

ATTACHMENT 4.1 BID EVALUATION CRITERIA

The evaluation criteria contained in this attachment will be used to evaluate bids during the solicitation and to facilitate resource assessment after contract award.

The Bidder must not propose the same resource more than once in response to this solicitation.

Corporate Qualifications

	Mandatory Requirements	Reference in Bidder's Proposal
M1	<p>Corporate Qualifications – Project Summaries</p> <p>The Bidder must have been awarded at least three (3) IM/IT contracts, wherein they provided the same or similar services for a minimum of one (1) resource category in the Workstream they are bidding on, of which at least one was for a Government organization (Federal, Provincial, Municipal Crown Corporation) client.</p> <p>Bidders must clearly identify which Workstream they are bidding on.</p> <p>For each contract identified:</p> <ul style="list-style-type: none">a) the contract value must be at least \$2M;b) the Bidder must have provided at least five (5) resources simultaneously for a period of at least 12 consecutive months within the last twelve (12) years;c) to demonstrate this experience the Bidder must submit customer references for three individual IM/IT contracts (one reference for each contract) managed within the last twelve (12) years. The references must include:<ul style="list-style-type: none">i. the name of the organization;ii. the contract number;iii. a description of the services provided;iv. the name, and either the telephone number or e-mail address of the organization's contact responsible for the contract;v. the contract award date;

	<p>vi. the contract expiry date;</p> <p>vii. the dollar value of the contract; and</p> <p>viii. the number of resources provided.</p> <p>Only experience claimed since December 1, 2006 will be accepted.</p> <p>Only consulting services for the resource categories in the applicable Workstream of this solicitation will be accepted for evaluation purposes.</p> <p>If a Bidder is using TBIPS contracts to demonstrate experience, listing the resource categories will suffice.</p> <p>For non-TBIPS contracts, the work performed must be similar to the generic tasks described for the applicable resource category under TBIPS. The bidder must indicate the equivalent TBIPS resource category in its response. A copy of the TBIPS resource categories and their generic task lists for the resource categories that will be accepted for evaluation purposes has been attached for reference as Attachment 4.1 Appendix 1.</p>	
--	--	--

	Rated Requirements	Points	Reference in Bidder's Proposal
R1	<p>The Bidder should demonstrate that it has sufficient recent experience providing IT Professional consulting services. To demonstrate this experience, the Bidder must have invoiced for more than \$2,000,000 of IT Professional consulting services for a minimum of two (2) resource categories in the Workstream they are bidding on.</p> <p>Only work invoiced for since October 1, 2006 will be accepted.</p> <p>The following information must be provided to substantiate the business volume claimed:</p> <ul style="list-style-type: none">a) Contract number;b) start and end date of the Contract(s);c) amount invoiced for the contract;d) identify the services billed for. <p>Only consulting services for the resource categories in the applicable Workstream of this solicitation will be accepted for evaluation purposes.</p> <p>If a Bidder is using TBIPS contracts to demonstrate experience, listing the resource categories will suffice.</p> <p>For non-TBIPS contracts, the work performed must be similar to the generic tasks described for the applicable resource category under TBIPS. The bidder must indicate the equivalent TBIPS resource category in its response. A copy of the TBIPS resource categories and their generic task lists for the resource categories that will be accepted for evaluation purposes has been attached for reference as Attachment 4.1 Appendix 1.</p>	<p>Max - 9 Points</p> <p>Points will be awarded based on business volume invoiced in the following manner (M = Million):</p> <p>>\$2M to \$3.5M = 3 points >\$3.5M to \$5M = 6 points >\$5M or higher = 9 points</p>	

