Amendment No. 003

This amendment is being raised to provide responses to Requests for Clarification.

REQUESTS FOR CLARIFICATION

- Q1. Considering that there's a separate contract for the gates, we are unable to comprehend the scope for mechanical engineering, kindly advise.
- A1. There is no scope of work for mechanical engineering. Scope of work for the dam and bridge has been updated in Amendment No. 002. Please see Revision to RFP for Project Brief (PB), Project Requirements (PR) 4 Scope of work in Amendment 002.
- Q2. We notice that mechanical and electrical engineers are evaluated although their scope is not likely to be significant. We also notice that hydraulic engineers are not evaluated. Kindly reconsider the evaluation criteria for the CVs.
- A2. Please see Amendment No. 002, Revisions to RFP for SRE 3 Submissions Requirements and Evaluation -3.1 Mandatory Requirement – 3.1.2 Consultant Team Identification; and 3.2 Rated Requirements - 3.2.2 Achievements of Senior Team Leaders to be Assigned to this Project.
- Q3. Kindly consider 14 days extension for bid submission.
- A3. No.
- Q4. The costing table indicates that \$100,000 in geotechnical disbursements has already been set aside. We interpret this, based on the wording, to include only the field disbursement costs and not the geotechnical engineer's time needed to plan, be on site during field work, and assess the results. Could you please confirm?
- A4. Yes, the \$100,000.00 disbursements for Geotechnical Field Work are to cover the cost to perform the field work and associated lab testing of samples. Engineering fees related to geotechnical work are not to be included under Disbursement.

All other terms and conditions of the solicitation remain the same
