### **SI 3 PUBLIC WORKS AND GOVERNMENT SERVICES CANADA APPRENTICE PROCUREMENT INITIATIVE**

1. To encourage employers to participate in apprenticeship training, Bidders bidding on construction and maintenance contracts by Public Works and Government Services Canada (PWGSC) are being asked to sign a voluntary certification, signaling their commitment to hire and train apprentices.
2. Canada is facing skills shortages across various sectors and regions, especially in the skilled trades. Equipping Canadians with skills and training is a shared responsibility. In Economic Action Plan (EAP) 2013, the Government of Canada made a commitment to support the use of apprentices in federal construction and maintenance contracts. Bidders have an important role in supporting apprentices through hiring and training and are encouraged to certify that they are providing opportunities to apprentices as part of doing business with the Government of Canada.
3. Through the Economic Action Plan 2013 and support for training programs, the Government of Canada is encouraging apprenticeships and careers in the skilled trades. In addition, the government offers a tax credit to employers to encourage them to hire apprentices. Information on this tax measure administered by the Canada Revenue Agency can be found at: [www.cra-](http://www.cra-)

[arc.gc.ca](http://arc.gc.ca). Employers are also encouraged to find out what additional information and supports are available from their respective provincial or territorial jurisdiction.

4. Signed certifications (Annex C) will be used to better understand Bidder use of apprentices on Government of Canada maintenance and construction contracts and may inform future policy and program development.
5. The Bidder hereby certifies the following:
  - (a) In order to help meet demand for skilled trades people, the Bidder agrees to use, and require its subcontractors to use, reasonable commercial efforts to hire and train registered apprentices, to strive to fully utilize allowable apprenticeship ratios \* and to respect any hiring requirements prescribed by provincial or territorial statutes
  - (b) The Bidder hereby consents to this information being collected and held by PWGSC, and Employment and Social Development Canada to support work to gather data on the hiring and training of apprentices in federal construction and maintenance contracts.
  - (c) To support this initiative, a voluntary certification signaling the Bidder's commitment to hire and train apprentices is available at Annex C.
  - (d) If you accept fill out and sign Annex C.

*\* The journey-person-apprentice ratio is defined as the number of qualified/certified journeypersons that an employer must employ in a designated trade or occupation in order to be eligible to register an apprentice as determined by provincial/territorial (P/T) legislation, regulation, policy directive or by law issued by the responsible authority or agency.*

## GENERAL INSTRUCTIONS TO BIDDERS

### GI 01 INTEGRITY PROVISIONS – PROPOSAL

1. The *Ineligibility and Suspension Policy* (the “Policy”) in effect on the date the Request for Proposal (RFP) is issued, and all related Directives in effect on that date, are incorporated by reference into, and form a binding part of the RFP. The Bidder must comply with the Policy and Directives, which can be found at <http://www.tpsgc-pwgsc.gc.ca/ci-if/politique-policy-eng.html>.
2. Under the Policy, charges and convictions of certain offences against a Supplier, its affiliates or first tier sub-consultants, and other circumstances, will or may result in a determination by Public Works and Government Services Canada (PWGSC) that the Supplier is ineligible to be issued or is suspended from entering into a contract with Canada. The list of ineligible and suspended Suppliers is contained in PWGSC's Integrity Database. The Policy describes how enquiries can be made regarding the ineligibility or suspension of Suppliers.
3. In addition to all other information required in the Request for Proposal, the Bidder must provide the following:
  - a. by the time stated in the Policy, all information required by the Policy described under the heading “Information to be Provided when Bidding, Contracting or Entering into a Real Property Agreement”; and
  - b. with its bid, a complete list of all foreign criminal charges and convictions pertaining to itself, its affiliates and its proposed first tier subcontractors that, to the best of its knowledge and belief, may be similar to one of the listed offences in the Policy. The list of foreign criminal charges and convictions must be submitted using an Integrity Declaration Form, which can be found at [Declaration form for procurement](#).
4. Subject to subsection 5, by submitting a bid in response to this Request for Proposal, the Bidder certifies that:
  - a. it has read and understands the Ineligibility and Suspension Policy;
  - b. it understands that certain domestic and foreign criminal charges and convictions, and other circumstances, as described in the Policy, will or may result in a determination of ineligibility or suspension under the Policy;
  - c. it is aware that Canada may request additional information, certifications, and validations from the Bidder or a third party for purposes of making a determination of ineligibility or suspension;
  - d. it has provided with its bid a complete list of all foreign criminal charges and convictions pertaining to itself, its affiliates and its proposed first tier sub-consultants that, to the best of its knowledge and belief, may be similar to one of the listed offences in the Policy;
  - e. none of the domestic criminal offences, and other circumstances, described in the Policy that will or may result in a determination of ineligibility or suspension, apply to it, its affiliates and its proposed first tier sub-consultants; and
  - f. it is not aware of a determination of ineligibility or suspension issued by PWGSC that applies to it.

