Amendment

This amendment is issued to answer questions posed during the solicitation period.

Q: In regards to the panels what would the quantities and complete specs would be? Additionally should all panels have a fabric board to 36" and glass or another element on top to fit to 51" max or higher/lower?

A: The quantities for the panels are to be taken from the drawing, as per the instructions for furniture over 25k with a layout plan.

All panel heights are listed on the drawing (mostly approximately 54", but approximately 34" at the windows). All panels should be fabric to 36", and should have fabric toppers except where Accessory Rails and Tackboards are specified. There is a legend showing each type of panel (height, type of topper(s)) at the bottom of the drawing.
