Amendment 003 is issued to amend Part 4 – Evaluation Procedures and Basis of Selection and Attachment 1 – Point Rated Criteria

1) At Part 4 – Evaluation Procedures and Basis of Selection, 4.1.1.1 Mandatory Technical Criteria

Insert:

- Bidder must clearly identify in their Bid the name of the following resources assigned to each institution:
 1. Project Manager;
 2. Primary Back-up Project Manager;
 3. Project Supervisor;
 4. Primary Back-up Project Supervisor;
 5. Technician; and
 6. Primary Back-up Technician,

- Bidders must obtain the required minimum points identified in Attachment 1 - Evaluation Criteria, Sections 1.1, 1.2.1, 2.2.1, 2.2.2 and 2.2.3.

2) At Part 4 – Evaluation Procedures and Basis of Selection

Delete: For the purpose of the Evaluation Process only, "Bidder" means the person or entity (or, in the case of a joint venture, the persons or entities) submitting a bid to perform a contract for goods, services or both. It may also include the parent and/or subsidiaries of the Bidder

3) At Attachment 1 Evaluation Criteria

Delete: In its entirety

Insert: Attachment 1 Point Rated Evaluation Criteria

ATTACHMENT 1

POINT RATED EVALUATION CRITERIA

1 Point Rated Technical Proposal Criteria

The Bidder must obtain an overall pass score of 70 percent of the Technical Proposal and achieve the minimum mandatory points identified for each criterion, as applicable. The rating is performed on a scale of 100 points. The Technical Proposal should include, but not be limited to:

Point Rated Technical Proposal Criteria	Pts	Comments
<p>1.1 Understanding of the Technical Requirements (a maximum of 45 points is available)</p> <p>Demonstrate understanding of the technical requirements of the system which must include sufficient detail such as preliminary drawings, diagrams, photographs and sketches showing system architecture, equipment configuration, and technical information / literature/brochure on products offered.</p> <p>The Bidder's Technical Proposal will be specifically reviewed to determine whether the proposed solution meets the requirements defined in the Statement of Technical Requirements (STR) and supporting documents.</p> <p>The Bidder should demonstrate that the requirements as identified in the STR and supporting documents have been met, by clearly describing how these will be achieved.</p> <p>(0 points) The proposal indicates that the Bidder does not understand the requirements identified in the STR and supporting documents.</p> <p>(35 points) The proposal indicates that the Bidder understands the main concept of what is required. The Bidder's solution meets the operability, environmental, reliability, maintainability, testing and validation requirements.</p> <p>(45 points) The proposal clearly indicates that the proposed solution exceeds the requirement in at least 2 instances that are specifically and uniquely identified in the Technical Proposal</p> <p>*Minimum mandatory points required: 35</p>		

<p>1.2 Quality Assurance and Acceptance Test Plans Description of the proposed quality assurance procedures/processes and acceptance test plan(s) to ensure quality requirements are met and how the Bidder intends to demonstrate to the Crown that the system functions correctly, both off site (Factory Acceptance Testing) and following on-site installation (Site Acceptance Testing). A detailed list of tests to be performed with pass/fail parameters should be provided. Maximum points are broken down as follows:</p>		
<p>1.2.1 Quality Assurance (a maximum of 16 points is available)</p> <p>How the Bidder intends to ensure quality requirements are met, a description of inspection, testing, and documentation procedures as well as quality metrics.</p> <p>(2 points per item) The Bidder will be awarded two points per element for clearly indicating how the proposal will meet each of the elements identified below to a limit of 16 points.</p> <p>The following is a list of elements pertaining to quality assurance. The proposal indicates:</p> <ul style="list-style-type: none"> a) That the Bidder has quality assurance procedures and processes; b) That the results will be recorded/analyzed and conflicts will be resolved; c) When, how and by whom the quality requirements will be reviewed; d) How documents and data will be controlled; e) Relevant quality control processes for purchases; f) How the production, assembly and on-site installation processes will be controlled to ensure quality requirements are met; g) How measuring and test equipment is controlled and describes the format and test results to be provided; h) How non-conforming products are identified and controlled to prevent misuse until proper disposal. <p>*Minimum mandatory points required: 6</p>		
<p>Sub-section Total</p>		

