**Amendment #003**

The following Questions have been submitted reference Annex "C" – Beaver Creek Institution

**Items #1 & #6**

**Would it be possible to change the pack size to reflect the industry standard? Most manufacturers only pack these items in a 2/4.53kg case. Yes**

**Item #24**

**As most manufacturers only pack this item now in a convenient 18/4oz and the not the 40/cs, would it be possible to change the pack size to reflect this? Yes**

**Items #27, #28, #31 & #10**

**Would it be possible to change the pack size to a (six) pack? The 10 pack as listed on the request, is only filled by the most expensive salad dressing. The 6 pack allows for a better costing.**

**Yes**

**Item #49**

**Is it possible to change the format on this item to reflect the industry standard? The proposed size would be a (11.34kg) weight vs the 25kg weight. This would allow the product to remain fresher and not as heavy. I believe that the 25kg was intended to be 25#.**

**Yes**

**Item #61**

**Would it possible to change the pack size on this item? Most mfg'r only produce this item in a 2/1kg, and this would keep the cost down as this item is not ordered frequently.**

**Yes**

**Item #67**

**Would it be possible to change the size of this item to a more standard industry size of 12/250gr or 12/227gr?**

**Yes 12/250 gr**

**Item #69**

**Would it be possible to change the size of this item to a 12/750ml? There is no manufacturer that makes a "Lite" syrup in a 375ml as requested.**

**Yes**

**Item #95**

**Would it be possible to change the pack size to 24/cs vs 12/cs? A pack of 24 is the industry standard packing size.**

**Yes**
