ADDENDUM NO. 1

Subject: **SBIPS Request For Proposal No. FP802-170024
Ecosystems and Fisheries Management (EFM) Licensing Management Regional
Solution (MS Dynamics)**

Dear Sir/Madam:

Further to the above-mentioned Request for Proposal, this Addendum (#1) is issued to advise bidders that the Department is formerly cancelling the above-noted **Request for Proposal FP802-170113** due to the wrong Domain of Expertise being stated.

Currently the RFP states it is #11 –System Integration and it should have been #2 – ERP/CRM. This change of Domain of Expertise impacts the search for the vendors who have qualified for either stream and the same vendors may not be on each domain, therefore the department is cancelling the current proposal call and will be issuing a new invitation for this project in the near future.

Yours truly,

(Original signed by)
