

ADDENDUM # 1

Date: June 2, 2017

Projet: Repair of the Machinery Hangar Shed – PAI3

Bidders must make sure that their bids are based on the latest version of the tender documents published and take into consideration the following amendments and information, including any information provided on amendments or Q&A previously published for this project.

Bidders that do not comply with this requirement will be discarded.

OBJECTIVE of Addendum #1:

The original RFP indicated no security requirements. That information was incorrect. It will be necessary for all personnel to obtain a reliability security clearance.

Appendix B (Special Instructions to bidders) is modified as follows:

1.

Appendix B: Special Instructions to bidders, Section IP10 Personnel Security Requirements

REPLACE:

“Unscreened personnel may be used for the work. Unscreened personnel will require an escort provided by AAFC.”

BY:

Personnel who are required to perform any part of the work must EACH hold a valid personnel security screening at the level of RELIABILITY STATUS, granted or approved by Agriculture and Agri-Food Canada. Until the security screening of the personnel has been completed satisfactorily by Agriculture and Agri-Food Canada, the Contractor/Subcontractor personnel MAY NOT perform contract work. Each of the proposed staff must complete “Security Clearance Form” (TBS 330-23E) upon request from Canada.

Cost for security screening - The program does not charge for its screening services. However, your organization must cover any costs needed to comply with the security requirements of a government contract. For example, these costs might include the purchase of file cabinets to safely store Secret documents. They might also include the fees charged by third-party service providers to take and submit fingerprints electronically.

All other terms and conditions remain the same
