The amendment 004 is raised to provide clarification to the document and to extend the solicitation close date.

=====
Question: Can As-built drawings of the current CCTV system be provided detailing existing camera, monitor, workstation, conduit and server locations?

Response: These will be posted as soon as we have them available.

=====
Question: Please provide details on the existing Fibre routing and whether any of it is to be retained and reused for this project??

Response: Existing working fibre may be retained and re-used

=====
Question: Please provide details of what is to be viewed of vehicles/people coming over the bridge from the USA?

Response: Other cameras closer to the buildings will have the capacity to capture detail such as license plates, make and description of vehicles. The cameras that are aimed at the bridge need only capture general information. It would suffice if they give a warning to the officers that a vehicle or a pedestrian is crossing the bridge. Capture of details will wait until they are closer to the buildings.

=====
Question: There was mention of CAD drawings posted on Buy & Sell during the site visit and I didn't see any on Buy & Sell this morning. Can we please have scaled drawings of the buildings and surroundings?

Response: The drawings of the required camera locations are attached in both PDF and AutoCAD formats. The floor plans of the Traffic and Commercial buildings as well as that of the garage have also been provided.

=====
All other terms and conditions remain unchanged.
