NEW CLOSING DATE: MONDAY AUGUST 21, 2017 @ 2PM CST

Question 1

Regarding the tender of Self-Propelled Windrower - Saskatchewan (01580-170943/B), it has been mentioned in annex "A" section 7.1 that:

"Must accommodate interchangeable 15 foot draper platforms without modification to chassis or platform header"; while section 6.1 states that: "30 Foot Draper to accommodate wheat, canola, barley and pea crops".

Would you please clarify these sections?

Answer 1

The traction Unit must have the ability to accept two platform headers, one 15 foot wide and the other 30 foot wide, both platform headers are to accommodate cereal and pulse crops. The traction unit must accommodate the two interchangeable platform headers without post-manufactured modifications to either the traction unit or headers which would tax the length in time to attach the header or the capacity of the unit.

We only require a 30 foot header now but the traction unit still must accommodate a 15 foot header without modifications to either or all.
