2.3 Former Public Servant

Contracts awarded to former public servants (FPS) in receipt of a pension or of a lump sum payment must bear the closest public scrutiny, and reflect fairness in the spending of public funds. In order to comply with Treasury Board policies and directives on contracts awarded to FPS, Offerors must provide the information required below before the issuance of a standing offer. If the answer to the questions and, as applicable the information required have not been received by the time the evaluation of offers is completed, Canada will inform the Offeror of a time frame within which to provide the information.

Failure to comply with Canada's request and meet the requirement within the prescribed time frame will render the offer non-responsive.

Definitions

For the purposes of this clause,

"former public servant" is any former member of a department as defined in the [Financial Administration Act](#), R.S., 1985, c. F-11, a former member of the Canadian Armed Forces or a former member of the Royal Canadian Mounted Police. A former public servant may be:

- a. an individual;
- b. an individual who has incorporated;

- d. a sole proprietorship or entity where the affected individual has a controlling or major interest in the entity.

"lump sum payment period" means the period measured in weeks of salary, for which payment has been made to facilitate the transition to retirement or to other employment as a result of the implementation of various programs to reduce the size of the Public Service. The lump sum payment period does not include the period of severance pay, which is measured in a like manner.

"pension" means a pension or annual allowance paid under the [Public Service Superannuation Act](#) (PSSA), R.S., 1985, c. P-36, and any increases paid pursuant to the [Supplementary Retirement Benefits Act](#), R.S., 1985, c. S-24 as it affects the PSSA. It does not include pensions payable pursuant to the [Canadian Forces Superannuation Act](#), R.S., 1985, c. C-17, the [Defence Services Pension Continuation Act](#), 1970, c. D-3, the [Royal Canadian Mounted Police Pension Continuation Act](#), 1970, c. R-10, and the [Royal Canadian Mounted Police Superannuation Act](#), R.S., 1985, c. R-11, the [Members of Parliament Retiring Allowances Act](#), R.S., 1985, c. M-5, and that portion of pension payable to the [Canada Pension Plan Act](#), R.S., 1985, c. C-8.

If so, the Offeror must provide the following information, for all FPS in receipt of a pension, as applicable:

- a. name of former public servant;
- b. date of termination of employment or retirement from the Public Service.

By providing this information, Offerors agree that the successful Offeror's status, with respect to being a former public servant in receipt of a pension, will be reported on departmental websites as part of the published proactive disclosure reports in accordance with [Contracting Policy Notice: 2012-2](#) and the [Guidelines on the Proactive Disclosure of Contracts](#).

Work Force Adjustment Directive

Is the Offeror a FPS who received a lump sum payment pursuant to the terms of the Work Force Adjustment Directive? **Yes** () **No** ()

If so, the Offeror must provide the following information:

- a. name of former public servant;

- b. conditions of the lump sum payment incentive;
- c. date of termination of employment;

- e. rate of pay on which lump sum payment is based;
- f. period of lump sum payment including start date, end date and number of weeks;
- g. number and amount (professional fees) of other contracts subject to the restrictions of a work force adjustment program.

For all contracts awarded during the lump sum payment period, the total amount of fees that may be paid to a FPS who received a lump sum payment is \$5,000, including Applicable Taxes.

2.4 Enquiries - Request for Standing Offers

All enquiries must be submitted in writing to the Standing Offer Authority no later than ten (10) calendar days before the Request for Standing Offers (RFSO) closing date. Enquiries received after that time may not be answered.

Offerors should reference as accurately as possible the numbered item of the RFSO to which the enquiry relates. Care should be taken by Offerors to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that Offerors do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Offerors. Enquiries not submitted in a form that can be distributed to all Offerors may not be answered by Canada.

2.5 Applicable Laws

The Standing Offer and any contract resulting from the Standing Offer must be interpreted and governed, and the relations between the parties determined, by the laws in force in Ontario.

Offerors may, at their discretion, substitute the applicable laws of a Canadian province or territory of their choice without affecting the validity of their offer, by deleting the name of the Canadian province or territory specified and inserting the name of the Canadian province or territory of their choice. If no change is made, it acknowledges that the applicable laws specified are acceptable to the Offerors.

