This solicitation amendment 009 is issued to:

1. Answer questions from the bidders.
- 

Responses to questions received from the bidders.

The following questions have been submitted. They are listed in the order in which they were received and are a continuation from Amendment 008. The responses are provided as indicated.

- Q51. How important is the "Stowed Longitudinal" distance for the crane which is given as 3.2m?
- R51. As per SOW Table 5-4 Crane Physical Constraints, the maximum "Stowed Longitudinal Length" is 3.2m.
- Q52. Does the crane have to be Knuckle Boom or we can submit a Telescopic Boom style crane?
- R52. The term Knuckle boom is a generic term, so it does not preclude any other crane design as long as it adheres to the RFP/SOW. A telescopic boom style crane would be acceptable as long as it meets all the requirements of the RFP/SOW criteria.
