This amendment is raised to provide the following clarification:

1. Please identify the location of the existing PA head-end equipment.

Answer:

Head end equipment is located in the main Commissionaire room on the main floor(not the booth but the room where it is all reflective glass

2. Can you identify what is existing within the PA system and if it has the capacity to feed the new sound masking system to page?

Answer:

The sound masking and paging systems are separate systems, but are interconnected to ensure that all paging is clear throughout the facility. There should be no capacity issues as they are separate.
