Questions from Potential Bidders and Answers from Canada

Q21 No vendor / manufacturer information was identified in the TDP for “Fiber Optic CA2 Cable Harness 1017643” called up on the top level. Can you provide this information?

A21 Figure A-4 of Annex A (Goods) incorrectly references “Fibre Optic CA2 Cable Harness 1017643”. This will be revised to reference “Fibre Optic CA2 Cable Harness 0976654”. Parts List PL-0976421-3 correctly specifies CA ASSY, CA2, EXPANDED BEAM TO DUAL LC, GD CANADA # (REF.) 0976654-1. The Approved Vendors List (AVL) specifies numerous approved vendors for PN 0976654-1.

Q22 Will the Ethernet Switch manufacturer only need to have one set of SFP's for ESS testing, or are arrangements to be made for all of the SFP's to be sent to the Ethernet Switch manufacturer so they can be installed and ESS tested and then shipped as a complete unit (with the SFP's remaining attached)?

A22 Per Note 2 of Drawing 0976590-1_Rev-_Redlined of Engineering Change (EC) DLCSPM-EC-16-001, Environmental Stress Screening (ESS) must be applied to the completed assembly. Per PL-0976590-1_Rev-_Redlined of EC DLCSPM-EC-16-001 the completed assembly includes one Ethernet Switch and two screened XCVR Electro Optical SFPs. As such the Contractor must ensure that the screened XCVR Electro Optical SFPs are provided to the Ethernet Switch manufacturer such that:

- the ESS may be conducted with screened XCVR Electro Optical SFPs installed in the Ethernet Switch, and
- the tested assembly with the tested screened XCVR Electro Optical SFPs still installed is subsequently delivered to the Contractor.

Paragraph 5.2.2.7 of Annex A (Goods) will be revised to clarify this requirement.
