SECTION 1 – BID SUBMISSION REQUIREMENTS

1.1 REQUIRED INFORMATION

This section outlines the information Bidders are required to submit. To be declared responsive, a bid must:

- a. comply with all the requirements of the RFP;
- b. meet all the mandatory technical evaluation criteria;
- c. obtain the required minimum overall score for the technical evaluation criteria which are subject to a point rating.

Bids not meeting (a) or (b) or (c) will be declared non-responsive. An evaluation team comprised of representatives of Canada will evaluate the bids.

1.2 SUBMISSION OF THE BID

BID SENT BY EMAIL

You are invited to submit electronic copies in either official language (English or French) of both the Technical and Cost Proposals. The RFP Reference Number and the title of the Requirement must be in the subject line of your email and your proposal must be structured in accordance to section A12 – Bid Content on the cover page.

No price or cost information should appear in any other section of the bid. Failure to provide the Financial Bid in a separate attachment will render a bid non-responsive.

If the email including attachments is larger than 20mb, please submit your bid in separate emails to not exceed Public Health Agency of Canada's server limitation.

Your proposal must be structured in the following manner:

- one (1) Covering Letter, signed by an authorized representative of the bidder;
- one (1) copy of the Technical Bid;
- one (1) copy of Certifications (Section V) and;
- one (1) copy of the Financial Bid (Section III). No price or cost information should appear in any other section of the bid. Failure to provide the Financial Bid as a separate file will render a bid non-responsive.

1.2.1 Bidders who submit a bid in response to this RFP agree to be bound by the instructions, clauses and conditions of the RFP and accept the terms and conditions of the resulting contract (see Appendix 1).

1.2.2 It is the Bidder's responsibility to obtain, if necessary, clarification of the requirements contained in the RFP and to prepare its bid in accordance with the instructions contained in the RFP. Enquiries must be submitted in writing to the Authority identified in A2 (RFP Authority) and in accordance with section A7 (Enquiries).

1.2.3 The RFP documents contain all the requirements relating to the bid solicitation. Any other information or documentation provided to or obtained by a Bidder from any other source is not relevant and not part of this RFP. Bidders should not assume that practices used under previous RFPs or contracts will continue, unless they are identified in the RFP. Bidders should also not assume that their existing capabilities meet the requirements of the RFP simply because they have met previous requirements.

1.3 SET-ASIDE FOR COMPREHENSIVE LAND CLAIMS AGREEMENT(S) BENEFICIARIES

This RFP is not being set aside to Comprehensive Land Claims Agreement(s) Beneficiaries.

1.4 SET-ASIDE UNDER THE FEDERAL GOVERNMENT'S PROCUREMENT STRATEGY FOR ABORIGINAL BUSINESS (PSAB)

This RFP is not being set aside under the federal government's Procurement Strategy for Aboriginal Business (PSAB)

1.5 DIRECT DEPOSIT PAYMENTS

The Public Health Agency of Canada has adopted electronic direct deposit as the method for paying invoices. Suppliers are asked to register for electronic direct deposit and to provide their account information upon request. For help with online registration, send an email to: DD@hc-sc.gc.ca.

1.6 SECURITY REQUIREMENTS

The Bidder must meet the security requirements identified in the Resulting Contract Clauses and Security Requirements Checklist which are included in Appendix 1, Annex C, of this RFP. This security requirement must be met at the Closing Date of this RFP.

**SECTION II – BID EVALUATION PROCEDURES
AND EVALUATION CRITERIA**

2.1 BID EVALUATION PROCEDURES

2.1.1 The Technical Bid will first be evaluated against the mandatory technical criteria of the RFP. If the bid meets all the mandatory criteria, and the RFP contains point-rated criteria, the evaluation committee will then evaluate the point-rated technical criteria. If the mandatory technical criteria are not met, the point-rated technical criteria will not be evaluated and the bid will be given no further consideration.

2.1.2 Only technical bids that meet the mandatory technical criteria and the minimum score required in the point-rated technical criteria will be further evaluated against the mandatory financial criteria on the basis of the Bidder's Financial Bid.

