Amendment #2 is issued to:

- 1) answer potential bidder's questions
- 2) revise Annex E Pricing sheet
- 3) revise Basis of Selection (4.2)
- 4) extend the Bid Solicitation closing date to June 15, 2017.

1) answer potential bidder's questions

Q1: ANNEX A describes two project phases, the first of which focuses on the chamber envelope (fire protection, HVAC, lighting + video, and "RF window" replacement). Can we assume all of the first phase modifications will be completed when we arrive onsite to install absorber?

A1: Yes

Q2: Will all existing absorber materials be removed and the shielding prepared for new absorber installation once we arrive onsite? If yes, what date is this expected to be complete, so we can consider when to perform the shielding inspection?

A2: Yes, the tentative date for this is November 20th 2017.

Q3: Annex E - What is the intended difference between line items 4 ('ATF-2 RF Performance Test Plan') and 5 ('Testing of Absorber and Final RF Performance Test Report')?

A3: The test plan is indeed required in the proposal as per RFP documentation. Annex E will be modified to remove RF Performance Test Plan from the pricing sheet.

Q4: As long as proper materials and procedures are followed, can various absorber pieces be cut and painted onsite?

A4: Yes

2) Revise Annex E Pricing sheet

Delete:

ANNEX "E" - PRICING SHEET

All prices must be firm in Canadian dollars, Delivered Duty Paid (3701 Carling Ave, Ottawa, Ontario) Goods and Services Tax or the Harmonized Sales Tax extra, transportation costs to destination and all applicable Custom Duties and Excise Taxes included.

3) Revise Basis of Selection (4.2)

Delete:

4.2 Basis of Selection

To be declared responsive, a bid must:

- a. comply with all the requirements of the bid solicitation;
- b. meet all mandatory technical evaluation criteria.

Bids not meeting (a) or (b) will be declared non-responsive. Neither the responsive bid that receives the highest number of points nor the one that proposed the lowest price will necessarily be accepted.

The responsive bid with the lowest evaluated price per point will be recommended for award of a contract.

Insert:

4.2. Basis of Selection - Price-per-Point

To be declared responsive, a bid must:

- a. comply with all the requirements of the bid solicitation;
- b. meet all mandatory technical evaluation criteria.

Bids not meeting (a) or (b) will be declared non-responsive. Neither the responsive bid that receives the highest number of points nor the one that proposed the lowest price will necessarily be accepted.

The responsive bid with the lowest calculated price per point will be recommended for award of a contract.

Price-per-Point: Total bid price is divided by the corresponding total technical score achieved by the bidder for its technical proposal, to determine each bidder's cost-per-point.

4) extend the Bid Solicitation closing date to June 15, 2017.

All other terms and conditions remain the same.