<p>1.2.2 Factory Acceptance Test Plan (a maximum of 10 points is available)</p> <p>How the Bidder intends to demonstrate to the Crown that the system functions correctly off site (Factory Acceptance Testing), a detailed list of tests to be performed with pass/fail parameters should be provided.</p> <p>(2 points per item) The Bidder will be awarded two points per item for clearly indicating how the proposal will meet each of the items identified below, to a limit of 10 points.</p> <p>The proposal indicates that the Bidder has:</p> <ul style="list-style-type: none"> a) Confirmed the requirement for a test plan; b) Provided a test plan; c) Provided test sheets; d) Provided test sheets including pass/fail parameters; e) Provided test sheets, including specific parameters. 		
Sub-section Total		
<p>1.2.3 Site Acceptance Test Plan (a maximum of 10 points is available)</p> <p>How the Bidder intends to demonstrate to the Crown that the system functions correctly after installation (Site Acceptance Testing), a detailed list of tests to be performed with pass/fail parameters should be provided.</p> <p>(2 points per item) The Bidder will be awarded two points per item for clearly indicating how the proposal will meet each of the items identified above in a) through e) to a limit of 10 points.</p> <p>The proposal indicates that the Bidder has:</p> <ul style="list-style-type: none"> a) Demonstrated the requirements for testing the system after installation (Site Acceptance Testing); b) Provided a test plan; c) Provided test sheets; d) Provided test sheets including pass/fail parameters; e) Provided test sheets, including specific parameters. 		
Sub-Section Total		

<p>1.3 Technical Risk Elements (a maximum of 19 points is available)</p> <p>How the Bidder intends to meet the technical requirements, a description of the technical risks elements detailing how the Bidder intends to mitigate them. The risks identified must be limited to a minimum of two Technical concerns only as non-Technical risks are evaluated separately.</p> <p>(0 points) The proposal indicates that the Bidder has not identified:</p> <ul style="list-style-type: none"> a) A minimum of two Technical risk elements, nor b) Technical risk mitigation. <p>(10 points) The proposal indicates that the Bidder has identified :</p> <ul style="list-style-type: none"> a) Two or more Technical risk elements, and b) Risk management process, but c) Bidder does not provide a technical risk mitigation plan. <p>(14 points) As above, plus the Bidder has provided</p> <ul style="list-style-type: none"> a) A risk mitigation plan. <p>(19 points)</p> <p>The proposal indicates that the Bidder has as above, plus:</p> <ul style="list-style-type: none"> a) Identified the impact of the technical risks; b) Associated the technical risks with the bidder, supplier, subcontractor, customer, integration, or equipment performance; c) Described mitigation strategies for the identified technical risks; d) Identified decision points for any approaches proposed to mitigate technical risks; e) Proposed approaches to the mitigation of technical risk that support the requirements of the project.

2 Point Rated Project Management Proposal Criteria

The Bidder must obtain an overall pass score of 70 percent for the Project Management Proposal and achieve the minimum mandatory points identified for each criterion, as applicable. The rating is performed on a scale of 100 points. The Project Management Proposal should include, but not be limited to:

Point Rated Project Management Proposal Criteria	Pts	Comments
<p>2.0 Previous Project Management Experience The Bidder, the project manager, the project supervisor and the technicians will be evaluated. The proposal must demonstrate a detailed description of the qualification and previous experience pertaining to similar projects in terms of size, tasks, clients, responsibilities</p>		
<p>2.1 Experience of the Bidder within the last four (4) years (a maximum of 10 points is available)</p> <p>(2 points per item) The Bidder will be awarded two points per item for clearly indicating how the proposal will meet each of the items identified above in a) through e) to a limit of 10 points.</p> <p>Similar project(s) that have been successfully completed and have provided them with experience pertaining to the following elements.</p> <ul style="list-style-type: none"> a) Similarity of project in terms of scope and/or clients; b) Dollar value over \$100K; c) Installation; d) Training; e) Drawings; and Manuals 		
Sub-Section Total		

