Project Description / Description de projet Solicitation No. 16-22151: Water treatment Services for the National Research Council 1200 Montreal rd. campus, Ottawa		
Solicitation No./ N° de sollicitation 16-22151	Project No./N° de projet	W.O. No./N° d'ordre de travail
Departmental Representative / Représentant Ministériel Steve Cassidy	Date March 24, 2017	
<p><u>Questions:</u></p> <p>14. If present supplier is not selected, who owes the chemical feed equipment such as control panels, chemical tanks and testing equipment?</p>	<p><u>Answers:</u></p> <p>14. All rented equipment is returned to the owner once replacement equipment has been provided. All storage tanks (liquid) and chemical feed (liquid) equipment owned by present supplier must be returned as soon as possible once the previously purchased liquid product by the NRC has been used. All other NRC owned equipment can be transitioned over to the new chemical systems provided by the selected supplier as current chemical supply has been used. This time frame will allow for seamless transition of products and equipment. An accelerated change over schedule will be at the expense of the winning supplier.</p>
