This amendment, No. 001, has been raised in response to the following questions in regards to solicitation 5P412-160885:

1. **Q:** Who currently supplies the national park with propane?

A: Parks Canada does not currently have an agreement in place through Public Services and Procurement Canada (PSPC) for the supply and delivery of propane to Prince Albert National Park. This RISO has been proposed in order to fulfil the requirement.

2. **Q:** Are the tanks on site currently rented from the present supplier or were they purchased?

A: Parks Canada owns all of the propane tanks that are to be utilized under the proposed Standing Offer.

3. **Q:** On page #16 it states that the refinery rack price needs to be printed on all invoices, are you requesting that the refinery rack price be printed on all the tickets that the meter on the trucks print off?

A: No, the refinery rack price need only be included on any resulting invoices. This is for audit purposes and to ensure that the price charged to the Government of Canada adheres to the procedures outlined in Annex B: Basis of Payment.

4. **Q:** Annex A Page 13 states that delivery vehicles must be able to travel on unplowed roads in winter, Who plows the road in the winter should there be an abundance of snow that prevents vehicular traffic?, who's cost?

A: The Park clears all roads to fill all propane tanks, as necessary.

5. **Q:** With providing our refinery price it does not stipulate which refinery and what day for pricing. What information is required?

A: The refinery rack price should include the refinery and pricing date. This information should be an accurate reflection of the propane supplied to Parks Canada.
