## Request for Proposal W0142-17X050

### Supply and Delivery of Bulk Propane - Amendment #6

#### Question and Answer

##### Question 1:

If a supplier other than the incumbent is awarded the SOA, would the new supplier be expected to pump out the propane from the existing incumbent-owned tank, remove that tank and set it aside, and then install their own tanks and put the propane back into the new tank?

##### Answer 1:

One of the vendors performs the transfer of propane (agreed by both vendors), OR  
Current vendor provides credit for unused propane upon removal of the tank, OR  
Current vendor provides transfer of the tank itself to a new vendor at cost or free of charge.

To be determined at time of contract award in consultation with incumbent and successful bidder.

##### Question 2:

Clarify which tanks are Crown owned and contractor owned. During the site visit, it was identified that serial PT-07, PT-08, PT-09 and PT-14 were owned by DRDC. However, DRDC staff provided different information. Please confirm which are Crown and which are contractor owned.

##### Answer 2:

#### TANKS & LOCATIONS

##### DND, CFB Suffield

Serial #	Quantity	Location	Size	Approx Refill
CFB-01 Crown-Owned tank	1	Building 210 Base Maintenance	3785 litres*	Bi-Monthly

\*3785 litre tank includes dispensing meter, hose and dispensing nozzle for refuelling and refilling cylinders, scale platform type for weighing bottles, located at Base Maintenance Building 210.

#### SPECIAL CONDITIONS FOR ACCESS

Offeror's employees requiring access to the Range areas for deliveries, pick-ups or service calls must attend a Range Access Briefing. This must be renewed annually and is specific to the individual requiring Range access. This briefing will be arranged by G4 Procurement (Project Authority) as the Offeror identifies each individual. Briefings are routinely held at 9:00 am Tuesdays and Thursdays each week.