2.1.3 Supplier Selection Method

Highest combined rating of technical merit and price

For each responsive bid, the technical merit score and the pricing score will be added to determine its total combined score. The responsive bid with the highest combined rating of technical merit and price will be recommended for award of a contract. If two (2) or more responsive bids have the same combined total score, the responsive bid with the lowest evaluated price will be recommended for contract award.

To determine the overall score obtained by a bidder, the following weighting will be used to establish the technical and financial score:

Technical weighting: 70%
Price weighting: 30%

Technical score =
$$\frac{\text{Bidder's technical points} \times 70\%}{\text{Maximum points}}$$

Financial score =
$$\frac{\text{Lowest priced bid} \times 30\%}{\text{Bidder's total evaluated price}}$$

Total score = Technical score + Financial score

NOTE: Bids for which the total evaluated bid price is 50% greater than the lowest price of all bids received will automatically receive a score of "0 points" for the financial score.

The following is an example that illustrates how this calculation would be made. The dollar figures shown are for the purposes of this example only; they do not suggest a desired price.

	Bid 1	Bid 2	Bid 3	Bid 4
Total evaluated price of each responsive bid	\$100,000.00	\$120,000.00	\$140,000.00	\$220,000.00

In the example above, bid 4 would receive "0 points" for its financial score as it exceeds the lowest priced bid by more than 50% ($\$100,000 + 50\% = \$150,000$).

2.2 EVALUATION CRITERIA

The evaluation of the following criteria is based on a “rules of evidence” approach in that the evaluation committee can only conduct its evaluation based on the contents of the Bidder’s bid. The onus is on the Bidder to ensure that its bid is complete, clear, and provides sufficient detail for the evaluation committee to evaluate the bid. Simply repeating or copying a statement contained in the RFP is not sufficient.

To facilitate the evaluation of the bid, Canada also requests that Bidders address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, Bidders may refer to different sections of their bids by identifying the specific paragraphs and page numbers where the subject topic has already been addressed.

For the purpose of the technical criteria specified below, the experience of the Bidder does not include the experience of the parent, subsidiaries or other affiliates of the Bidder, or its subcontractors.

2.2.1 Mandatory Criteria

The bid must meet the mandatory criteria set out below. The Bidder must provide the necessary documentation to support compliance. Mandatory criteria are evaluated on a simple pass or fail basis. This will be evaluated as either a “Yes” or a “No.”

Bids which fail to meet the mandatory criteria will be declared non-responsive. Bids which meet all mandatory criteria will be evaluated under the Technical Point Rated criteria.

Where experience is required to be demonstrated, the experience may be demonstrated through one, or multiple, example projects that collectively meet the minimum years of experience stated.

Two, or more, example projects that run concurrently in the same calendar period will not be added to attain the minimum required number of years of experience. For evaluation, the period from the start date of the earliest project to the end date of the latest project will be counted.

Examples that do not include the start date and, where applicable, the end date of each example project will not be evaluated.

ATTENTION BIDDERS:			
Write beside each of the criterion the relevant page number(s) from your bid which addresses the requirement identified in the criteria.			
No.	Mandatory Technical Criteria	Met (Yes/No)	Cross-Reference to bid (<i>indicate page #</i>)
M1	The Bidder must demonstrate a minimum of three (3) years’ experience the five (5) years preceding the date of bid closing working in both public health and health administrative data domains. Bidders experience will be further evaluated in point rated criterion R1.		
M2	The Bidder must demonstrate experience publishing publications using administrative data by providing one (1) example of such a publication. The example should be in either MS Word or PDF format. Additional examples of such work will be further evaluated in point rated criterion R2.		
M3	The Bidder must demonstrate access to provincial or territorial CCDSS administrative databases (physician billing and hospital records) and electronic medical record database which includes records for at least 10,000 individuals, or similar reference standard data such as medical		

	charts, by describing one (1) project undertaken within the five (5) years preceding the date of bid closing where it accessed the stated databases.		
M4	The Bidder must demonstrate its ability conduct validation studies by describing one (1) project where it: <ul style="list-style-type: none"> queried linked databases using statistical software such as SAS; prepared written technical reports: summarizing research literature and interpreted data and the method for doing so; made recommendations for ongoing surveillance. 		

