Title: Office of the Commissioner for Federal Judicial Affairs Canada-Desktop Publishing/Typesetting

This amendment is to answer bidders' questions

Bidders' Questions:

Q-19 If we decide to use an "equivalent report/publication" that is not a legal or court document, how do we handle the legal terminology of "volumes"? If the report or publication that we submit forms part of a work or series but technically is not called "volumes", could we still use it?

A-19 Yes, provided that the work forms part of an interdependent series of publications. A clear connection has to exist between the various publications that make up the work or series. For example, your publication may consist of a successive number of parts. The page numbering may continue from one publication to the next (rather than starting over). The different parts of your publication may be cross-referenced, etc.