	<p>Previous Similar Projects: Where the bid must include a description of previous similar projects: (i) a project must have been completed by the Bidder itself (and cannot include the experience of any proposed subcontractor or any affiliate of the Bidder); (ii) each project description must include, at minimum, the name and either the telephone number or e-mail address of a customer reference; and (iii) if more similar projects are provided than requested, Canada will decide in its discretion which projects will be evaluated.</p> <p>A project will be considered similar to the Work to be performed under any resulting contract if the project was for the performance of work that closely matches the TBIPS description of the Resource Categories identified in Annex A or Attachment 4.1 Appendix 1. Work will be considered to "closely match" if the work in the provided project is described in at least 50% of the points of responsibility listed in the description of the given Resource Category.</p> <p>In order for the amount to be accepted for evaluation purposes, the amount claimed can only be for the categories that are similar to those in the applicable Workstream and only the amount invoiced for the resource category will be accepted. The bidder cannot claim any value of work that is not for the categories of the applicable Workstream.</p>

ATTACHMENT 4.1 — APPENDIX 1

TBIPS RESOURCE CATEGORY DESCRIPTIONS

TASK-BASED INFORMATICS PROFESSIONAL SERVICES STANDING OFFER/SUPPLY ARRANGEMENT

WORKSTREAM 1 – IM/IT OPERATIONAL SUPPORT

B.10 Help Desk Specialist
Experience Levels Level 1: <5 years of experience Level 2: 5-<10 years of experience Level 3: 10+ years of experience
Responsibilities could include but are not limited to: <ul style="list-style-type: none">• Perform a variety of network problem analysis and monitoring tasks, monitor network management systems and respond appropriately to user requests and problems• Perform initial problem analysis and triage problem to other appropriate staff when appropriate.• Maintain liaison with network users and technical staff to communicate the status of problem resolution to network users; log and track requests for assistance.• Develop, implement, and/or participate in the preparation of procedure manuals and documentation for help desk use; conduct periodic user satisfaction surveys and track user problem trends; make recommendations for improvements to the network systems and create reports based on information provided from user surveys and trends.• Develop, implement, and/or participate in the distribution of network related information to users to include information such as help desk procedures and network handbooks.• Participate in the development of a comprehensive training plan for help desk procedures; assist in training personnel providing backup coverage.• Participate in on-site installations of network systems for users.• Perform other related duties incidental to the work described herein.
B.13 Operations Support Specialist
Experience Levels Level 1: <5 years of experience Level 2: 5-<10 years of experience Level 3: 10+ years of experience
Responsibilities could include but are not limited to: <ul style="list-style-type: none">• Provide systems administration and systems operations support, including setting up user access, user profiles, back up and recovery, day-to-day computer systems operations.• Perform software upgrades, and apply patches.• Provide customer interface to ensure requested changes are implemented.• Monitor computer workload trends and make adjustments to ensure optimum utilization of computer resources.

WORKSTREAM 2 – IM/IT BUSINESS SUPPORT

B.1 Business Analyst

Experience Levels

Level 1: <5 years of experience
Level 2: 5-<10 years of experience
Level 3: 10+ years of experience

Responsibilities could include but are not limited to:

- Develop and document statements for considered alternatives.
- Perform business analyses of functional requirements to identify information, procedure, and decision flows.
- Evaluate existing procedures and methods, identify and document items such as database content, structure, application subsystems.
- Define and document interfaces of manual to automated operations within application subsystems, to external systems, and between new and existing systems.
- Establish acceptance test criteria with client.
- Support and use the selected departmental methodologies.

B.14 Technical Writer

Experience Levels

Level 1: <5 years of experience
Level 2: 5-<10 years of experience
Level 3: 10+ years of experience

Responsibilities could include but are not limited to:

- Document help text, user manuals, technical documentation, web page content, etc.
- Review documentation standards and the existing project documentation.
- Determine documentation requirements and makes plans for meeting them.
- Gather information concerning the features and functions provided by the developers.
- Assess the audience for the documents/manuals which are required and prepare a statement of purpose and scope for each.
- Develop a table of content for each document/manual and write or edit the required content.
- Investigate the accuracy of the information collected by making direct use of the material being documented.
- Prepare or coordinate the preparation of any required illustrations and diagrams.
- Design the layout of the documents/manuals.
- Use word-processing, desk-top publishing and graphics software packages to produce final camera-ready copy.

