

Q-A # 1

Date: June 21, 2017

Projet: Repair of the Machinery Hangar Shed – PAI3

Bidders must make sure that their bids are based on the latest version of the tender documents published and take into consideration the following amendments and information, including any information provided on amendments or Q&A previously published for this project.

Bidders that do not comply with this requirement will be discarded.

Question #1

Does the timer have to be Paragon brand or are equivalent accepted?

Question #2

Again about the timer, how many events (e.g. sunrise and sunset)?

Question #3

Is the timer 24/7 (hours/day)?

Answers #1-2-3

The control specified is an astronomical control (latitude/longitude) and not a timer. This control puts the exterior lights on at sun down and shuts down the exterior lights at sun raise in the morning. Ex: Paragon 365/DST2/120V

All other terms and conditions remain the same