2.2.1 Project Manager's (and Primary Back-up Project Manager) Overall Experience (years, size of project & complexity) and Qualifications (a maximum of 12 points is available)

In order to maximize the number of points awarded, the proposal must include the following for each identified resource:

- a) A detailed description, (including dates – Month and Year) the number of years of experience in the specified role for similar projects in terms of size, dollar value, complexity, tasks, clients, responsibilities.
- b) Their Professional Certification(s) –at least one of PMP, PMI, MBA, P.Eng, or bachelor degree.
- c) A copy of their certification or degree.

The proposal must indicate that either the designated Project Manager or Primary Back up Project Manager has the stated levels of experience in the design, supply, installation and integration of systems similar to those described in the STR.

(0 points) – Project Manager & Primary Back-Up Project Manager
 One or both lack experience with projects of similar size and complexity, regardless of professional certifications

(4 points) – Project Manager & Primary Back-Up Project Manager
 One or both have:
 i. Less than 4 years experience with projects of similar size and complexity; and
 ii. No professional certifications

(6 points) – Project Manager & Primary Back-Up Project Manager
 One or both have:
 i. Less than 4 years experience with projects of similar size and complexity; and
 ii. Professional certifications

(8 points) – Project Manager & Primary Back-Up Project Manager
 One or Both have:
 i. Between 4 and 10 years experience with projects of similar size and complexity; and
 ii. Professional certifications

(12 points) – Project Manager & Primary Back-Up Project Manager
 Both have
 i. Greater than 10 years experience with projects of similar size and complexity; and
 ii. Professional certifications

*Minimum mandatory points required: 6

Sub-Section Total

2.2.2 Project Supervisor's (and Primary Back-Up Project Supervisor's) Overall Experience (years, size of project & complexity) and Qualifications (a maximum of 8 points is available)

In order to maximize the number of points awarded, the proposal must include the following for each identified resource

- a) A detailed description, (including dates – Month and Year) the number of years of experience in the specified role for similar projects in terms of size, dollar value, complexity, tasks, clients, responsibilities.
 - b) A copy of their professional or technical certification, degree or diploma in any of the electrical, electro-mechanical, electronics, mechanical, software development, computer programming, network technology or telecommunications fields.
- Note:** Certifications from Manufacturer's courses are not considered as equivalent to a Diploma.

The proposal must indicate that either the designated Project Supervisor or Primary Back up Project Supervisor has the stated levels of experience in the design, supply, installation and integration of systems similar to those described in the STR.

(0 points) – Project Supervisor & Primary Back-Up Project Supervisor
 One or both lack supervisory experience with projects of similar size and complexity, regardless of professional certifications.

(4 points) – Project Supervisor & Primary Back-Up Project Supervisor
 One or both have

- i. Less than 4 years Supervisory experience with projects of similar size and complexity; and
- ii. No professional or technical certifications

(6 points) – Project Supervisor & Primary Back-Up Project Supervisor
 Both have

- i. At least 4 years Supervisory experience with projects of similar size and complexity; and
- ii. Professional or technical certifications.

(8 points) – Project Supervisor Supervisor & Primary Back-Up Project Supervisor

- a) Both have
 - i. Greater than 10 years Supervisory experience with projects of similar size and complexity; and
 - ii. Professional or technical certifications

*Minimum mandatory points required: 4

Sub-Section Total

2.2.3 Technician and Primary Back-up Technicians' Overall Experience (years, size of project & complexity) and Qualifications (a maximum of 8 points is available)

In order to maximize the number of points awarded, the proposal must include the following for each identified resource:

- a) A detailed description, (including dates – Month and Year) the number of years of experience in the specified role for similar projects in terms of size, dollar value, complexity, tasks, clients, responsibilities
- b) A copy of their technical certifications in any of the electrical, electro-mechanical, electronics, mechanical, software development or computer programming including, certifications from Manufacturer's courses.

