AMENDMENT #1

THE PURPOSE OF THIS AMENDMENT IS TO POST QUESTIONS AND ANSWERS AND TO POST DOCUMENT

Questions and Answers

Q1. On the bench that goes onto the “I” beam how the wooden materials attached to the “I” beam for the seat part? There is nothing there in the details for this.

A1. Connection details required for Bench Fabrication to be provided by the Contractor as part of the “Shops Drawing” Submissions.

Q2. The materials for decking is calling for 50mm x 150mm do this number have to be true as 2x6 is a tad bit smaller than that?

A2. Metric or dimensional 2X6 will be considered adequate. The intent is to use ‘actual’ sizes. For example, 2 x 6 in imperial is actually 1½ x 5½. The spacing dimension shown on the drawings is also important.

Q3. For the new stairs to be made going done over the bank ,Where there is a lot of twists and turns and sharp bends can onsite welding be applied here in this area?

A3.

1. Contractor to adjust layout of stairs and landing to optimize cost of both staircase and hand rail construction.
2. Location of mechanical joints to be provided by contractor during shop drawing process
3. Appearance of field welded joints to match fabricated hand rail sections

In addition, the ‘twists’ and ‘turns’ included on the plans were intended to illustrate the ‘field fit’ requirement of the staircase layout over existing terrain. The final alignment on site is to be agreed with the Department Representative, taking into consideration the need, if any, for onsite welding.

Q4. The bank behind the original cross, the slope says 2-1 slope .that slope cannot be achieved as the bank is more like a 4-1 full of boulders with no room to expand?

A4.The intent is to soften the overall appearance of the existing man-made ‘point’ by regrading and reshaping it using the material found on site. In areas where achieving a 2:1 slope is not possible, repositioning boulders will help retain slopes where required. The end result should be an overall aesthetic that is more in keeping with the

natural shoreline. A sketch proposing how that might be achieved has been uploaded into the attachments.
