

PART 1 - GENERAL

- | | | |
|--|----|---|
| <u>1.1 REFERENCES</u> | .1 | Canada Green Building Council (CaGBC)
.1 LEED Canada-NC-2009, LEED (Leadership in Energy and Environmental Design): Green Building Rating System Reference Package For New Construction and Major Renovations. |
| | .2 | CSA International
.1 CSA C22.2 No. 5-09, Molded-Case Circuit Breakers, Molded-Case Switches and Circuit-Breaker Enclosures (Tri-national standard with UL 489, and NMJ-J-266-ANCE-2010). |
| <u>1.2 ACTION AND INFORMATIONAL SUBMITTALS</u> | .1 | Submit in accordance with Section 01 33 00 - Submittal Procedures. |
| | .2 | Product Data:
.1 Submit manufacturer's instructions, printed product literature and data sheets for circuit breakers and include product characteristics, performance criteria, physical size, finish and limitations. |
| | .3 | Certificates:
.1 Prior to installation of circuit breakers in either new or existing installation, Contractor must submit 3 copies of a production certificate of origin from the manufacturer. Production certificate of origin must be duly signed by factory and local manufacturer's representative certifying that circuit breakers come from this manufacturer and are new and meet standards and regulations.
.1 Production certificate of origin must be submitted to Departmental Representative for approval.
.2 Delay in submitting production of certificate of origin will not justify any extension of contract and additional compensation.
.3 Any work of manufacturing, assembly or installation to begin only after acceptance of production certificate of origin by |
-

- | | | |
|---|-------|---|
| 1.2 ACTION AND
INFORMATIONAL
SUBMITTALS
(Cont'd) | <hr/> | <p>.3 Certificates: (Cont'd)</p> <p>.3 (Cont'd)</p> <p>Departmental Representative. Unless complying with this requirement, Departmental Representative reserves the right to mandate manufacturer listed on circuit breakers to authenticate new circuit breakers under the contract, and to Contractor's expense.</p> <p>.4 Production certificate of origin must contain:</p> <p>.1 Manufacturer's name and address and person responsible for authentication. Person responsible must sign and date certificate.</p> <p>.2 Licensed dealer's name and address and person of distributor responsible for Contractor's account.</p> <p>.3 Contractor's name and address and person responsible for project.</p> <p>.4 Local manufacturer's representative name and address. Local manufacturer's representative must sign and date certificate.</p> <p>.5 Name and address of building where circuit breakers will be installed:</p> <p>.1 Project title.</p> <p>.2 End user's reference number.</p> <p>.3 List of circuit breakers.</p> <p>.4 Sustainable Design Submittals:</p> <p>.1 LEED Canada submittals: in accordance with Section 01 35 21 - LEED Requirements.</p> <p>.2 Construction Waste Management:</p> <p>.1 Submit project Waste Management Plan highlighting recycling and salvage requirements.</p> <p>.2 Submit calculations on end-of-project recycling rates, salvage rates, and landfill rates demonstrating that 75% of construction wastes were recycled or salvaged.</p> |
| 1.3 DELIVERY,
STORAGE AND
HANDLING | <hr/> | <p>.1 Deliver, store and handle materials in accordance with Section 01 61 00 - Common Product Requirements and with manufacturer's written instructions.</p> |
-

- | | |
|--|--|
| 1.3 DELIVERY,
STORAGE AND
HANDLING
(Cont'd) | .2 Develop Construction Waste Management Plan related to Work of this Section and in accordance with Section 01 35 21 - LEED Requirements. |
| | .3 Packaging Waste Management: remove for reuse or return of pallets, crates, padding, banding, and packaging materials as specified in Construction Waste Management Plan in accordance with Section 01 74 21 - Construction/Demolition Waste Management and Disposal and Section 01 35 21 - LEED Requirements. |

PART 2 - PRODUCTS

- | | |
|-------------------------|--|
| 2.1 BREAKERS
GENERAL | .1 Moulded-case circuit breakers: to CSA C22.2 No. 5 |
| | .2 Bolt-on moulded case circuit breaker: quick-make, quick-break type, for manual and automatic operation with temperature compensation for 40 degrees C ambient. |
| | .3 Common-trip breakers: with single handle for multi-pole applications. |
| | .4 Magnetic instantaneous trip elements in circuit breakers to operate only when value of current reaches setting.
.1 Trip settings on breakers with adjustable trips to range from 3-8 times current rating. |
| | .5 Circuit breakers to have minimum 22 symmetrical rms interrupting capacity rating. |
-
- | | |
|--|--|
| 2.2 THERMAL
MAGNETIC BREAKERS
DESIGN A | .1 Moulded case circuit breaker to operate automatically by means of thermal and magnetic tripping devices to provide inverse time current tripping and instantaneous tripping for short circuit protection. |
|--|--|
-

PART 3 - EXECUTION

- 3.1 INSTALLATION .1 Install circuit breakers as indicated.
- 3.2 CLEANING .1 Progress Cleaning: clean in accordance with
Section 01 74 11 - Cleaning.
- .2 Waste Management: separate waste materials
for reuse and recycling in accordance with
Section 01 74 21 - Construction/Demolition
Waste Management and Disposal and Section
01 35 21 - LEED Requirements.
.1 Remove recycling containers and bins
from site and dispose of materials at
appropriate facility.
