12	Unscheduled Work – standard charge-out labour rate	Hr	100		
13	Unscheduled Work - Overtime	Hr	40		
Sub-total – Unscheduled Work					
Total – Evaluated Price					

G-2 Unscheduled Work – Labour Rate

Payment for Unscheduled Work:

Unscheduled work arising, as authorized by the Minister, will be calculated in the following manner:

The number of hours (to be negotiated) X \$_____, being the Contractor's firm hourly charge-out labour rate which includes overhead and profit, plus net laid-

down cost of materials to which will be added a mark-up of 10 percent, plus applicable Taxes.

The firm hourly charge-out labour rate and the material mark-up will remain firm for the term of the Contract and any subsequent amendments.

G-2.1 Notwithstanding definitions or usage elsewhere in this document, or in the Bidder's Cost Management System, when negotiating *Hours* for unscheduled work, PWGSC will consider only those hours of labour directly involved in the production of the subject work package.

Elements of *Related Labour Costs* identified in G-2.2 will not be negotiated, but will be compensated for in accordance with G-2.2 It is therefore incumbent upon the Bidder to enter values in the above table which will result in fair compensation, regardless of the structure of their Cost Management System.

G-2.2 Allowance for *Related Labour Costs* such as: Management, Direct Supervision, Purchasing and Material Handling, Quality Assurance and Reporting, First Aid, Gas Free Inspecting and Reporting, and Estimating will be included as *Overhead* for the purposes of determining the *Charge-out Labour Rate* entered in line 12 of table G-1 above.

G-2.3 The 10% mark-up rate for materials will also apply to subcontracted costs. The mark-up rate includes any allowance for material and subcontract management not allowed for in the Chargeout Labour Rate. A separate labour component for the purchase and handling of materials or subcontract administration is not allowable.

G-3 Overtime

1. The Contractor must not perform any overtime under the Contract unless authorized in advance and in writing by the Contracting Authority. Any request for payment must be accompanied by a copy of the overtime authorization and a report containing the details of the overtime performed pursuant to the written authorization. Payment for authorized overtime will be calculated as follows:

(a) For known work, the Contractor will be paid the Contract Price plus authorized overtime hours paid at the following rate; and, for unscheduled work, the Contractor will be paid the authorized overtime hours at the following rate:

\$_____ per hour

2. The above rate will be calculated by taking the average hourly direct labour overtime rate, plus certified fringe benefit, plus profit of 7.5 percent on labour premium and fringe benefits. These rates will remain firm for the duration of the Contract, including all amendments and are subject to audit if considered necessary by Canada.