WORKSTREAM 2 – IM/IT BUSINESS SUPPORT (continued)

I.9 System Administrator

Experience Levels

Level 1: <5 years of experience
Level 2: 5-<10 years of experience
Level 3: 10+ years of experience

Responsibilities could include but are not limited to:

- Install, monitor, upgrade and maintain operating systems.
- Install, monitor, upgrade and maintain hardware and software.
- Work with Business Analysts, Project Managers, Developers, and clients/stakeholders to maintain and improve software performance.
- Apply problem solving skills to troubleshoot and resolve technical problems.
- Ensure timely and reliable system administration procedures, such as backup and/or recovery.
- Analyze system performance and recommend improvements.

I.10 Technical Architect

Experience Levels

Level 1: <5 years of experience
Level 2: 5-<10 years of experience
Level 3: 10+ years of experience

Responsibilities could include but are not limited to:

- Develop technical architectures, frameworks and strategies, either for an organization or for a major application area, to meet the business and application requirements.
- Identify policies and requirements that drive out a particular solution.
- Analyze and evaluate alternative technology solutions to meet business problems.
- Ensure the integration of all aspects of technology solutions.
- Evaluate hardware and software relative to their ability to support specified requirements and, by determining potential and actual bottlenecks, and improve system performance through recommended hardware changes.
- Review computer software systems and data requirements as well as communication and response needs and determine operating systems and languages needed to support them.

WORKSTREAM 2 – IM/IT BUSINESS SUPPORT (continued)

I.11 Technology Architect

Experience Levels

Level 1: <5 years of experience
Level 2: 5-<10 years of experience
Level 3: 10+ years of experience

Responsibilities could include but are not limited to:

- Develop technical architectures, frameworks and strategies, either for an organization or for a major application area, to meet the business and application requirements.
- Identify the policies and requirements that drive out a particular solution.
- Analyze and evaluate alternative technology solutions to meet business problems.
- Ensures the integration of all aspects of technology solutions.
- Monitor industry trends to ensure that solutions fit with government and industry directions for technology.
- Provide information, direction and support for emerging technologies.
- Perform impact analysis of technology changes.
- Provide support to applications and/or technical support teams in the proper application of existing infrastructure.
- Review application and program design or technical infrastructure design to ensure adherence to standards and to recommend performance improvements.

P.2 Enterprise Architect

Experience Levels

Level 1: <5 years of experience
Level 2: 5-<10 years of experience
Level 3: 10+ years of experience, or 5+ years of experience with a recognized professional certification

Responsibilities could include but are not limited to:

- Evaluate the enterprise's business/ICT architecture, determine its consistency and integration with the organization's business/ICT strategies, assess the degree of its alignment with Treasury Board CIO Business Transformation Enablement Program (BTEP) and Federated Architecture Program (FAP) and recommend changes to the business/ICT architecture to improve its alignment with these external factors.
- Identify future business/ICT requirements against the current enterprise architecture, perform gaps analyses, develop Requirements for Technology Architectures (RTA), and prepare migration strategies.
- Assess the feasibility of migrating from the current state to the target business architecture and enabling technologies and identify the risks associated with migrating to the target business architecture and technologies and make recommendations for risk mitigation.
- Identify business and technology trends that create opportunities for business improvement, advise business and ICT Senior Executives on ICT trends and emerging technologies and the impact on the organization's and government ICT architectures and business strategies, model "What if" scenarios and recommend appropriate changes to the existing architecture and ICT infrastructure, and recommend alternative solutions, methodologies and strategies.
- Produce an architectural evolution plan, recommend prioritization of architecture evolution initiatives, and develop and/or implement an architecture evolution plan.
- Manage the development and implementation of an architectural improvement plan.
- Coach, mentor and train the organization to perform any of the above.