2.2.2 Point-rated Technical Criteria

In addition to meeting the Mandatory Criteria, the Bidder must also address the Point-Rated Criteria identified below.

Minimum overall score

There is no minimum pass mark required for any individual Point Rated Criterion, however; the Bid must score a minimum of 70% of the maximum points allocated, or 70 points of a possible 100 points, in order to proceed to the Financial Evaluation. Bids that fail to meet the minimum score of 70 points will be declared non-responsive and no further consideration will be given to the bid.

For criterions where experience is required to be demonstrated, the experience may be demonstrated through one, or multiple, example projects that collectively meet the minimum requirements stated for the criterion.

Two, or more, example projects that run concurrently in the same calendar period will not be added to attain the required number of years of experience for a particular score. For evaluation, the period from the start date of the earliest project to the end date of the latest project will be counted. Examples that do not include the start date and, where applicable, the end date of each example project will not be evaluated.

The Bidder may identify a project for both Mandatory and Point Rated evaluation; however, only the number of years in addition to the minimum stated for the Mandatory Criteria will be evaluated in the Point Rated evaluation.

In the event that the Bidder's bid is the sole responsive bid received, the Bidder must provide, on the RFP Authority's request, one or more of the following price justifications:
- 11.1 a current published price list indicating the percentage discount available to Canada; or

- 11.3 a price breakdown showing the cost of direct labour, direct materials, purchased items, engineering and plant overheads, general and administrative overhead, transportation, profit, etc.; or
- 11.4 price or rate certification; or
- 11.5 any other supporting documentation as requested by the RFP Authority
- GI12 ANNOUNCEMENT OF SUCCESSFUL BIDDER**
- 12.1 If this RFP was advertised on the "Buyandsell.gc.ca" tendering service, the name of the successful Bidder will be announced on Buyandsell.gc.ca upon contract award and sign off.
- 12.2 If this RFP was not advertised on "Buyandsell.gc.ca," Canada will communicate to all Bidders the name and address of the successful Bidder as well as the total dollar value and award date for the contract only after contract sign-off.
- GI13 APPLICABLE LAWS**
- 13.1 Any resulting contract must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario. The Bidder may propose a change to the applicable laws in his/her bid. If no change is made, it acknowledges that the applicable laws specified in this RFP are acceptable to the bidder.
- GI14 CONTINGENCY FEE**
- 14.1 The Bidder declares that the Bidder has not, directly or indirectly, paid or agreed to pay, and will not, directly or indirectly pay, a Contingency Fee to any individual for the solicitation, negotiation or obtaining of the contract if the payment of the fee would require the individual to file a return under section 5 of the *Lobbying Act*, R.S.C., 1985, c. 44 (4th Supp.). In this section, "Contingency Fee" means any payment or other compensation that is contingent upon or is calculated upon the basis of a degree of success in soliciting or obtaining a government contract or negotiating the whole or part of its terms.
- GI15 CONFLICT OF INTEREST – UNFAIR ADVANTAGE**
- 15.1 In order to protect the integrity of the procurement process, Bidders are advised that Canada may reject a bid in the following circumstances:
- (a) if the Bidder, any of its subcontractors, any of their respective employees or former employees was involved in any manner in the preparation of the bid solicitation or in any situation of conflict of interest or appearance of conflict of interest; or
- (b) if the Bidder, any of its subcontractors, any of their respective employees or former employees had access to information related to the bid solicitation that was not available to other Bidders and that would, in Canada's opinion, give or appear to give the Bidder an unfair advantage.
- 15.2 The experience acquired by a Bidder who is providing or has provided the goods and services described in the RFP (or similar goods or services) will not, in itself, be considered by Canada as conferring an unfair advantage or creating a conflict of interest. This Bidder remains however subject to the criteria established above.
- 15.3 Where Canada intends to reject a bid under this section, the RFP Authority will inform the Bidder and provide the Bidder an opportunity to make representations before making a final decision. Bidders who are in doubt about a particular situation should contact the Contracting Authority before the bid Closing Date.
- 15.4 By submitting a bid, the Bidder represents that it does not consider itself to be in conflict of interest nor to have an unfair advantage. The Bidder acknowledges that it is within Canada's sole discretion to determine whether a conflict of interest, unfair advantage or an appearance of conflict of interest or unfair advantage exists.
- GI16 CONDUCT OF EVALUATION**
- 16.1 In conducting its evaluation of the bids, Canada may, but will have no obligation to, do the following:
- (a) seek clarification or verification from Bidders regarding any or all information provided by them with respect to the bid solicitation;
- (b) contact any or all references supplied by Bidders to verify and validate any information submitted by them;
- (c) request, before award of any contract, specific information with respect to Bidders' legal status;
- (d) conduct a survey of Bidders' facilities and examine their technical, managerial, and financial capabilities to determine if they are adequate to meet the requirements of the bid solicitation;

