Signature	Date

The purpose of amendment 002 is to respond to questions received.

Question		Response
1	The LOI refers to the support of DND's existing fleet of C3 Howitzers. Does this LOI relate to the entire weapon system or only the cannon tubes?	The LOI is focused on potential new manufacture and potential engineering support for the cannon tube only
2	Please provide an estimated quantity of new barrels required per year?	Please refer to Amendment 001.
3	Does Canada possess a copy of the Technical Data Package for the existing C3 Howitzer?	DND owns a limited Technical Data Package for the C3 howitzer conversion. DND is not authorized to transfer this Technical Data Package to a third party for the purpose of manufacturing components.
4	In the event that all respondents reply with "No" to questions 1.1, 1.2 & 1.3, what course of action do you intend to pursue?	At this time no further course of action has been determined but will be decided after the analysis of the responses to the Letter of Interest.
5	We believe that less than five years ago, Canada had sufficient quantities of barrels to support the life of this weapon system. Is this the case and if so please advise why this is no longer the case?	Five years ago DND did not have any identified failures with the C3 howitzer barrels. In 2014 and again in 2015, all C3 howitzer barrels underwent critical inspection and an amount of barrels were condemned due to cracks. DND is looking to mitigate the potential of further attrition regarding C3 howitzer barrels.
