Technical Criteria	Maximum Pts	Required Minimum Pts	Score	Preparer Instructions
<p>RT1 Proposed approach and methodology</p> <p>No warranty met = 0 points Partial warranty = 5 points Meets all warranty criteria per RFP = 30 Exceeds warranty criteria = 40 points</p>	40	30		<p>Proponent must clearly demonstrate all Equipment and components meet warranty and redundancy requirements of the RFP.</p> <p>a) Provide a list of components and their associated warranties.</p>
<p>RT2 Contractor Experience</p> <p>Contractor experience items a-d. scoring</p> <p>Less than 1 = 0 points 1-2 = 5pts 3-5 = 10 points Greater than 5 = 15 points</p>	15	10		<p>Contractor must demonstrate, complete with references, the Company has had similar contracts equal or greater than \$400,000 value.</p> <p>Each project should include</p> <p>a) services provided by contractor;</p> <p>b) period of the service including start and end dates;</p> <p>c) name of client organization;</p> <p>d) reference contact name for the client organization, along with email address and/or phone number.</p>

Price Points	Maximum Pts	Required Minimum Pts	Score	Preparer Instructions
<p>RT3 20 yr life Cycle Capital cost and Service contract</p> <p>Prorated on the lowest LCC: Lowest Responsive LCC x 40 / Bid LCC</p>	40	30		<p>The costs the Contractor provides in the separate financial envelope (See Annex B) will be used by Parks Canada to perform a 20 year life cycle analysis in conjunction with the submitted Year 1 and Year 2 maintenance costs</p> <p>The following information for the system proposed will be used in determining the LCC.</p> <ol style="list-style-type: none"> 1) Initial capital cost 2) Cost of commissioning 3) Cost of Annual Consumables 4) Year 1 and Year 2 maintenance costs 5) Annual Energy Usage 6) Cost recaptalization and major repairs 7) Residual Value

3) At Annex "A" – Statement of work:

2.1.5 Installation Point of Entry System

Add: Installation shall include all electrical, mechanical and plumbing requirements associated with treatment system upgrades.

Delete: All water lines are to be copper.

Replace with: Where new interconnecting piping is required for installation of process equipment, new piping is to match the existing.

2.1.10 Documentation

Add: Drawings, the functional specification and design calculations shall be signed and sealed by a Professional Engineer qualified in the design of water treatment systems prior to each installation.

Shop drawings to be submitted to Owner for review and approval prior to purchase of equipment.

2.1.11 Maintenance

Delete: Title, **2.1.11 Maintenance**

Replace with: **2.1.11 Operations and Maintenance**

Delete:

The scope under this item includes

- The annual start up and shut down of water systems 2 weeks prior to the navigation season and after the close of navigation season. (Individual locations may require extended 'in service' duration dependent on building and lock maintenance programs in any given year.)

Replace with:

The scope under this item includes

- The annual start up and shut down of water systems 2 weeks prior to the navigation season and after the close of navigation season **and any service requirements for all systems (new and old) for the 2 year period.** (Individual locations may require extended 'in service' duration dependent on building and lock maintenance programs in any given year.)

2.3 Schedule

Delete:

The Proponent will complete all work by October 31, 2018 and provide an indicative schedule in the submission and update this schedule as soon as possible following the award of the contract. Once reviewed and agreed by the Departmental Representative, this schedule will function as the baseline schedule. For planning purposes 50% of the systems will be installed and commissioned from April 1, 2017 to October 31, 2017. The remaining 50% of the systems will be installed and commissioned from April 1, 2018 to October 31, 2018. If the either the Proponent or Parks Canada proposes an accelerated schedule in the first year it will be at the sole digression of the Department Representative of Parks Canada. Refer to Attachment A for the priority sites to be completed in 2017.

Replace with:

The Proponent will complete all work by October 31, 2018 and provide an indicative schedule in the submission and update this schedule as soon as possible following the award of the contract. Once reviewed and agreed by the Departmental Representative, this schedule will function as the baseline schedule. For planning purposes **30%-50%** of the systems will be installed and commissioned from **September 5 to November 30, 2017.** The remaining **50%-70%** of the systems will be installed and commissioned from April 1, 2018 to October 31, 2018. If the either the Proponent or Parks Canada proposes an accelerated schedule in the first year it will be at the sole digression of the Department Representative of Parks Canada. Refer to Attachment A for the priority sites to be completed in 2017.

- 4) At Annex "B" – Statement of Work:

Add:

"For bids to be compliant, a cost break down for each system corresponding to the lump sum (Micro System and Small System) must be attached to the financial bid."

ALL OTHER TERMS AND CONDITIONS REMAIN THE SAME