5.2 CERTIFICATIONS

Bidders must provide the required certifications at bid submission. Canada may declare a bid non-responsive if the required certifications are not part of the bid content.

Compliance with the certifications bidders provide to Canada is subject to verification by Canada during the bid evaluation period (before and after awarding of a contract). The RFP Authority will have the right to ask for additional information to verify Bidders' compliance with the certifications before award of a contract. The bid will be declared non-responsive if any certification made by the Bidder is untrue, whether made knowingly or unknowingly. Failure to comply with the certifications or to comply with the request of the RFP Authority for additional information will also render the Bid non-responsive.

5.3 CERTIFICATION OF EDUCATION, EXPERIENCE AND QUALIFICATIONS

The Bidder certifies that all statements made with respect to education and experience are true and that any person proposed by the Bidder to perform the Work or part of the Work is either an employee of the Bidder or under a written agreement to provide services to the Bidder.

5.5 FORMER PUBLIC SERVANT CERTIFICATION

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must be able to bear the closest public scrutiny, and reflect fairness in the spending of public funds. To comply with Treasury Board policies and directives on contracts with FPS, bidders must provide the information required below.

5.5.1 Definitions

For the purposes of this clause, "former public servant" is any former member of a department as defined in the *Financial Administration Act*, R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the *Public Service Superannuation Act* (PSSA), R.S., 1985, c.P-36, and any increases paid pursuant to the *Supplementary Retirement Benefits Act*, R.S., 1985, c.S-24 as it affects the PSSA. 5.6 JOINT VENTURE/PARTNERSHIP

scope; a partnership is generally an ongoing business relationship that exists between persons carrying on common business.

The Bidder must comply with the Policy and Directives, which can be found at Ineligibility and Suspension Policy.

5.7.2 Under the Policy, charges and convictions of certain offences against a Supplier, its affiliates or first tier subcontractors, and other circumstances, will or may result in a determination by Public Works and Government Services Canada (PWGSC) that the Supplier is ineligible to enter, or is suspended from entering into a contract with Canada. 5.7.3 In addition to all other information required in the bid solicitation, the Bidder must provide the following:

- a) by the time stated in the Policy, all information required by the Policy described under the heading “Information to be Provided when Bidding, Contracting or Entering into a Real Property Agreement”; and

5.7.5 Where a Bidder is unable to provide any of the certifications required by subsection 4, it must submit with its bid a completed Integrity Declaration Form, which can be found at Declaration form for procurement.

5.7.6 Canada will declare non-responsive any bid in respect of which the information requested is incomplete or inaccurate, or in respect of which the information contained in a certification or declaration is found by Canada to be false or misleading in any respect. If Canada establishes after award of the Contract that the Bidder provided a false or misleading certification or declaration, Canada may terminate the Contract for default. Pursuant to the Policy, Canada may also determine the Bidder to be ineligible for award of a contract for providing a false or misleading certification or declaration.

5.8 FEDERAL CONTRACTOR'S PROGRAM FOR EMPLOYMENT EQUITY CERTIFICATION

5.8.1 The Federal Contractors Program (FCP) ensures that contractors who do business with the Government of Canada achieve and maintain a workforce that is representative of the Canadian workforce. The Program applies to non-federally regulated contractors that:

- have a combined workforce in Canada of 100 or more permanent full-time, permanent part-time and/or temporary employees having worked 12 weeks or more; and
- received an initial federal government goods and services contract, a standing offer, or a supply arrangement valued at \$1 million or more (including applicable taxes).

