and 5 of Part 4 of the RFP using Compliance and Evaluation Matrices specified in Annex G. The Test Plan of the winning bidder (i.e. the Contractor) will be refined and approved per Contract Data Requirements List (CDRL) Item No. 008, which can be found in Appendix A2 of Annex A (Goods). The above procedure does not describe a formal engineering design and acceptance process.
