Letter of interest / Request for information for R&D work in C4ISR

AMENDMENT 001

The purpose of this amendment is to respond to a question raised by the industry:

Q :

Will the compagny be required to store PROTECTED of CLASSIFIED information or assets? If so, at what level and is it possible to take steps in this direction?

A :

Yes, as several works may be carried out at contractor's facilities, it is anticipated that contractors will have to store PROTECTED of CLASSIFIED information up to the level of SECRET. However, on-site inspections are done by the Canadian Industrial Security Directorate (CISD) only with contractors who are in the process of obtaining a contract.

Although it is not possible at this time to have your facilities inspected by CISD, it is possible to obtain information on Work site security requirements at the following address:
