Description of Work:

Environment and Climate Change Canada has identified resource requirements to support the delivery of Government of Canada's Web Renewal Initiative (WRI) and other departmental priority projects. This includes the modernizing of existing Canadian Wildlife Service (CWS) branch applications as well other departmental solutions so that they meet the new WET4 and Canada.ca standards. These projects are multi-year projects which include collaboration with multiple stakeholders. Environment and Climate Change Canada seeks to engage a Programmer Analyst – Level II and a Tester – Level III contractors to assist in the completion of these projects.

- The work identified in this solicitation is currently **not being** performed by a contracted resource.