5. Where a Bidder is unable to provide any of the certifications required by subsection 4, it must submit with its bid a completed Integrity Declaration Form, which can be found at [Declaration form for procurement](#).
6. Canada will declare non-responsive any bid in respect of which the information requested is incomplete or inaccurate, or in respect of which the information contained in a certification or declaration is found by Canada to be false or misleading in any respect. If Canada establishes after issuance of the Standing Offer that the Bidder provided a false or misleading certification or declaration, Canada may set aside the Standing Offer and terminate for default any resulting contracts. Pursuant to the Policy, Canada may also determine the Bidder to be ineligible for issuance of a standing offer for providing a false or misleading certification or declaration.

## **GI 02 INTRODUCTION**

1. This is a single phase selection process.
2. This RFP Document sets out the project requirement, i.e., the particulars of the project itself and the broad scope of services required from the Contractor.
3. Based upon their analysis of the project requirements and the capability/capacity of their firm, the Bidders formulate bids for the service, including their price.
4. The Bidders describe their capabilities and proposed services in the "Technical Proposal" of the submission (Envelope One). The "Price Proposal" includes the proposed price and bid security which is submitted in a sealed envelope (Envelope Two).
5. The Technical Portion of bid(s) received are evaluated, without knowledge of the price, by the PWGSC Evaluation Board. Evaluation is based on a set of mandatory and pre-established criteria, components and weight factors. Numerical technical scores are awarded at the completion of the technical evaluation.
6. Price envelopes are then opened for the technically qualified bids. The responsive submission with the highest points combined will be recommended for award of the contract.

## **GI 05 RESPONSIVE PROPOSAL**

1. To be considered responsive, a proposal must meet all of the mandatory requirements set out in the RFP. No further consideration in the selection procedure will be given to a Bidder submitting a non-responsive proposal.

## **GI 06 OVERVIEW OF SELECTION PROCESS**

### **1. Proposal**

- (a) Proposals are submitted following a "two-envelope" procedure, in which Bidders submit the "technical" component of their proposal in one envelope and the proposed price of the services (price proposal) in a second envelope.
- (b) The information that Bidders are required to provide is set out in detail elsewhere in the RFP.
- (c) In response to the RFP, interested Bidders submit a proposal in which they:
  - (1) indicate whether the proposal is submitted by an individual firm or by a joint venture;
  - (2) if the proposal is submitted by a joint venture, describe the proposed legal and working relationships of the joint venture and the benefits to be gained by the formation of the joint venture;
  - (3) identify the Bidder and key Subcontractors proposed for inclusion in the Bidder's Team, and the proposed organizational structure of the Team;
  - (4) describe the extent to which proposed members of the Bidder's Team have successfully performed services for projects comparable to the project in their specific area of responsibility which is the subject of the proposal;
  - (5) identify the professional accreditation, experience, expertise and competence of the Bidder's Team and Key Personnel proposed to be assigned to perform the required services.
  - (6) comply with all other requirements set out in the RFP.

### **2. Proposal Evaluation and Rating**

- (a) Technical components of all responsive proposals are reviewed, evaluated and rated by a Public Works and Government Services Canada (PWGSC) Evaluation Board in accordance with the criteria, components and weight factors set out in the RFP. Upon completion of the evaluation, Technical Ratings are established.
- (b) Proposals meeting the Mandatory criteria and achieving the minimum Technical Score specified in the Submission Requirements and Evaluation section of the RFP are further considered.
- (c) To be considered further, Bidders must achieve a minimum weighted rating of seventy (70) points out of the one hundred (100) points available for the rated criteria.
- (d) The price envelopes of all responsive proposals which have achieved the pass mark of seventy (70) are opened upon completion of the technical evaluation. When there are three or more responsive proposals, an average price is determined by adding all the price

proposals together and dividing the total by the number of price proposals opened. This calculation will not be conducted when one or two responsive proposals are received.

