

## QUESTIONS AND ANSWERS

Q4. Will the contractor have access to the internal upper level of the light house to access the deck on top of the light house?

A4. Yes, note the Contractor is liable should they cause any damage to Canada Coast Guard equipment housed on the interior. Further, Health and Safety is the Contractors responsibility and they must ensure the adequacy or integrity of the structure and equipment, should they choose to use it. As with Q&A 6 the Contractor is responsible for following the applicable regulations for anchor points and scaffolding.

Q26. Can we get access to the floor of the lighthouse during construction?

A26. See Q&A 4.