PART 3 - OFFER PREPARATION INSTRUCTIONS

3.1 Offer Preparation Instructions

Canada requests that Offerors provide their offer in separately bound sections as follows:

- Section I: Technical Offer (4 hard copies)
- Section II: Financial Offer (1 hard copy)
- Section III: Certifications (1 hard copy)
- Section IV: Additional Information (1 hard copy)

Prices must appear in the financial offer only. No prices must be indicated in any other section of the offer.

Canada requests that Offerors follow the format instructions described below in the preparation of their offer.

- (a) use 8.5 x 11 inch (216 mm x 279 mm) paper;
- (b) use a numbering system that corresponds to that of the Request for Standing Offers.

In April 2006, Canada issued a policy directing federal departments and agencies to take the necessary steps to incorporate environmental considerations into the procurement process [Policy on Green Procurement](http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html) (<http://www.tpsgc-pwgsc.gc.ca/ecologisation-greening/achats-procurement/politique-policy-eng.html>). To assist Canada in reaching its objectives, Offerors should:

- 1) use 8.5 x 11 inch (216 mm x 279 mm) paper containing fibre certified as originating from a sustainably-managed forest and containing minimum 30% recycled content; and
- 2) use an environmentally-preferable format including black and white printing instead of colour printing, printing double sided/duplex, using staples or clips instead of cerlox, duotangs or binders.

Section I: Technical Offer

In their technical offer, Offerors should explain and demonstrate how they propose to meet the requirements and how they will carry out the Work.

The technical offer should address clearly and in sufficient depth the points that are subject to the evaluation criteria against which the technical offer will be evaluated. Simply repeating the statement contained in the solicitation is not sufficient. In order to facilitate the evaluation of the offer, Canada requests that Offerors address and present topics in the order of the evaluation criteria under the same headings. To avoid duplication, Offerors may refer to different sections of their offers by identifying the specific paragraph and page number where the subject topic has already been addressed.

Part 4, Evaluation Procedures and Attachment 1 to Part 4, Evaluation Criteria, contain additional instructions that Offerors should consider when preparing their technical offer.

Section II: Financial Offer

Offerors must submit their financial offer in Canadian funds in accordance with the Pricing Schedule detailed in Attachment 1 to Part 3. The total amount of Applicable Taxes must be shown separately.

Offerors must submit their rates FOB destination; Canadian customs duties and excise taxes included, as applicable; and Applicable Taxes excluded.

When preparing their financial offer, Offerors should review the Basis of Payment in Annex B and clause 4.1.2, Financial Evaluation, of Part 4.

The Standing Offer Authority will have the right to ask for additional information to verify the Offeror's certifications. The Work Request will contain as a minimum:

- the Domain of services required;

 - the details of the work activities to be performed within the scope of the standing offer;
 - a schedule indicating start and end dates for courses required;

2. The Offeror will provide its price proposal in accordance with the basis of payment indicated in the Work Request and provide a delivery schedule with a final completion date for the Work with supporting details within the specified number of working days and/or hours requested by the Project Authority, otherwise the Offeror will be by-passed and another Offeror will be contacted.

3. If the Offeror cannot fulfill the Work Request, the Offeror representative must send a written confirmation and state the reason(s) of non-acceptance. The written confirmation must be forwarded via electronic mail to the requesting Project Authority within the specified number of working days indicated in the Work Request.
4. If a response is not received within the number of working days requested by the Project Authority, or if the Offeror has confirmed that he cannot fulfill the Work Request, the Work Request will then be forwarded to another Offeror. This process will continue until the requirement can be fully addressed by an Offeror.
5. The Offeror will be authorized by the Project Authority to proceed with the Work by the issuance of a Call-up against a Standing Offer (Call-up) form. A description of the Work to be performed will be attached to or included in the Call-up form.