- (e) All price proposals which are greater than 25 percent above the average price will cause their respective complete proposals to be set aside and receive no further consideration.
- (f) The price proposals are rated as follows:
  - 1. The lowest price proposal receives a Price Rating of 100.
  - 2. The second, third, fourth and fifth lowest prices receive Price Ratings of 80, 60, 40, and 20 respectively. All other price proposals receive a Price Rating of 0.
  - 3. On the rare occasion where two (or more) price proposals are identical, these price proposals receive the same rating and the corresponding number of following ratings are skipped.
  - 4. The Price Rating is multiplied by a predetermined percentage factor to establish a Price Score.

### **3. Total Score**

- (a) The total overall score (Total Score) assigned to each Bidder's complete proposal is calculated as the aggregate of:
  - (1) the Technical Score (first envelope of the proposal), and
  - (2) the Price Score (second envelope of the proposal).
- (b) The Bidder receiving the highest Total Score is the entity that the PWGSC Evaluation Board will recommend for the provision of the required services.

## **GI 07 ENQUIRIES DURING THE SOLICITATION PERIOD**

- 1. Any questions or requests for clarification during the solicitation period must be submitted in writing to the Contracting Authority:  
  
Name: Patty Yi  
Title: Supply Specialist  
Department: Public Works and Government Services Canada  
Division: Real Property Contracting  
Telephone: (778) 919-2578  
E-mail: [patty.yi@pwgsc.gc.ca](mailto:patty.yi@pwgsc.gc.ca)
- 2. To ensure equality of information provided to Bidders, answers to enquiries will be forwarded and posted on <http://buyandsell.gc.ca>.
- 3. To ensure the integrity of the competitive bid process, enquiries and other communications regarding the RFP must be directed only to the Contracting Authority identified in the RFP. Failure to comply with this requirement may result in the proposal being declared non-responsive.
- 4. Enquiries should be received no later than five (5) calendar days prior to the date set for solicitation closing to allow sufficient time to provide a response. Enquiries received after that time may not result in an answer being provided.

## **GI 08 LIMITATION OF SUBMISSIONS**

1. A Bidder may not submit more than one proposal. This limitation also applies to the persons or entities in the case of a joint venture. If more than one proposal is received from a Bidder (or, in the case of a joint venture, from the persons or entities), all such proposals shall be rejected and no further consideration shall be given.
2. A joint venture is defined as an association of two or more parties which combine their money, property, knowledge, skills, time or other resources in a joint business enterprise agreeing to share the profits and the losses and each having some degree of control over the enterprise.
3. An arrangement whereby Canada contracts directly with a Contractor who may retain Subcontractors to perform portions of the services is not a joint venture arrangement. A Subcontractor may, therefore, be proposed as part of the Contractor Team by more than one Bidder. The Bidder warrants that it has written permission from such Subcontractors to propose their services in relation to the services to be performed.
4. Notwithstanding paragraph 3 above, in order to avoid any conflict of interest, or any perception of conflict of interest, a Bidder shall not include in its submission another Bidder as a member of its Team, as a Subcontractor.
5. Any joint venture entered into for the provision of professional services or other services must be in full compliance with the requirements of any provincial or territorial law pertaining thereto in the Province or Territory in which the project is located.

#### **GI 09 PROPOSAL PRICE**

1. Unless specified otherwise elsewhere in the proposal documents:
  - (a) the price proposal shall be in Canadian currency, and
  - (b) the price proposal shall not include any amount for Applicable Taxes, and exchange rate fluctuation protection is not offered, and
  - (c) any request for exchange rate fluctuation protection will not be considered, and may render the proposal non-responsive.

#### **GI 10 REVISION OF PROPOSAL**

1. A proposal submitted in accordance with these requirements may be amended by letter or facsimile provided the revision is received at the office designated for the receipt of proposals, on or before the date and time set for the receipt of proposals. The revision must be on the Bidder's letterhead or bear a signature that identifies the Bidder, and must clearly identify the change(s) to be applied to the original proposal. The revision must also include the information identified in GI 12, Submission of Proposal.
2. The facsimile number for receipt of revisions is (604) 775-9381.

#### **GI 11 COMPLETION OF SUBMISSION**

This calculation will not be conducted when one or two responsive proposals are received.

All price proposals which are greater than Twenty Five percent (25%) above the average price will be set aside and will receive no further consideration.