The Federal Contractors Program was established in 1986 to further the goal of achieving workplace equity for designated groups experiencing discrimination in the Canadian labour market. These groups are:

- women;
- Aboriginal peoples;
- persons with disabilities; and
- members of visible minorities.

Effective June 27, 2013 a redesigned FCP will be in effect which includes:

- an increase in the contract threshold from \$200,000 to \$1 million to support the Government's commitment to reduce regulatory red tape burden for small- to medium-sized employers;
- assessment that focus on achievement of results enabling contractors to determine initiatives best suited to their organization in order to achieve employment equity objectives.

5.8.2 [Agreement to Implement Employment Equity](#)

Contractors who bid on an initial goods and services contract, a standing offer, or a supply arrangement estimated at \$1 million or more (including applicable taxes) with the Government of Canada must first certify their commitment to implement employment equity by signing the [Agreement to Implement Employment Equity \(LAB1168\)](#) prior to contract award.

Once the goods and services contract, the standing offer, or the supply arrangement is awarded to the contractor, the contractor is assigned a unique Agreement to Implement Employment Equity number and is informed by Labour Program that they are now subject to the FCP. Contractors are then required to implement employment equity and, if representation gaps exist, to make all reasonable efforts most appropriate within the context of their specific organizational environment and structural needs to close any identified gaps. This obligation is on-going and not only subject to the period of the contract, including future contracts.

- 5.8.3** By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "[FCP Limited Eligibility to Bid](http://www.labour.gc.ca/eng/standards_equality/eq/emp/fcp/list/inelig.shtml)" list (http://www.labour.gc.ca/eng/standards_equality/eq/emp/fcp/list/inelig.shtml) available from [Human Resources and Skills Development Canada \(HRSDC\) - Labour's](http://www.hrsdc.gc.ca) website

Canada will have the right to declare a bid non-responsive if the Bidder, or any member of the Bidder if the Bidder is a Joint Venture, appears on the "[FCP Limited Eligibility to Bid](http://www.labour.gc.ca/eng/standards_equality/eq/emp/fcp/list/inelig.shtml)" list at the time of contract award.

- 1.1. Payments under this Contract, except advance payments, shall be conditional upon performance, completion and delivery of the Work, or any part of the Work to the satisfaction of the Minister but subject to the submission and receipt by Canada of a claim for payment.
- 1.2. Subject to parliamentary appropriation of funds and to TP1.1, payment by the Minister for the Work shall be made:
 - 1.2.1. in the case of an advance payment, within thirty (30) days of the signing of this Contract by both Parties or within thirty (30) days of receipt of an invoice requesting payment, whichever is later,
 - 1.2.2. in the case of progress payment, within thirty (30) days following the date of receipt of a duly completed Work or progress report or within thirty (30) days of receipt of an invoice requesting payment, whichever is later, and
 - 1.2.3. in the case of a final payment, within thirty (30) days following the date of receipt of the completed Work or within thirty (30) days of receipt of an invoice requesting payment whichever is later.
- 1.3. For purposes of this Contract, a full day is any period of seven and one half (7.5) hours within any twenty-four (24) hour period.
- 1.4. If the Contractor is engaged in the performance of the Work for any period that exceeds or is less than a full day, the Contractor will be paid a pro-rata portion of the firm daily rate that corresponds to the number of hours during which the Contractor was so engaged.
- 1.5. If Canada has any objections to the form of the invoice or the substantiating documentation, within fifteen (15) days of its receipt, Canada shall notify the Contractor of the nature of the objection.
- 1.6. "Form of the invoice" means an invoice which contains or is accompanied by such substantiating documentation as Canada requires. Failure by Canada to act within fifteen (15) days only results in the date specified in TP1.1 of the clause to apply for the sole purpose of calculating interest on overdue accounts.
- 1.7. Notwithstanding any other provision of the Contract, no payment shall be made to the Contractor unless and until, with respect to all parts of the Work in respect of which payment is claimed, the Contractor, where required to do so, establishes to the satisfaction of the Minister that such parts of the Work will be free from all claims, liens, attachments, charges or encumbrances.