The Offeror must not commence work until a signed call-up form has been received. The Offeror acknowledges that any and all work performed in the absence of the aforementioned approved Call-up will be done at the Offeror's own risk, and Canada will not be liable for payment thereof, unless or until an approved call-up is provided by the Project Authority.

7.9 Work Allocation

1. Domain;
2. Location (Region and/or Metropolitan Area) in which the Offeror has agreed to work without travel and living expenses, where required;

When issuing a Call-up against a Standing Offer, the Project Authority will select the Offeror based on the following basis: **Right of First Refusal.**

Right of First Refusal basis:

The call-up procedures require that when a requirement is identified, the identified user will contact the highest-ranked Offeror to determine if the requirement can be satisfied by that Offeror. If the highest-ranked Offeror is able to meet the requirement, a call-up is made against its standing offer. If that Offeror is unable to meet the requirement, the identified user will contact the next ranked Offeror. The identified user will continue to proceed as above until one Offeror indicates that it can meet the requirement of the call-up.

Note: When Work is required in a location where there are no Offerors that have qualified for a Standing Offer, the Offeror who is closest in proximity to the location where the Work is required will be the first Offeror to be approached with the Work Request by the identified user before any other Offeror. If that Offeror is unable to meet the requirement, the identified user will contact the next closest Offeror. The identified user will continue to proceed until one Offeror indicates that it can meet the requirement. Travel and living expenses will be paid to the Offeror when/if this situation occurs.

SACC Manual Clause G1005C (2016-01-28), Insurance

ANNEX A STATEMENT OF WORK

1. TITLE

Instructors to provide course Delivery Services of Classroom Training for Procurement, Materiel Management and Real Property (PMMRP) courses

2. OBJECTIVE

To issue Standing Offers for the provision of the services of instructors, on an “as and when requested basis”, to deliver various PMMRP courses in both official languages in various locations across Canada.

3. BACKGROUND

The Canada School of Public Service (CSPS or the School) is the common learning service provider for the Public Service of Canada. It was created to bring a unified approach to serving the common learning and development needs of public servants and to help ensure that all public service employees across Canada have the knowledge and skills they need to meet the challenges of the public sector of the 21st century.

The School is committed to promoting a strong corporate culture in the Public Service, fostering a culture of learning, and being a catalyst and resource for the ongoing development of the Public Service as a learning organization.

The CSPS is in a period of significant transformation in terms of the types of content it will deliver and the way it will deliver content in the future. The content within domains and the methods of delivery are being rationalized and reorganized. Part of the CSPS transformation is the desire to be in a position to regularly refine curriculum by adding, deleting and updating content to meet environmental changes including emerging needs in the core subject matter areas.

Classroom training is expected to continue for the next several years. However, over time, online and virtual instructor-led training is expected to increasingly replace traditional classroom training to gradually become the prime delivery method for CSPS’s federal government specific content.

The foregoing changes are components of the new reality related to how the School will be delivering on its mandate so that public servants will be able to consume certain types of content, anytime, anywhere and on any device.

4. SCOPE OF SERVICES

To issue Standing Offers for the provision of the services of instructors to deliver Classroom Training of various PMMRP courses on an “as and when requested basis” to assist the Canada School of Public Service (CSPS) to fulfill their individual requirements. The services described will be required in both official languages as individuals taking courses have a choice of selecting an English or French course.

Initially the provision of the majority of the courses is expected to be delivered via classroom training versus online and/or virtual instructor-led training. However, over time, the percentage of courses

delivered virtually or online is expected to steadily increase in line with the CSPS’s vision for modern service delivery.

At the present time, the services of instructors to deliver PMMRP courses will be required in four (4) domains as identified herein. However, these domains and their contents are being analyzed, deconstructed, rearranged and refreshed which will result in changes to how the various contents are organized and delivered.

Accordingly, the list of content areas that follows is indicative of PMMRP content areas for the near term only. While the fundamentals of the core content will prevail, these changes can be expected as the CSPS moves through its service delivery transformation.

Currently, the services of instructors to deliver PMMRP courses will be required in four (4) domains as identified below:

Domain 1 - Procurement
