The amendment 011 is raised to provide clarification to the document.

Question: Please note that cameras EX-025, EX-026, EX-029, EX-030, EX-031 are on the roadway and new poles would appear to impede traffic in the commercial vehicle parking area. Will CBSA be updating these camera locations? Are we still able to consolidate cameras as per addendum 9?

Response: If a camera is required and there isn't an existing pole than a pole must be supplied. Suppliers will not be able to consolidate cameras. Please locate the cameras as per the drawing and, if necessary provide the post required for mounting the camera.

=====
Question: In order to be able to prepare our submission, we need a precise description of the field of vision and the objective of use for each of the indoor and outdoor cameras.

Response: The RFP describes the specs for the cameras and the number of cameras needed... we are not asking the bidder to create the design... we already have that.

=====
Question: Are we to assume that existing conduits are in good enough condition to use?

Response: Bidders are requested to provide pricing based on existing conduits and also provide a cost per foot basis for additional conduit work. This will allow all bidders to provide pricing on the same work as identified below.
