Although not mandatory, all contractors wishing to submit a tender for this work are encouraged to attend to become familiar with all aspects of the work. It is recommended that the Bidder or a representative of the Bidder visit the worksite and examine the Scope of the Work required and the existing conditions. Any clarifications or changes to the bid solicitation resulting from the site visit will be included as an amendment to the bid solicitation. Please note that this will be the only site visit for this project. No other site visits will be arranged during the tender period.

## **2. QUESTIONS / ANSWERS**

- Q1. Can we have some clarification on whether this is an all-inclusive maintenance, or simply preventative maintenance visits (inspections, belts & filters, where repairs would be extra).
- A1. As per Section 1.01 Description of work this Service Contract is to provide service and repair to the mechanical systems as per 1.14 Maintenance Inspections line .1 and .2. and 1.15 Basis of payment .2 line .1, .2, .3, .4 and .5. These inspections are to be administered as per Annex A, B and Annex C in the Specification.
- Q2. The equipment list looks like it may be incomplete. I imagine there would be some boilers on this list that aren't accounted for in the tender document.
- A2. The Equipment list is complete. There is a separate contract for any or all boiler inspection/repair.
