5.8 FEDERAL CONTRACTOR'S PROGRAM FOR EMPLOYMENT EQUITY CERTIFICATION

5.8.1 The Federal Contractors Program (FCP) ensures that contractors who do business with the Government of Canada achieve and maintain a workforce that is representative of the Canadian workforce. The Program applies to non-federally regulated contractors that:

- have a combined workforce in Canada of 100 or more permanent full-time, permanent part-time and/or temporary employees having worked 12 weeks or more; and
- received an initial federal government goods and services contract, a standing offer, or a supply arrangement valued at \$1 million or more (including applicable taxes).

The Federal Contractors Program was established in 1986 to further the goal of achieving workplace equity for designated groups experiencing discrimination in the Canadian labor market. These groups are:

- women;
- Aboriginal peoples;
- persons with disabilities; and
- Members of visible minorities.

Effective June 27, 2013 a redesigned FCP will be in effect which includes:

- an increase in the contract threshold from \$200,000 to \$1 million to support the Government's commitment to reduce regulatory red tape burden for small- to medium-sized employers;
- Assessment that focuses on achievement of results enabling contractors to determine initiatives best suited to their organization in order to achieve employment equity objectives.

5.8.2 [Agreement to Implement Employment Equity](#)

Contractors who bid on an initial goods and services contract, a standing offer, or a supply arrangement estimated at \$1 million or more (including applicable taxes) with the Government of Canada must first certify their commitment to implement employment equity by signing the [Agreement to Implement Employment Equity \(LAB1168\)](#) prior to contract award.

Once the goods and services contract, the standing offer, or the supply arrangement is awarded to the contractor, the contractor is assigned a unique Agreement to Implement Employment Equity number and is informed by Labor Program that they are now subject to the FCP. Contractors are then required to implement employment equity and, if representation gaps exist, to make all reasonable efforts most appropriate within the context of their specific organizational environment and structural needs to close any identified gaps. This obligation is on-going and not only subject to the period of the contract, including future contracts.

5.8.3 By submitting a bid, the Bidder certifies that the Bidder, and any of the Bidder's members if the Bidder is a Joint Venture, is not named on the Federal Contractors Program (FCP) for employment equity "[FCP Limited Eligibility to Bid](#)" list (http://www.labour.gc.ca/eng/standards_equality/eq/emp/fcp/list/inelig.shtml) available from [Human Resources and Skills Development Canada \(HRSDC\) - Labour's](#) website

SHSD is the principal occupational health and safety advisor to the Treasury Board Secretariat and provides a wide range of occupational health services to federal employees.

A major component of SHSD's portfolio is the Public Service Occupational Health Program (PSOHP). The PSOHP, on behalf of Treasury Board Secretariat, promotes the health and safety of Government of Canada employees by providing medical advice, guidance and services related to occupational health evaluations and communicable diseases.

2.0 Background

Part of SHSD's mandate from Treasury Board is to provide occupational health assessments for Public Service employees in high-risk jobs such as health care workers, firefighters, lighthouse keepers, divers, accident investigators and federal government employees posted overseas. Following medical assessment, the health professional sends the client to the SHSD Clinic for venepuncture, urinalysis and additional testing (audiogram, pulmonary function test, ECG and vision testing).

3.0 Requirement

SHSD requires:

- medical laboratory services for the testing of blood, stool, urine and other specimens taken from the human body;
- electrocardiogram interpretation services and;
- A Phlebotomist Laboratory Technician to perform the sample collection and processing on-site at 171 Slater Street, 12th floor, Ottawa, Ontario before shipment to the appropriate laboratory. The medical laboratory tests are identified on page 36.
