Deep Space Exploration Robotics (DSXR) Phase O

The Request for Proposal is hereby amended as follow to answer questions:

Q1. Section 3.1.13 of the SOW identifies the need to support the review and development of Cislunar draft standards. Is support to international bi-weekly standards teleconferences required as part of this SOW? If so, please specify the level of teleconference participation (meeting frequencies and meeting durations) that should be assumed for the External Robotics Interfaces, Power, Avionics, Software, and Thermal standards.

A1. Yes, support to international teleconferences will be required to execute the work of Section 3.1.13 and also Section 3.4.8.

For Section 3.1.13, proposed standards must be reviewed given impact on requirements. For the purposes of bid preparation it is reasonable to assume a level of effort for direct participation in standards review teleconferences as follows: External Robotics interfaces 2 persons for 2 hours every 3 weeks, Power 1 person for 1 hour every month, Avionics/Software/Thermal 1 person for 2 hours every 2 weeks each.

For Section 3.4.8 "Other Meetings" it is reasonable to assume teleconferences for 2 persons for 2 hours every month in addition to the four face-to-face international meetings currently specified. It is reasonable to assume 2 persons per 1 week face-to-face meeting with 2 meetings in the U.S. and 2 meetings overseas.

Q2. Section 3.4.8 of the SOW identifies the need to support up to four international meetings which would be on a task authorization basis. Is budget required to be allocated within the existing budget, or would the "task authorization" be funded under a "time and materials" amendment accompanying the authorization?

A2.

- i. Delete the last phrase: "These would be on a task authorization basis"
- ii. The bidder must include the support within the existing budget.

Q3. Section 3.5 of the SOW identifies optional engineering services (in particular Engineering tasks 3, 4, and 5). Is budget required to be allocated within the existing budget for these optional activities, or would a "task authorization" be funded under a "time and materials" amendment accompanying the authorization?

A3.

- i. Delete the last phrase: "These would be on a task authorization basis"
- ii. All tasks within Section 3.5 must be included within the existing budget for these optional activities.
