

**ADDENDUM NO. 2**

**Questions and Answers**

April 7, 2017

**To: All Bidders**

**Subject: The provision of sample collection services. RFP G0607**

Bidders are hereby notified of the following questions raised to date.

**Question 1.**

- a. Under section 4.1.2 – Financial Evaluation, can you please confirm if the overall contract valuation of \$990K (and Option 1 of \$390K) would be over a period of 12 months?
- b. Under section 6.1 – Sample Collection, is the annual estimated sample volume 24,000 or 6,000?
- c. With respect to the samples, specifically, what would the general weight range be of the samples by tier?
- d. What CFIA labs would the samples be shipped to?

**Answer 1.**

- a. The estimated overall contract value of \$990K includes the contract period April 1, 2017 - October 31, 2018 as well as 1 option year from November 1, 2018 - October 31, 2019.
- b. The actual estimated sample volume is 6000 as per the table under section 6.1. There is an error in the text of 6.1 where it says 24,000 and it should in fact read 6000. An amendment to the Request for Standing Offer (RFSO) will be posted on the Buy&Sell site.
- c. Generally for all tiers the minimum sample size is 500g for Chemistry samples and 250g for Micro samples. Note that some of the samples are per unit requirements (ie. 1 lobster, 20 oysters).
- d. CFIA - Greater Toronto Area  
CFIA - Burnaby  
CFIA - Calgary  
CFIA - Saskatoon  
CFIA - Ottawa  
CFIA - Dartmouth  
CFIA - St. Hyacinthe  
CFIA - Longueuil

ALL OTHER TERMS & CONDITIONS OF THE SUBJECT RFS REMAIN UNCHANGED.
