This Solicitation Amendment No. four (4) is raised to include the following addendum no. 4.

The following addendum to the tender documents is effective immediately. This addendum shall form part of the contract documents.

All other terms and conditions remain the same.

Addendum No. 4.

1. QUESTIONS / ANSWERS

Q1. Under Description – Major Operational Inspection, Section 3.5 Software Maintenance

There are three types of controls (VCI, Honeywell, Automated Logic) there would be no way for any one company to provide software maintenance for all three. Please clarify.

A1. The Contractor will provide this service on all Controls listed in this Spec's 1.14 Maintenance Inspections .1 Lines .1 and .2 and as per Annex "A", "B" and "C". Also they will provide repair service if required as per 1.15 Basis of Payment. The Contractor must be qualified and knowledgeable as per 1.19 Qualifications .1 and .2 in all 3 controls systems

Q2. In the event of an unplanned equipment failure (motor, pump, bearing, compressor, etc), is the contractor required to cover the costs of those repairs?

A2. For any unforeseen equipment failure the Contractor will provide service as per the hourly rate and materials as per the Spec, under Section 1. 15 Basis of Payment .2 line .3, .4 and .5.

Q3. The spec does not mention filters or belt replacements. A typical maintenance on air handling equipment is usually 4 times per year for filter replacements, and once yearly for belt replacement. Are we to price this maintenance without allowing for these materials?

A3. For any unforeseen equipment failure the Contractor will provide service as per the hourly rate and materials as per the Spec, under Section 1. 15 Basis of Payment .2 line .3, .4 and .5.
