Amendment 003 is being raised to answer the following questions from a potential bidder as follows:

Question 1:

Reference to section 35-20-23 item 1.14. Could you provide survey vessel clarification?

I'm assuming that it refers simply to a boat, sounding rods or weighted lines and a GPS location device not an actual hydrographic survey vessel.

Answer 1:

A hydrographic survey vessel is not required, a vessel with GPS and a means of collecting soundings data is sufficient.

Question 2: In addition I would like to know if the survey data provided by an excavator GPS and base/rover system is acceptable for the survey requirement.

Answer 2:

A GPS equipped excavator/rover system would be an acceptable approach to collecting the required survey data.

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME.
