Solicitation Amendment 002 is issued to

1. Respond to questions 1 through 3 received the during the solicitation period; and,
 2. Upload reference documents - Statement of Technical Requirements and Commissioner's Directive CD-341
-

1. Questions and Answers 1 through 3:

Question:

1) On page 21 Section 1.3 there is a clause that talks about the Contractor being able to use the pre-wired outlets at no charge but that the contractor would be responsible for ongoing maintenance. Are you able to elaborate on where this responsibility would end in regards to the existing cable distribution? Would it strictly be the coax cable to the back of the wall plate or is it something else?

Answer:

1) The contractor shall provide a CATV system in accordance to SP1000R1E Statement of Technical Requirements (STR), Cable Television Distribution System, For Use In Federal Correctional Facilities. The existing CSC institution CATV network is distributed via coax to a wall mounted metal plate via a F88 connector. The contractor may reuse the existing CATV infrastructure. The contractor is responsible to verify signal levels in accordance to the aforementioned STR.

Please see the Statement of Technical Requirements for Cable Television Distribution System and Commissioner's Directive CD-341, Reception and Distribution of Television Signals for your reference.

Question:

2) Would it be possible for the Institution to provide an internet connection?

Answer:

2) The institution will not be providing an internet connection.

Question:

3) Is it possible to organize a site visit?

Answer:

3) Yes. An optional site visit will be as follows:

*Bidders are invited to attend an optional site visit that will be held on June 12, 2017 at 13:00 hours at Grande Cache Institution located at Hoppe Ave, Grande Cache, AB. Please reply to Sharon Zirk at Sharon.Zirk@csc-scc.gc.ca to confirm your attendance by **June 8, 2017**.
