The Annexes include the Statement of Work, the Basis of Payment, the Electronic Payment Instruments, Certification and any other annexes

1.2 Summary

Fisheries and Oceans Canada (DFO) has a requirement to conduct Salmon Patrol Services on the Pacific north coast of British Columbia. The contractor must have the ability to assess salmon stocks, report on fishing activities, collect and provide catch statistics, conduct stream inventories, and collect biological samples. In addition, it must possess the tools and equipment to conduct the work.

The intent is to establish a standing offer for each patrol area so that the contractor can be called up to provide services on an as and when required basis. The inclusion of estimated days per year in the cost proposal document is not a commitment by DFO. It is anticipated that resource managers will endeavour to be in contact with contractors to discuss an upcoming season and what possible level of effort may be considered so that contractors can plan their business accordingly. These discussions are not a commitment or guarantee by DFO to call up or contract for these estimates.

Standing offers are not a guarantee of business and Fisheries and Oceans Canada is not obligated to

use these services. A Standing Offer will be for four (4) years at the discretion of Fisheries and Oceans Canada.

The requirement is subject to the provisions of the Agreement on Internal Trade (AIT). The requirement is subject to a preference for Canadian goods and/or service.

1.3 Security Requirements

There are security requirements associated with the requirement of the Standing Offer. For additional information, see Part 6 - Security, Financial and Insurance Requirements, and Part 7 - Standing Offer and Resulting Contract Clauses. For more information on personnel and organization security screening or security clauses, Offerors should refer to the [Industrial Security Program \(ISP\)](http://ssi-iss.tpsgc-pwgsc.gc.ca/index-eng.html) of Public Works and Government Services Canada (<http://ssi-iss.tpsgc-pwgsc.gc.ca/index-eng.html>) website.

1.4 Debriefings

Offerors may request a debriefing on the results of the request for standing offers process. Offerors should make the request to the Standing Offer Authority within 15 working days of receipt of the results of the request for standing offers process. The debriefing may be in writing, by telephone or in person.

PART 2 - OFFEROR INSTRUCTIONS

2.1 Standard Instructions, Clauses and Conditions

Care should be taken by Offerors to explain each question in sufficient detail in order to enable Canada to provide an accurate answer. Technical enquiries that are of a proprietary nature must be clearly marked "proprietary" at each relevant item. Items identified as "proprietary" will be treated as such except where Canada determines that the enquiry is not of a proprietary nature. Canada may edit the question(s) or may request that Offerors do so, so that the proprietary nature of the question(s) is eliminated, and the enquiry can be answered to all Offerors. Enquiries not submitted in a form that can be distributed to all Offerors may not be answered by Canada.