TP2. Interest on Overdue Accounts

- 2.1. For the purposes of this section:
 - (a) "average rate" means the simple arithmetic mean of the bank rates in effect at 4:00 p.m. Eastern Standard Time each day during the calendar month which immediately precedes the calendar month in which payment is made, where the "bank rate" means the rate of interest established from time to time by the Bank of Canada as the minimum rate at which the Bank of Canada makes short term advances to members of the Canadian Payments Association;
 - (b) "date of payment" means the date of the negotiable instrument drawn by the Receiver General for Canada and given for payment of an amount due and payable;
 - (c) an amount is "due and payable" when it is due and payable by Canada to the Contractor in accordance with the terms of the Contract; and
 - (d) an amount becomes "overdue" when it is unpaid on the first day following the day upon which it is due and payable.

- 2.2. Canada shall be liable to pay to the Contractor simple interest at the average rate plus three (3) percent per annum on any amount that is overdue, from the date such amount becomes overdue until the day prior to the date of payment, inclusive. Interest shall be paid without notice from the Contractor except in respect of payment which is less than 15 days overdue. No interest will be payable or paid in respect of payment made within such 15 days unless the Contractor so requests after payment has become due.
- 2.3. Canada shall not be liable to pay interest in accordance with this clause if Canada is not responsible for the delay in paying the Contractor.
- 2.4. Canada shall not be liable to pay interest on overdue advance payments.

ANNEX A – STATEMENT OF WORK

CCDSS Validation - multi-year disease specific

1. SCOPE

1.1. Introduction

The Public Health Agency of Canada (PHAC) has a requirement to conduct a study analysing the continued validity of several case definitions for identifying patients with specific chronic conditions.

This validation study will provide background information to the Agency, the provinces and territories, and other relevant organizations to guide future related work and to better understand whether coding in administrative data can be used reliably for national surveillance purposes for specific chronic conditions.

1.2. Objectives of the Requirement

The objectives of this project are:

1. to conduct and maintain for the duration of the contract, an environmental scan of existing validation work for the surveillance of chronic diseases in Canadian jurisdictions using administrative data;
2. develop a plan to identify priority case definitions for chronic diseases to be validated in this project; and
3. to provide evidence of the validity of case definitions, over an identified time, of specific chronic conditions for **national chronic disease surveillance purposes**, using information from administrative databases (physician billing database, hospital discharge abstracts, emergency room visit database [NACRS] and other databases such as laboratory or pharmaceutical databases as required), validated against a reference standard in multiple provincial/territorial jurisdictions.

This will be a multi-year study with the flexibility to address different priority conditions as needed (a minimum of six (6) conditions).

Priority conditions may include any of the following: diabetes, hypertension, mental illness (overall, mood and anxiety disorders, schizophrenia and delusional disorders), chronic respiratory (COPD, asthma), ischemic heart disease, heart failure, osteoporosis and related fractures, stroke, multiple sclerosis (MS), Parkinsonism, arthritis and related joint conditions, Alzheimer's disease and other dementias, epilepsy, or cancer.

For each condition selected, the objectives of the validation component of this work are to:

1. Use provincial/territorial administrative data sources (health insurance registry, hospital discharge abstract database, physician billings, emergency department visits, laboratory data, and/or prescription drug data) to define a case in the reference population based on established criteria/expert panel.
2. Validate case definitions provided by PHAC by calculating the sensitivity, specificity, positive predictive value and negative predictive value of each case definition against a reference data source over-time.
3. Determine the best administrative data algorithm to estimate specific chronic condition occurrence measures including prevalence and incidence.

1.3. Background and Specific Scope of the Requirement

The Canadian Chronic Disease Surveillance System (CCDSS) is a collaborative network of provincial and territorial surveillance systems supported by PHAC. The CCDSS was originally created to improve the breadth of information about the burden of diagnosed diabetes in Canada for a wide audience

comprised of policy makers, researchers, health practitioners, and the general public. The Public Health Network's Task Group on the Surveillance of Chronic Disease and Injury decided on priority conditions under surveillance and made recommendations for ongoing surveillance. In 2009, the CCDSS was expanded to include the surveillance of hypertension and mental illness (overall and mood and anxiety disorders). Since then, additional expansion has added chronic respiratory (COPD, asthma), ischemic heart disease, heart failure, osteoporosis and related fractures, stroke, MS, Parkinsonism, Alzheimer's disease and other dementias and epilepsy. Additional pilot and feasibility work is underway regarding expansion to include: arthritis and related joint conditions, , and schizophrenia and delusional disorders.