The remaining price proposals are rated as follows:

4. If it appears that the final quantity of labour, Plant and Material under a price per unit item shall be less than 85 percent of the estimated tendered quantity, either party to the Contract may make a written request to the other party to negotiate a change to the price per unit for the item if
  - a. there is a demonstrable difference between the unit cost to the Contractor of performing or supplying the estimated tendered quantity and the unit cost to the Contractor for performing or supplying the final quantity; and

5. For the purposes of the negotiation referred to in paragraph 4) of GC6.4.3
  - a. the onus of establishing, justifying and quantifying a proposed change lies with the party making the request for negotiation; and
  - b. in no event shall the total price for an item that has been amended as a result of a reduction in quantity pursuant to paragraph 4) of GC6.4.3 exceed the amount that would have been payable to the Contractor had 85 percent of the tendered quantity actually been performed or supplied.

1. Upon application of the Contractor made before the date first fixed for completion of the Work or before any other date previously fixed under this clause, Canada may extend the time for completion of the Work by fixing a new date if Canada determines that causes beyond the control of the Contractor have delayed its completion.

  4. The taking of the Work or any part thereof out of the Contractor's hands does not relieve the Contractor from any obligation under the Contract or imposed by law except the obligation to complete the performance of that part of the Work that was taken out of the Contractor's hands.
  5. If the Work or any part thereof is taken out of the Contractor's hands, all Plant and Material and the interest of the Contractor, or its suppliers or subcontractors at any tier, in all real property, licences, powers and privileges acquired, used or provided by the Contractor, or its suppliers or subcontractors at any tier, under the Contract shall continue to be the property of Canada without compensation.

3. During a period of suspension, the Contractor shall not remove any part of the Work, Plant or Material from its site without the consent of Canada.
4. If a period of suspension is 60 days or less, the Contractor shall resume the performance of the Work on the expiration of that period, and the Contractor is entitled to be paid the extra costs necessarily incurred by the Contractor as a result of the suspension, determined in accordance with GC6.4, "Determination of Price".

  - i. Evidence of ownership and control of an Aboriginal business or joint venture may include incorporation documents, shareholders' or members' register; partnership agreements; joint venture agreements; business name registration; banking arrangements; governance documents; minutes of meetings of Board of Directors and Management Committees; or other legal documents.
  - ii. Ownership of an Aboriginal business refers to "beneficial ownership" i.e., who is the real owner of the business. Canada may consider a variety of factors to satisfy whether Aboriginal persons have true and effective control of an Aboriginal business. (See Appendix A Set-aside Program for Aboriginal Business for a list of the factors, which may be considered by Canada.)
- b. Employment and employees
  - i. Where an Aboriginal business has six or more full-time employees at the date of submitting the certification and is required by Canada to substantiate that at least 33 percent of the full-time employees are Aboriginal, the business must, upon request by Canada, immediately provide a completed Owner/Employee Certification form for each full-time employee who is Aboriginal. See SACC Manual clause A3001T.

week. It is the number of full-time employees on the payroll of the business at the date of bid submission that determines the ratio of Aboriginal to total employees of the business for the purpose of establishing eligibility under the Program.

- iv. Owners who are Aboriginal and full-time employees who are Aboriginal must be ready to provide evidence in support of such status. The Owner/Employee Certification to be completed by each owner and full-time employee who is Aboriginal shall state that the person meets the eligibility criteria and that the information supplied is true and complete. This certification shall provide the person's consent to the verification of the information submitted.

5. Subcontracts

- a. Evidence of the proportion of work done by subcontractors may include contracts between the contractor and subcontractors, invoices, and paid cheques.
- b. Evidence that a subcontractor is an Aboriginal business (where this is required to meet the minimum Aboriginal content of the contract) is the same as evidence that a prime contractor is an Aboriginal business.

6. Who is an Aboriginal Person for Purposes of the Set-Aside Program for Aboriginal Business?

- a. An Aboriginal person is an Indian, Metis or Inuit who is ordinarily resident in Canada.
- b. Evidence of being an Aboriginal person will consist of such proof as:
  - i. Indian registration in Canada;
  - ii. membership in an affiliate of the Metis National Council or the Congress of Aboriginal Peoples, or other recognized Aboriginal organizations in Canada;
  - iii. acceptance as an Aboriginal person by an established Aboriginal community in Canada;
  - iv. enrollment or entitlement to be enrolled pursuant to a comprehensive land claim agreement;
  - v. membership or entitlement to membership in a group with an accepted comprehensive claim;
  - vi. evidence of being resident in Canada includes a provincial or territorial driver's license, a lease or other appropriate document.
