DELIVERABLES / SCOPE OF WORK

The work covered by this mandate consists of the replacement of two (2) navigational aid structures located on Bouchard Island in Lac Stains-Pierre. The mandate includes, but is not limited to, the demolition and appropriate disposal of existing structures, the installation of steel foundations as shown on plans and the erection of the two aids to navigation structures and the installation of equipment.

FAMILIARIZATION WITH SITE

Before submitting a bid, bidders can visit the site and its surroundings, at their own expense, to review and verify the form, nature, and extent of the work, materials needed for the completion of the work, the means of access to the site, severity, exposure and uncertainty of weather, soil conditions, any accommodations they may require, and in general shall obtain all necessary information as to risks, contingencies and other circumstances which may influence or affect their bid. No allowance shall be made subsequently in this connection on account or error or negligence to properly observe and determine the conditions that will apply.

Contractors, bidders, or those they invite to site are to review specification Section 1000, article 22 – “Mesures de sécurité” before visiting site. Take all appropriate safety measures for any visit to site, either before or after acceptance of bid.
