

## Breton Detachment Renovation

### Question & Answers

<b>Q14</b>	Will there be any new exterior windows required?
A14	There are no windows included in the SOW
<b>Q15</b>	Will there be a new front door required for the Automatic door operator being installed? If so is the door an insulated steel door or is it a glazed aluminum entrance? (...we have not seen any notation on the drwgs regarding new windows or front entrance door )
A15	There is no door in the SOW. If there is an issue with the door and a change order is required during construction it will be addressed at that time.
<b>Q16</b>	Are there any hazardous material reports done for the existing as walls/floor ceiling are being demolished?
<b>Q16</b>	Unknown, Asbestos testing may need to be done.
A17	What type of new flooring is being installed, it resilient tile, resilient sheet goods or porcelain tile?
<b>Q17</b>	Please see the Q&A as this is changed to marmoleum flooring
A18	Is there any information on the existing lights so that the electricians will know what new is being installed?
<b>Q18</b>	No - site visit will be required for contractor to assess lighting.