WORKSTREAM 3 – IM/IT PROJECT SUPPORT

P.2 Enterprise Architect

Experience Levels

Level 1: <5 years of experience

Level 2: 5-<10 years of experience

Level 3: 10+ years of experience, or 5+ years of experience with a recognized professional certification

Responsibilities could include but are not limited to:

- Evaluate the enterprise's business/ICT architecture, determine its consistency and integration with the organization's business/ICT strategies, assess the degree of its alignment with Treasury Board CIO Business Transformation Enablement Program (BTEP) and Federated Architecture Program (FAP) and recommend changes to the business/ICT architecture to improve its alignment with these external factors.
- Identify future business/ICT requirements against the current enterprise architecture, perform gaps analyses, develop Requirements for Technology Architectures (RTA), and prepare migration strategies.
- Assess the feasibility of migrating from the current state to the target business architecture and enabling technologies and Identify the risks associated with migrating to the target business architecture and technologies and make recommendations for risk mitigation.
- Identify business and technology trends that create opportunities for business improvement, advise business and ICT Senior Executives on ICT trends and emerging technologies and the impact on the organization's and government ICT architectures and business strategies, model "What if" scenarios and recommend appropriate changes to the existing architecture and ICT infrastructure, and recommend alternative solutions, methodologies and strategies.
- Produce an architectural evolution plan, recommend prioritization of architecture evolution initiatives, and develop and/or implement an architecture evolution plan.
- Manage the development and implementation of an architectural improvement plan.
- Coach, mentor and train the organization to perform any of the above.

P.5 Project Executive

Experience Levels

Level 1: <5 years of experience

Level 2: 5-<10 years of experience

Level 3: 10+ years of experience, or 5+ years of experience with a recognized professional certification

Responsibilities could include but are not limited to:

- Manage several Project Managers, each responsible for an element of the project and its associated project team.
- Define and document project objectives, determine budget requirements.
- Meet with other organizational executives to ensure all organizational (internal and external) stakeholders are committed and moving forward on project and organizational goals.
- Resolve issues related to the project.
- Prepare plans, charts, tables and diagrams to assist in analyzing or displaying problems; work with a variety of project management tools.
- Project sign-off.

WORKSTREAM 3 – IM/IT PROJECT SUPPORT (continued)

P.6 Project Administrator

Experience Levels

Level 1: <5 years of experience

Level 2: 5-<10 years of experience

Level 3: 10+ years of experience, or 5+ years of experience with a recognized professional certification

Responsibilities could include but are not limited to:

- Assist project management and data processing professionals, technical users and end users in simple routine tasks.
- Provide administrative and technical support of a clerical nature as required to projects.
- Assist in performing such tasks as maintaining project documentation and application/system libraries.
- Act as the first point of contact in a "hot-line" situation by accepting incoming calls, logging calls, attempting to resolve simple problems and following established procedures for more difficult problems.
- Track project change requests.
- Maintain and update relevant project information in manual and/or electronic files; project information might include such things as project activity schedule, status reports, correspondence.
- Use computer tools, aids, system control languages on PCs, minis, or mainframes to perform work.
- Communicate with project management and data processing professionals, technical users and end users on administrative matters related to the project.

P.9 Project Manager

Experience Levels

Level 1: <5 years of experience

Level 2: 5-<10 years of experience

Level 3: 10+ years of experience, or 5+ years of experience with a recognized professional certification

Responsibilities could include but are not limited to:

- Manage several Project Managers, each responsible for an element of the project and its associated project team.
- Manage the project during the development, implementation and operations startup by ensuring that resources are made available and that the project is developed and is fully operational within previously agreed time, cost and performance parameters.
- Formulate statements of problems; establishes procedures for the development and implementation of significant, new or modified project elements to solve these problems, and obtains approval thereof.
- Define and document the objectives for the project; determine budgetary requirements, the composition, roles and responsibilities and terms of reference for the project team.
- Report progress of the project on an ongoing basis and at scheduled points in the life cycle.
- Meets in conference with stakeholders and other project managers and states problems in a form capable of being solved.
- Prepare plans, charts, tables and diagrams to assist in analyzing or displaying problems; work with a variety of project management tools.
- Project sign-off.