The proposal must indicate that either the designated Technician or Primary Back up Technician has the stated levels of experience in the design, supply, installation and integration of systems similar to those described in the STR.

(0 points) – Technician & Primary Back-Up Technician
 One or both lack experience with projects of similar size and complexity, regardless of technical certifications

(4 points) – Technician & Primary Back-Up Technician
 One or both have

- i. Between 6 months and 4 years experience with projects of similar size and complexity; and
- ii. No Technical or manufacturers certifications

(6 points) – Technician & Primary Back-Up Technician
 One or both have

- i. At least 4 years experience with projects of similar size and complexity; and
- ii. Technical or manufacturers certifications.

(8 points) – Technician & Primary Back-Up Technician
 Both have

- i. Greater than 10 years experience with projects of similar size and complexity; and
- ii. Technical or manufacturers certifications.

*Minimum mandatory points required: 4

Sub-Section Total

<p>2.2.4 The proposal indicates that one or more of the identified resources (stated in response to evaluation criteria 2.2.1, 2.2.2 and 2.2.3) has stated levels of experience in the design, supply, installation and integration of the systems similar to those described in the STR, as follows: (a maximum of 10 points is available)</p> <p>(0 points) No stated experience.</p> <p>(4 points) Stated experience with private industry or Provincial Governments.</p> <p>(8 points) Stated experience with other Correctional Services or similar organizations.</p> <p>(10 points) Stated experience with Correctional Service Canada (CSC).</p>		
Sub-Section Total		
<p>2.3 Project Management Structure and Procedures Project management structure and procedures describing the implementation of this project.</p>		
<p>2.3.1 Project Management Organization and Responsibilities (a maximum of 10 points is available)</p> <p>This refers only to management personnel and the way that the Bidder plans to organize the project team for this contract.</p> <p>(0 points) The proposal indicates that the Bidder has:</p> <ul style="list-style-type: none"> a) No project management organization in place, b) No plans identified to designate a separate project management team. <p>(4 points) The proposal indicates that the Bidder has:</p> <ul style="list-style-type: none"> a) No project management organization in place; b) A well-developed plan in place to set up a team of trained personnel. <p>(8 points) The proposal indicates that the Bidder has:</p> <ul style="list-style-type: none"> a) A project management organization/structure defined with 'matrix' personnel resources that can be made available to this project; b) Personnel are identified for the positions of Project Manager, the Project Supervisor, Technicians and Electricians. <p>(10 points) The proposal indicates that the Bidder has:</p> <ul style="list-style-type: none"> a) As above; plus b) A well-defined Project Management structure; c) Identified the Personnel that will be executing specific tasks; d) Clearly defined the responsibilities of these Personnel. 		
Sub-Section Total		

<p>2.3.2 Project Management Procedures (a maximum of 12 points is available)</p> <p>This criterion will rate the systems used by the Bidders to implement their project management approach.</p> <p>(0 points) The proposal indicates that Project Management (PM) implementation is not addressed.</p> <p>(4 points) The proposal indicates that PM implementation is addressed but the Bidder has not provided sufficient details to demonstrate that a fully functional PM system is in place.</p> <p>(8 points) The proposal indicates that PM implementation is addressed but the Bidder has not provided sufficient details to demonstrate that a fully functional PM system is in place.</p> <p>(12 points) - As above plus:</p> <ul style="list-style-type: none"> a) Project management based on employment of Program Evaluation Review Technique (PERT) or Critical Path Method (CPM); b) Work breakdown structure is linked to project management; c) The PM system closely tracks status and progress of tasks. 		
<p>Sub-Section Total</p>		
<p>2.4 Schedule, Milestones and Project Management Tools</p> <p>A project schedule of events for all deliverables with milestones and rationale of how realistic and achievable they are should be provided. Availability and usage of a Project Management specific tool and the capability and implementation of supporting a secure customer facing portal that provides real time access to project specific information, including schedules and all customer facing project drawings and documents.</p>