Administrative health data are not collected for surveillance purposes, but rather for reimbursement purposes. Validation of administrative data is the process through which primary medical data (generally medical charts) are abstracted and reviewed to determine whether the patient actually experienced the event suggested by the algorithm applied to administrative data.

Previous disease specific validation studies for CCDSS have used Ontario's Electronic Medical Record Administrative data Linked Database (EMRALD) as a reference standard to test administrative data algorithms to assess validity of case definitions for diabetes, hypertension, myocardial infarction, ischemic heart disease, stroke, mental illness, epilepsy, MS and Parkinsonism.

2. REQUIREMENTS

2.1. Tasks, Activities, Deliverables and Milestones

Tasks

1. Conduct an environmental scan of existing (underway or planned; published or unpublished; may include key informant interviews) validation studies for chronic disease case definitions in Canadian jurisdictions using administrative data as well as internationally. The scan and subsequent updates will include additional information concerning gaps in data sources. The first scan will include identification of gaps with traditional validation data sources (e.g. use of chart review or electronic medical records will not capture those who do not encounter the health care system) and propose recommendations to address gaps. Subsequent scans will include assessment of gaps for physician billing data (e.g. incomplete shadow billing and alternate payment plans; out of province records, coverage of nurse practitioners, nurse visits in community hospitals) and for hospital billing data (e.g. out of province records).
2. Work with the project authority to develop a plan to identify and agree on priority case definitions (gaps) to be validated over time in this project.
3. Work with representatives from the Surveillance and Epidemiology Division, PHAC, to create detailed analysis plans and study designs.
4. Update and finalize reference standard case identification through consultation with medical experts as appropriate, and chart abstraction.
5. Query linked administrative databases using proposed analysis plans.
6. Prepare disease specific technical reports synthesizing the results of the validation study and documenting the codes developed and the analysis performed.
7. Provide SAS codes to the representatives of the Surveillance and Epidemiology Division.
8. Present methods, main results and recommendations of the validation study to the relevant CCDSS Working Groups by WebEx presentations as scheduled through consultation with the Project Authority.
9. Work with a minimum of one provincial and/or territorial partner in addition to its own jurisdiction in order to include results from multiple provincial/territorial jurisdictions. At least one of the provinces must be Ontario, British Columbia or Quebec due to the need for a large sample size.

10. Test PHAC-provided case definitions along with additional variations to identify cases of specified chronic diseases in an appropriate reference standard population with a sufficient number of records to provide reliable results (at least 10,000 records) and query the linked administrative databases in order to assess measures of the validity of case definitions.

Deliverables

1. Disease specific draft reports.
2. Disease specific final reports based on comments received through PHAC review of draft report to ensure that it meets requirements for the final deliverable. The Contractor will prepare a report documenting the codes selected and the analysis performed, and synthesizing the results of the validation study. In particular, the technical reports will include the following:
 - Background and rationale for conducting this analysis, a description of the administrative data sources and the codes used to extract the data;
 - Methodology used to query the administrative databases, extract the data, and validate the case definitions;
 - Results of the analyses;
 - Recommendations regarding which case definition algorithms should be used for national surveillance;
 - Recommendations regarding filling gaps in administrative data sources (as described within the description of the environmental scan) and regarding addressing privacy concerns encountered with some jurisdictions.

Validation of case definitions for a minimum of six (6) conditions is required.

2.2. Specifications and Standards

Results are expected to be synthesized in disease specific technical reports that document methodology, details on the analysis performed, and results that include an assessment of the 'best' case definition algorithms for national surveillance. Variations in methodology, analyses and/or results for specific conditions should be clearly noted in the technical reports.

Details of the analysis including case definitions, ICD codes, applicable databases, and other specifications in the form of disease specific frameworks will be provided.

2.3. Technical, Operational and Organizational Environment

All tools for the implementation for this project will be provided by the Contractor.

2.4. Method and Source of Acceptance
