

Banff Environmental Assessment Office Environmental Screening Determination

Registration Information

TITLE:	Ya-Ha-Tinda Road Repair		
Field Site:	Banff National Park	Responsible Authority:	Parks Canada
BNP Registration Number:	BNP-001027		
EA Type:	Basic Impact Analysis (BIA)		
Screening Done By:	Helen Dickinson		
EA Report Posted Date	15-Jun-15		

PROJECT TYPE: Either 1. or 2. but not both

1. Physical Work :	Road (Gravel and Paved) / Route (gravier et revetue)		
2. Physical Activity (Code):			
Project Descriptors :	<input type="checkbox"/> 1	Construction	
Easting:	<input type="checkbox"/> 2	Modification	
Northing:	<input type="checkbox"/> 3	Decommissioning	

Project Description

Project Description (English):	The Ya-Ha-Tinda Ranch Road is a gravel roadway from the ranch buildings to the ranch gates. Some sections of the roadway are exposed to erosion by water runoff and potential instability along the banks adjacent to the shoulders of the road. In several sections, erosion is causing immediate safety concerns, especially adjacent to Scalp Creek where the creek has eroded the bank almost directly beneath the road. Parks Canada proposes to decommission the section of road adjacent to the creek and relocate it beyond the potential slope slide zone. Some slope stabilisation measures and the addition of several culverts are proposed along stretches of the road, as well as adding crushed gravel the length of the road to improve drainage and vehicle traction.
Geographic Location:	Banff National Park
Project Manager:	Eugene Yeung, Asset Manager
Project manager phone number:	403 762-1475

Public Review

Project to Undergo Public Review:	<input type="checkbox"/>
Review Locations:	
Deadline For Public Input(d/m/y):	
Contact Person:	Jamie Fennell
Public Concerns:	

Determination

Nature and Extent of Adverse Environmental Effects:	As per Environmental Screening Report
Mitigation Measures:	Mitigative measures specified in environmental assessment to apply, provisions of Banff National Park Directive 17 notwithstanding.
Additional Mitigation or Instruction:	

Note: If an appendix is referenced but not attached, notify document registrar..

Monitoring Contact:	Helen Dickinson		
Project Surveillance? <input checked="" type="checkbox"/>	Responsible Officers:	Helen Dickinson	
EA Determination:	Project not likely to cause significant adverse environmental effects		
EA Determination Date (d/m/y):	30-Jun-17	Follow-up/Monitoring Program?	<input type="checkbox"/>
Project Status:	Project Assessed		
Construction Status:	Construction Pending		
Comments:			
Signature of Responsible Centre Manager (RCM):			

Sheila Luey, Manager of Integrated Land Use Planning

Signature of Superintendent:

Dave McDonough, Superintendent Banff Field Unit, Parks Canada Agency
