SOLICITATION AMENDMENT No. 001

The following question and answer are addressed to the specifications for clarification purposes only.

Question 1: Is there a hazardous Material Report available for the project? Specifically are there any asbestos containing materials in the ducting? We have done work at The Max before and have come across asbestos.

Response 1: Yes, there are reports available regarding the status of hazardous material at the EMSI. During the design phase this matter was discussed with the EMSI. The areas in question should not have any hazardous material in them. Any reports will say that. Unforeseen developments will be handled on a case by case basis and potential change orders can be issued if required.

All other terms and conditions of the Invitation to Tender remain unchanged.
